BEFORE WE BEGIN:

Do you see what I see?

I see people stuck to their phone.

The pandemic only amplified this. During Quarantine, The only form of communication with the outside world was via a smartphone or laptop.

Unless you're a G like me, who went out and met people anyway. Fuck the rules.

Anyway, the reality is the women have become more receptive to meeting new peope online- be it through Instagram, via Tinder/ Bumble/ Hinge, etc.

Even if you meet her in person, it's very important to be good at texting, otherwise the attraction might just fizzle away.

Bottom line?

You have to be great at texting, or else you will miss out on a lot of experiences with beautiful women.

Have a great personality in real life, and have an even better text game that makes her wet, and gets hers anticipating your next meeting.

When you apply the techniques laid out here and the **GOLD that is in the rest of the course**, you will become UNSTOPPABLE.

The beauty of messaging is that you can not have the best body, the best voice, but you can make her imagine better and wetter things just by the power of your game online.

Let's begin.

I | What is the point of texting?

To put it very simply- To set up a meeting between 2 or more people.

To elaborate-

This "meeting" can be a date at a third location, or her coming over to your place, or you going to her place.

You also text women to BUILD UP the ANTICIPATION.

Understand that texting is like foreplay.

You show her that you're a high-value man who speaks womanese, and you make her wet by using the power of wordplay. (refer "Master your Dirty Talk" ebook in the Seduction Bible)

What is the point of texting?

Women love it when guys have a better control on language than they do. (always tease her for her short vocabulary)

You build rapport through text so that she knows you're not a kidnapper or rapist who is going to harm her, but a real guy who has value, and is fun and exciting.

Then you use Wordplay to show her that you're not just a simp, but a high value guy who she can have a great time with, and who is going to make her moan in pleasure in bed.

II | Fundamentals

The first belief I want to bust is that there is no such thing as the "perfect text", or the "perfect text game"

It's all about optimizing it. You can become near perfect, but there will always be girls who don't like it, simply because they're either too dumb to "get it" or just disconnected from the trend. It's OK. Don't take it personally.

Bad Text game contains these major issues:

- long messages,
- random texts,
- too many emojis,
- chody language,
- being submissive,
- without a clear purpose. You can remove all these from your game, and life.

Fundamentals

The mindset that you should have is:

*"How would * insert a high value guy you know * text back?"*

A great example, and which I use, is how would Dan Bilzerian or Hank Moody respond to these texts?

-To her shit tests?

-To her asking about what I'm currently doing?

-To her objections?

Would he send long emotional paragraphs with emojis? Would he care about being "polite"?

Fundamentals

You have to take time to practice this until eventually, this will become your default mindset.

Since you have bought the Master Edition, you have the power to do it.

The stuff in here is so rarely talked about in the soy world.

The only thing you require to do is take CONSISTENT & MASSIVE ACTION.

Let's start with the principles. Remember, these are not rules, but to be taken as guidelines.

1 | What is your Purpose?

Don't just text for the sake of talking to her. Oftentimes, women will make you their "texting buddies" if you overdo it. You NEVER want to be available for her all day. You have your own life, and she is not even a priority.

Define the purpose of texting. In most cases, it will be to set up a meet.

That is the primary purpose.

At the same time, you text to check if the girl is weird, boring, or interesting. you're not going to meet up with a girl who isn't worth your time.

But, to prevent flaking, just setting up the meet is not enough. **You have to make yourself memorable.**

What is your Purpose?

You have to stand out in her brain.

You have to make her get excited to meet you. The "11 texts to make her wet in excitement" (part of Master Edition) will tell you exactly what to say.

Sexting is not a purpose.

It is a supplement- which you do after you've fucked.

You can sext all you want but unless you've actually set up a date and met her, it's just a waste of time.

because while you banter, and sext, there's a guy who set up a date with her, met her, and **banged her.**

2 | Being Brief and direct

It's a sign of being higher value.

You hold your attention, yet still, get your point across.

Ask yourself:

Would Hank Moody send long and personal texts to every girl, or would he be busy hanging out with women and just being himself?

Get into the habit of getting the point across with fewer words.

Repetition is key.

3 | Detachment

Neediness is repulsive.

You've probably heard it a million times, but hopefully, you've been applying it and staying detached.

Never put women on a pedestal.

She drops the same load every morning as a chimpanzee does.

This does not mean you put her down.

Treat her like you would any random stranger who you are interested in knowing if they are worth your time.

Needless to say, you are ready to walk away at any time before, during, or after the interaction if you see that it doesn't fit in your reality and is not in alignment with your goals.

Detachment

Some To Do's:-

- Be direct
- Be persistent, but detached.
- be bold. women forgive the bold, NEVER the weak.
- Qualify her

Guys who become "attached" start behaving like a simp, where they think 10 times before sending something, and whether it is safe or not.

FUCK THAT.

When you let go, your mind paradoxically comes up with much better responses, and your text game flows.

4 | Make it easy for her to respond

Game is Sales, and the first rule of sales is to make it easy for the customer to respond back- to take some action.

Similarly, when you text her, you make it easy for her to reply back, especially in the initial stages, where she won't invest as much into you as she would once you've built rapport.

She probably gets tons of messages on her Social Media and dating apps, so you must be easy to talk to.

See man, once you meet her in person, you can show your A-game, and then she will be hooked.

She won't be able to get enough of you, but before that, you have to play the less-exciting game.

Make it easy for her to respond

For example, if she says "*Hey, how are you?*" and you reply with

"*I'm good*",

You've made it hard for her to reply back because you've effectively CLOSED the conversation loop.

Instead, you can reply with- "*I'm fantastic, just came back from a run*"

Now you've not only given her a chance to build upon the fact that you like to go out for jogs and sprints, but you've displayed value, in the sense that you're a physically active guy who gives a fuck about his body and health.

Women love that.

5 | Cut through the bullshit

The problem with many guys is that they take the "friend" route before asking a girl out or making their intentions known.

This is the wrong take. If you're on a dating app, this should be especially obvious to you, because she wants it.

Facilitate "it"- It being meeting up and potentially having sex with you.

Be unapologetic in your intentions. This increases your SMV (Sexual Market Value) in her eyes.

You are not afraid to go for what you want.

6 | Emojis

Do you think Dan Bilzerian sends emojis to girls?

99% of the Emojis break the sexual tension. The same goes for "lol". These are 2 that you should keep to a MINIMUM. and by minimum, I mean 0 or 1 per conversation.

They are rapport seeking as well- you seem very underconfident about what you have to say, and you simply cannot handle the tension. "haha" is another one that easily gives away your validation to the woman.

Remove them from all your conversations for a few weeks, and notice the difference. Another benefit of this will be that your stress tolerance will increase because you will be forced to handle greater tension in your conversations.

7 | Calibration Levels

You have to be bold but in a socially intelligent way.

You don't rush the process. You play the long game.

You excite her.

You push her and you pull her.

You don't push too hard or pull too hard because you know she will sense the neediness and go away.

If she needy more rapport building, you take a step back and genuinely have a conversation where you get to know her deeply.

Calibration Levels

The biggest sin is not being direct, but the next biggest would be being too crude and uncalibrated.

If she shit tests you, you don't get nervous, but you master it, and flip it back on her.

You show that you've been through this a thousand times, and she can't shake you off.

You are here for the win, and you are ready to walk away anytime and do it all over again with the next girl.

8 | Memes & Gifs

Memes are big right now.

What you can't say to a girl even after a lot of comfort is built, you can say via a meme, INSTANTLY.

You could send the most sexual meme and she will still be receptive to it.

Of course, some form of rapport has to be built, and she needs to see you as the "fun, sexual, cocky guy."

That's obviously no problem for you because you will take action on the gold that is in this course.

Memes & Gifs

Develop a collection of memes that you can send at different times of the day.

There is literally an unlimited supply of memes right now.

You can follow nugget on Instagram. It regularly posts sexual memes that you can just forward to her in the DMs. It's personal and easy.

However, don't become her "meme dealer". Send one every 2 days or something like that, and follow it up with a conversation, because actual texting is always more important.

9 | Balance of effort

You ensure that you don't double text, when she is single texting.

You ensure that your investment levels are less than her investment levels.

Initially, you might have to invest more than her, but once you have hooked her in, you make HER invest in you.

Don't send long messages. Keep the length less than hers.

Girls subconsciously pick up on all this. If you have to convey an important point across, then you can send a longer message, but it will be an exception.

10 | Lead the interaction

You facilitate the conversation, and more importantly, you lead it and escalate.

You keep it lighthearted and flirty, and then at times, you take it deep and full of sexual tension.

You take her on a rollercoaster ride of emotions, where she cannot grasp you.

Stay away from topics like Politics and religion- they don't end well. If she takes the conversation that way, give her very little attention and deviate her to your topic of choice.

11 | Escalation Games

Building upon the previous point, here's a great game that you should be playing with girls because it breaks the ice and will help you escalate without much effort.

play the 21 questions game (After building a good level of rapport)-

where you ask each other general questions, and then you escalate it slowly and steadily.

The only rule is that you cannot ask yes/no questions.

The key for you is to have a list of questions prepared. Remember to keep them exciting and on the positive side, because she will relate those feelings with you.

Escalation Games

Eg- 1st Question- What's your favorite place to go when you're happy?

5th Question- When was your first kiss

10th question- When did you lose your virginity

14th Question- What is your go-to sexual position

17th- What is your wildest fantasy
and so on.

She will escalate with you, and you both will connect with each other on intimate topics like Sex, which is essential.

Escalation Games

Because to fuck a girl, you have to start talking about fucking first.

Always escalate the conversation to the point that she feels very comfortable and open to be intimate with you.

For more ideas on questions, refer to "Words that make her wet & 69 Lines to Master your Bedroom Sexual Talk. (Part of Seduction Bible- Master Edition)

They will help you to come up with Questions and develop your Sexual Frame, both of which is very important to get the 9s & 10s Consistently._

12| If she does not respond-

In most cases, you will not even bother to check because you are so busy dominating your purpose.

But in the rare cases that you do have some time on your hands, and your text game was relatively good, where she was reciprocating until she suddenly disappeared-

Here is a good way to respond. It is a little extreme, but if you set the correct vibe, and she genuinely forgot to text back, you will get a reaction out of her- a good one.

"Dear diary, cute girl vanished. Should I call 911?"

"Hey, I'd like your advice. I met this interesting girl, but she seems to be mute"

If she does not respond-

"If you're this quiet during sex, i'm friend-zoning you."

See what we did there? We called her out, and when this pops up on her phone, she will open it and reply, because it's also a neg (a kind of push)

Also, learn to innovate this line. The exact words don't matter as long as you end it with a negative line for her, which shows your detachment and nonchalance.

Remember, you're a cool, chill guy who is screening this girl to see if she's worth your time.

13 | Detached Urgency

Remember that time when your friend asked you to go out with him, but you said "no" because you knew he was always available?

You are that friend, and that girl is you in this situation.

One of the mistakes guys make is that they show that they are always available for the girl.

She takes you for granted, and even if she is interested in meeting you, she delays it because she knows you will "always be there for her"

Detached Urgency

Create urgency.

Let her know you're leaving town or that you are going to be busy with your business after a certain deadline, so she has to decide. Because it's now or never for her.

What is scarce is respected. Become scarce.

This does not mean you become needy. You assert your deadline.

You are the prize.

If she decides, good for her. If she doesn't- it's her loss. **Your life remains the same- FUCKING AMAZING.**

FINAL THOUGHTS

The goal has always been to STOP the brainwashing of Men worldwide into becoming simps- because that is the REAL Pandemic.

Be sure to keep applying the techniques that you've learned here. I recommend going over this texting bible at least 3 times, make notes, and keep beside you when you text women- at least initially so that you can quickly refer and accordingly reply (or choose to leave her on read)

This, however, does not act as a substitute for the other gold that is in this course. Internalize the other guides, increase your value, and your overall game will upgrade exponentially. When you know you are truly high value, you automatically say the right shit. Trust me.

Till then, Keep Winning, Brother,

-MR

BEFORE WE BEGIN

Texting has become important in this day and age.

I shall clarify- when you're on dating apps, using emojis is allowed (initially) because they help make you seem like a person, and not a serial killer. Rule of Thumb- keep them to a minimum.

Another thing to keep in mind- lines never work without staying congruent to whom you are in-person and giving off a similar vibe when you are with her. You can't be a baller on text if you are a pussy in real life.

The rest of the course will help you become High Value and a Sexual Man, so remember to constantly apply the techniques discussed over there

1 | The best opening messages:-

When you match with a girl on tinder/ bumble, or even just text on Instagram, here's a great message to begin with:

- "*You seem like the kind of girl I would have got detention in middle school just to hang out with*"

It shows that she's a naughty one, and let's be honest- women want to be seen as "the naughty one"

The common responses will be like- "*haha you seem worse* "or " *nooo I'm a good girl*", to which you can easily build upon.

The best opening messages:-

This opener gets her qualifying herself and investing in you.

- *"You seem like my future ex-girlfriend"*

Another opinion opener- The reason I like this is because you're future pacing- that is, you're already discussing a possible arrangement between the two of you, yet being detached and casual by adding the "ex". This adds the element of humour. She will probably reply *"oh really, why's that?"* to which you can follow up with another assumption :

"because you look like trouble, and I try not to fall for it"

Just keep it casual, you don't want to invest too much into her, or she will get the needy vibes from you.

2 | The points system

You will enjoy this one. You give and take away points on the basis of what she says and does.

This gets her qualifying herself hard, which gives you the higher position in the dynamic.

What this also does is that it gives her the chance to "win" you over. Women want to chase high-value men, and when you do this, their subconscious keeps score and tries to do things that please you. It's female psychology, bro.

Give her points for the following:

The points system

- Sending you a good meme (and say "that's a minus 1" for a bad meme)

- Sending you her picture

(give her more points than usual, because you want to reinforce this behavior. But keep in mind to take one point away from her if she keeps sending you her basic pictures. This will make her send you intimate pictures after a while of push and pull)

- Being playful
- Flirting
- Being obedient and submissive.

The points system

And you take points away when she does something you don't like.

Even if she isn't doing anything wrong, invent something like- "*You can do better than that. Minus 1*" because you have to maintain the tension.

Rule of Thumb: Maintain the push and pull. You don't want to give too many points away or she will take them for granted.

You also don't want to take away so many to the point where she gives up.

You're a drug dealer, and your drug is points. Keep her hooked.

3 | Dealing with Flaking through Commitment and Consistency

I've spoken about this previously, and it applies to text game as well.

Many girls flake, that's just a reality. What's worse is that all that can be easily prevented by deploying this technique.

While taking her number, or giving her yours, you have to make her agree that she is going to respond to you later.

But you also want to do it in a playful way, which helps it slide in the conversation.

Here's what you say:

"Wait a minute... you're not, like, one of those super flaky girls who never responds to texts, are you?"

Dealing with Flaking through Commitment and Consistency

She is put on the spot, and she will definitely say *" oh nooo I'm not".*

The next time you are supposed to meet, and if she feels like flaking, her subconscious will remind her that she agreed to not be "one of those super flaky girls", and if she has an ounce of guilt inside her, she will go. Once she meets you, and you seduce her, she will thank the heavens that she went.

That is on YOU.

Side note: If she says- *"oh well, I might be"* (rare chance. But she will definitely say it in a playful way. It's a good sign.)

here's how you respond:

"I'll come up with an appropriate punishment"

4 | "I'll allow it"

This is a simple way to let her know your dominance and control over her. Women like this in Men- the ability to indirectly state ownership.

You're playing the "I'm in charge" game.

You tell her you're allowing her to do things, even the ones you just made up. It doesn't matter.

"Are you trying to make me like you? Fine, I'll allow it"

" Are you trying to be a bad influence on me? That's not allowed"

"Are you trying to be cute? I'll allow it, but no funny business"

5 | The Inside Joke

You know that feeling when you and your friend have an inside joke?

It creates a bubble between the 2 of you.

You can do this with women as well.

How?

By giving each other nicknames.

Call her something that sticks in her brain, and that reminds her of a moment between the two of you.

If she's into sweet food items, call her a Sugar Crystal, or if she likes to misbehave, call her a Brat.

The Inside Joke

You can just make your own- the name doesn't matter till you can have an explanation for it, and tease her endlessly.

Save her number on your phone with that name.

At the same time, take her phone and save your number as Chris Love of my Life or something like that- It programs her to connect you with the actual love of her life every time she will text you.

She will think about you all day long.

You will stand out in her brain, and she won't be able to wait to see you.

Remember, the actual nickname does not matter, as long as it is **Ridiculous, Sexual, & Sticky.**

6 | Put HER in the friendzone.

Whenever she does something dumb that you want to build up and tease on, you say the following line-

"I can't believe you just said that.. you're friend-zoned."

Tell her she reminds you of your little sister- and convey it.

"That's so cute.. my little sister does that exact same thing"

You won't have to say it, but you've just conveyed your higher status, and that you have an abundance of women in your life.

Put HER in the friendzone.

" We're gonna be best friends. Just promise you won't fall in love with me, deal?"

And the favorite one, is when you discover something you both have in common, say

"Did we just become best friends!?"

Keep in mind, don't overdo this or she will really put you in the friendzone. Remember, balance the push and pull. This one's a push.

Use it rarely.

7 | Take her on an ADVENTURE.

Women lead monotonous, boring lives. Why do you think Netflix is so popular?

I want you to take her on an imaginary one, in her head, over text.

Tell her exactly what you both are going to do.

Future pace- talk about the things you both will do in the future.

They are all exciting, naughty, criminal, and not what she is used to in daily life.

She wants to be swept off her feet and taken on an adventure.

"I can already tell, we are going to get in so much trouble together"

Take her on an ADVENTURE.

This one below is VERY POWERFUL. Use it on call or in real life. Say this in a Midnight soothing tonality.

" *Imagine we run into each other on a flight 10 years down the line, and we're seated next to each other. It's an overnight flight. Everybody is sleeping, including the cabin crew. You whisper in my ear "I'm going to the washroom. Don't you dare come in" as you get off your seat and head to the washroom at the back of the plane. I go after you, and the naughty brat that you are, you leave the door open. I enter, and you're on your knees, ready for daddy. I pull you up, slide your panties to the side and make you moan in pleasure*"

She'll be wet on the other side just hearing this.

Use future pacing. Very powerful.

8 | Statements, not questions

She wants to be commanded. When you ask her questions, you're signaling that you're a beta male.

Beta: *"Where do you want to go?*
What do you want to do?
When are you free?

Alpha- *We're going to XYZ place. meet me there at 8."*

or *"We're going to the best place ever. I'll be free at 8. I'll see you there.*

" We should get drinks the next time we're both free if you promise to be on your best behavior. Let me know what your week is looking like."

Statements, not questions.

Notice the challenge that I've inserted for her.

There should always be a condition attached so that she doesn't feel like you're begging for her to come.

She has to fulfill certain criteria and ONLY then is she allowed to come.

Also, never invite her right away. Mention the event, change the topic, and after 2-5 minutes, bring it up and invite her. This is powerful because she feels more gratified, as she was waiting to be invited ever since you mentioned it.

9 | Make her find you a suitable girl

Add a clever twist to what people usually say.

Most guys stick to the basic "*Do you want to get a drink with me*" line to ask her out. Over text, that signals boredom, which is enough for her to stop texting you.

Here's what you should be doing instead-

"I'm looking for a cute girl to get drinks with... know any?

She knows what's up, and if she's even a little interested in you, she will play along, and give you a great response.

Make her find you a suitable girl

The best part?

You can put this with anything.

" I want a girl for ___... know any?

The blank is whatever adventurous and exciting thing you want to do with her.

"About to __(venue)__ and grab a drink but I don't have a cute drinking buddy to join me... know anyone who might be down?"

You can say anything as long as you add the "know any" in the end.

Be sure to make it fun and exciting.
I'm sure you will overuse this, and you have my permission to do so :)

10 How to make girls send you nudes

This technique will get her hooked and you laid. It is called “compliance.”

You build it up, starting with something small- like a cute picture for her contact photo.

Then you rewarded her for complying - you tell her she looked super cute. Remember, what gets rewarded, gets repeated.

From then on, you keep asking for more - a little bit at a time... like dropping a path of delicious little breadcrumbs that lead straight to your bedroom.

Women want your validation, and as long as you keep validating her for sending you a photo, she will keep on sending her.

How to make girls send you nudes

Especially later on in the evening, or when she's bored at home, and she's getting kinda horny thinking about you.

Don't make the mistake of "trying too hard" to impress her or make her want you. **There's a fine line between pedestalizing and validating.** Remember that.

That always backfires, because you fall out of the "Alpha" role (the one being chased) and fall into the "Beta" role (the one doing the chasing). You always want to keep her chasing you - that's when everything happens nice and smooth.

How to make girls send you nudes

All you have to do is keep teasing her, flirting with her, and rewarding her for chasing you (all while you're moving things towards a date or a hookup, of course).

She's sending it because she wants that reaction from you.

It turns her on to know that she is turning YOU on.

She wants to feel DESIRABLE.

Do this right, and by the time she meets up with you... she's already decided that she wants to sleep with you.

So you don't have to do much, or "try" very hard to get her into bed... just show up and be your charming self.

Pretty cool, right?

Instead of stressing out over a date, or worrying about rejection... just send her the right texts and 90% of the work is already done-for-you.

Yep, hooking up with hot girls just got a whole lot easier for you, and a LOT more fun.

especially when you use the next technique ;)

11 Give her a false choice

A girl isn't going to send you nudes out of the blue unless you've been banging her or if she has been sending them to you for a while.

You have to turn her on.

Since you've invested in this course, and taking action, you will be able to.

And this technique is the most rejection-proof way of doing it. It makes you look innocent and leaves her with little choice.

Here's how this goes:

Give her a false choice

You give her 2 choices- and most girls choose both 2, because you've framed it as a challenge.

Mid conversation, when the tension is building up, tell her:

"Right now, I want you to either- send me a really sexy pic- or tell me a secret"

It also makes her more and more comfortable with the idea of sleeping with you.

This works only after you've built a good amount of rapport with the girl.

Rapport = trust + comfort.

Give her a false choice

You do that, and she will happily send you her pictures **because she has already been fucking you for hours inside her imagination.**

you can also begin with something like-

"I have a challenge for you" and then when she says yes, follow up with the false choice line.

Be sure to hype her up, because she felt through her gallery to find the best one to impress you. She's chasing you, and you rightfully can give her your validation. and in the rare event where she does not send you her picture, tease her for being a pussy and say *"that's it, I'm friendzoning you"* (playfully)

BONUS: PLAY THE WORD ASSOCIATION GAME.

You have to give your high IQ brain a break when texting, seriously. You see, texting women is a lot about getting emotional responses from her. You have to get down on her level, usually a kindergarden mind. Anyway. Here's how this goes:

Tell her: *Hey, are you up for a fun challenge? Let's play the word association game. I text a word, and you text me the first one that comes to mind. I'll go first."*

And then text her your first word.

What you're going to do here is slowly but surely escalate your word choice so within 5-7 words, she's dripping wet with anticipation
and imagination on the other end of the phone.

Try starting with “Lips”. Let her respond, and keep going from there

Some words to include:

Ravished
Wanting
Spank
Oral
Hard
Dripping
Doggy

Relaxed
Choke
Tongued
Lick
Teasing

Panting
Scratch
Nibble
Bite

Refer to "Words that make her Wet" & "69 Words to Master your Bedroom Sexual Talk" for more similar words & statements.

You're welcome

FINAL THOUGHTS

Damn! That was a lot to take in, I'm sure.

What you just went through are tried and tested lines that work brilliantly, BUT with the right offline game and personality (which the rest of the course covers)

You have to be a High-Value Man so that when she looks over these lines, she thinks

"wow he's so fucking amazing AND he also really knows how to text a girl"

FINAL THOUGHTS

These Lines are like Whey Protein.

It cannot replace actual value, but if you put in the hours on yourself, this will exponentially improve your results.

You'll be surprised how bad guys are at texting girls. It's horrible.

I want you to set a daily reminder on your phone to go over these.

This will come with time, practice, and application.

Enjoy, and keep fucking dominating.

Welcome: Your NEW Self-Image

Congratulations on getting this guide, my man!

You've taken the first step on this journey towards becoming a high-value, dominating, attractive man.

You've shown COMMITMENT to your mission.

This is what sets you apart from 99% of men. Most men will NEVER take the first step, and keep whining about their loser reality.

But you're different. You've had enough. You are ready for every new opportunity coming your way.

Your new self image-

"I am an action-taking badass. I am COMMITTED TO becoming a High-Value Man who effortlessly sleeps with 9s and 10s while living an incredible lifestyle"

SAY IT OUT LOUD. REPEAT IT AGAIN AND AGAIN.

WHY LEARN FEMALE PSYCHOLOGY?

Aren't men and women "the same" and "equal"?

well, that's exactly what society has made you believe. they've told you that if you just be yourself, the nice little boy, you will have a fruitful relationship.

I hate to be the one to break it to you, but that's NOT the case at all.

In today's world, you are misled by society and media, and thus your relationships with women and other men are destroyed before they even start.

Don't hate on women, they're beautiful. The basis of this book is the celebration of femininity and female sexuality. I absolutely adore women! *(but, I **don't worship them**. big difference there)*

Note- it's important to remember that no woman embodies a stereotype, yet all women share these common traits in a greater or lesser degree.

Law 1 | Attraction is NOT a Choice

Attraction is not a choice. Women, on a deeper core level, are still attracted to the cues that she was since the dawn of time.

You don't need money or looks like society might have you believe.

No, Attraction is value, and it has 2 drivers:

1) Survival
2) Reproduction.

Think about the cavemen times, when the alpha cavemen were fearless, grounded, assertive, free, loud, dominant, and resourceful.

Also, her sexual arousal will increase when she becomes aware of the fact that you are sexually attractive to women in general (social proof)

Law 2 | Money doesn't EXIST for Women

In 2023, it is easy for women to get money from men. All she has to do is flash her tits and ass, and simps will come begging to give her big racks of money to click a photo with her.

If she doesn't want to do that, she has orbiters around her who will give her gifts and money in the *hope* that she sleeps with them. that never happens though. These orbiters can easily buy her anything she wishes for, so no, she doesn't need your money.Because in a beautiful woman's life, money is ABUND

Your money and your nice car buy maybe 5 minutes of her attention.

She is attracted to your GAME, and how well you internalize it to truly become a Masculine, Alpha Man who is dominant and decisive. She is attracted to everything you will learn in this Seduction Bible course.

Female Psychology:

"He has got so many layers about him. One moment he's dominating me in bed, the next moment he is petting a dog on the street, feeding it.

I love the depth of his personality."

Personality can be defined as how vast you are in your emotions and your actions.

Her attraction for guys who are "only assholes" or "only nice" dies away quickly because she gets bored of the one-directional personality. Instead, give her a rollercoaster of strong emotions and she will be hooked onto you like you a drug.

WHAT IS THE SEDUCTION BIBLE?

Do you struggle with—

- **Approaching Women**
- **Escalating your conversations towards sex**
- **Retaining women in long term relationships**
- **Building an amazing social circle to create amazing memories?**

Gaining the respect and admiration of your peers?

Then you might want to check out Seduction Bible
It will get you the girls, and if you pay close attention, it will help you even more in life ☺

Law 3 | Your Feelings don't mean SH*T

Since the dawn of time, women have always slept with that one alpha male. This is observed in nature as well, where the one alpha lion fucks all the females, and the weak males are banished from the tribe. She simply doesn't care about your feelings bro

If you become physically or emotionally unfit in the relationship, she will have no guilt about kicking you in the nuts even when you are down.

Don't expect her to give you comfort for long if that's your thing.

Find a brotherhood(Join ours-its free) and your close male friends to confide in tough times.

Search "The Brotherhood" on Telegram

Law 4 | To F*ck a girl, you first NEED to do THIS

You know women are fearful of being judged, but here's how serious it actually is.

They are most afraid of being judged by YOU.

If you in any manner make her feel like she's being "easy" or "slutty", she will immediately close off and never sleep with you.

That is also why nice guys with their "friend to girlfriend route" will never allow her to open up. In their reality, it is not possible for women to sleep with a guy before he spends 10 dates with her and buys her presents.

Don't be that guy. Be comfortable talking about sex, ask her about her craziest sexual experience (share yours first).

Because if you want to fuck a girl, you're gonna have to start talking about fucking, first.

BONUS- TWEET EXPLAINATION

“

Female Psychology:

“I can’t recognize him anymore.

He no longer simps on me, doesn’t give me his attention easily, and has that amazing aura around him.

I want him back”

”

When you grow a pair, work on yourself, and become 10x better than you were before, she will cry every night knowing that she left a high-value man.

Never take her back. Onwards and Upwards.

Law 5 | Female Logic

generally, Female logic can be visualized as a sequence of emotional states

--> b --> c --> x --> y --> a

Where the emotions and her reactions are not in a logical sequence. If she's mad at you for staying too late at work, she will say "you sure like to be away from home all the time!"

Trying to apply male logic here, which would say- "what the hell?" does not work. You have to use your sacred knowledge of female psychology and speak to her in womanese.

in this example, you will reply "yes, I would love to sleep at the office itself, it's so comfortable here"

You're **agreeing and amplifying** her objection, which effectively neutralizes it because even she realizes how ridiculous it sounds.

BONUS- Tweet Explaination

Female Psychology:

"I was so toxic to him. I constantly disrespected him. Why is he still ready to accept me back?

He must be really desperate"

I don't care how hot she is.

If she disrespects you, she's out of your life. You set your boundaries from day 1, and she will abide by them.

If you show even a hint of tolerance, she will know you have zero options, and she will let go immediately because you're no longer the Masculine Man you were.

Law 6 | Women don't use Words to Communicate

Women have learned to communicate with each other and with the men they are attracted to through their sub communications.

Why? Because if she communicates directly, she fears being slut-shamed and judged by society.

Hence, over the thousands of years, women have perfected this skill.

- to avoid responsibility and establish plausible deniability. (*I told him we are not having sex or I just went to his place for a cup of coffee!*)

- to avoid commitment and keep her options open (women are always looking for a better option, hence it's important to keep improving as a man)

Law 7 | Sex is a BIG Risk for Her.

Think about it. You, as a guy, can sleep with hundreds of women without being shamed.

In fact, your friends will cheer for you and you can go on with your daily business.

But for her, as a woman, she is taking a huge reputational risk at the least, and the worst-case scenario?

having to bear a child for 9 months and for her life after. There's literally no going back for her.

And subconsciously, she is processing all this. Her feminine energy is noticing whether you are capable of protecting and providing for her offspring, in case she does get pregnant.

BONUS- Tweet Explaination

Female Psychology:

"He is chasing me so hard, even though I barely give him any attention. Does he even have a life?"

The Classic simp.

Listen man, if she leaves you on read, or always replies with "Ok" or "cool" or "haha", she's not interested in you.

Move on, improve yourself and your value, which you will by applying all the GOLD that is in this course, and you will be attracting even higher quality women.

>>TAP HERE TO GET YOUR COPY BEFORE THE FEMINISTS TAKE DOWN THE COURSE!

Law 8 | She loves sex, needs sex, and receives more pleasure from sex than you do.

Women lose their minds when they orgasm. She completely loses herself in that moment, and she craves that feeling from the man she's attracted to. Women can experience multiple, even continuous orgasms. She's only limited by her imagination.

The problem arises when guys and society tell her to suppress this feeling. I'm talking about the quality women who are waiting to be seduced but are unable to because the guy isn't open enough or is ashamed to talk about sex. Don't.

Sex is the most natural and prevalent element in this world.

Note- Just to be clear, there are women who have been with a lot of guys, and you generally want to avoid them because of millions of reasons- STDs being among them.

BONUS- Tweet Explaination

Female Psychology:

"When all guys go in the same direction, he chooses to go on his own path, not listening to society.

He has to the balls to be different."

Women are sick and tired of mediocre guys- aka the 99% who have been brainwashed by society and have become sheep.

When you think for yourself, and make decisions or hold controversial opinions, it sparks excitement and interest in her because you are a rare, dying breed.

Law 9 | How Women Look for Sexual Partners

As males, we immediately know whether we are ready to sleep with her or not.

women don't feel "attraction" at first sight. She feels "interest" at first sight. As soon as she looks at you, she puts you in one of two boxes-

1- interesting, potential partner, or 2- friendzone.

Once she's found you interesting, she will subconsciously note down your high-value masculine signals- your body language, masculine energy, ability to tease, disqualify her, banter, and actually make her feel strong emotions (All of which you will learn in this course).

After about 30 minutes, she is pretty sure whether she will fuck you that night or she needs to probe further.

BONUS- Tweet Explaination

Female Psychology:

" I see women around him on social media.

He must have a lot going on for them to be interested in him. I want in"

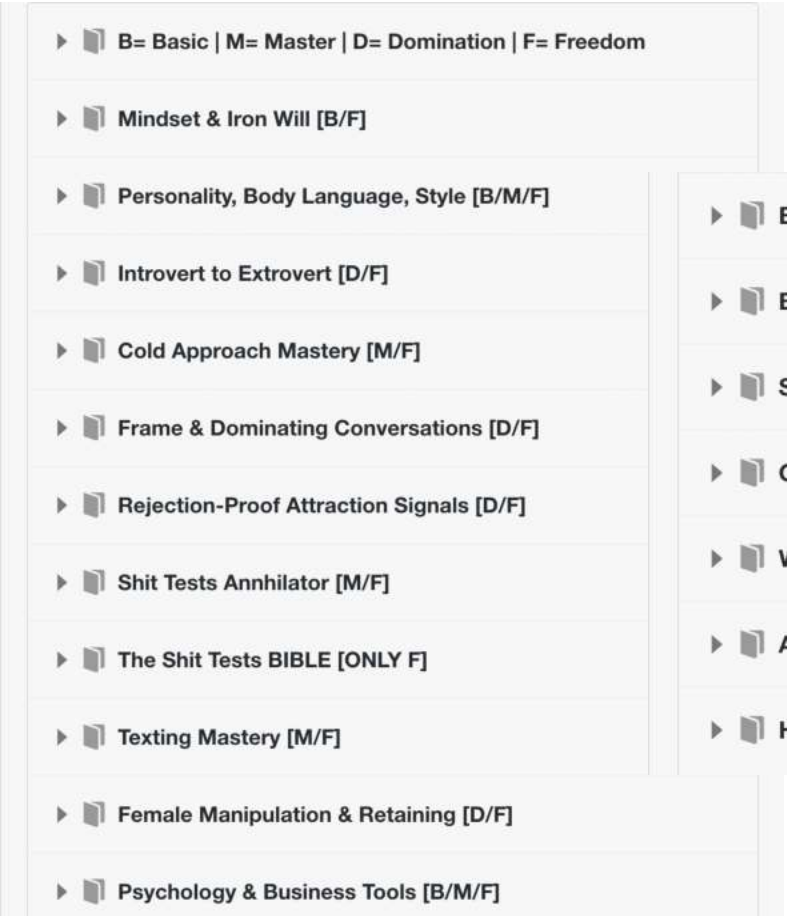
The social proof.

. Whenever you can, put pictures on social media or other platforms where women are with you, laughing and leaning in. She feels safe around you because she knows you've been "vetted" by other women and they find you attractive. So will she.

Women attract other women.

All the 689+ pages inside 30 guides are neatly arranged into these folders-

Seduction Bible has helped 1600+ Men Sleep with the Women they DESIRE.



Law 10 | Women seek Validation for Social Approval

she might like you, but if she feels that her friends will judge her or that she will receive higher social status in the environment if she rejects you, she will do it without a second thought.

Hence, its important to first, have higher status in the environment you're gaming at (tip heavy to the staff, build rapport with them and they will treat you like a king), or 2, be discreet about your interactions and after building some comfort and trust, take her somewhere private.

If you will boost her spot on the social ladder, she will fuck you.

BONUS- Tweet Explaination

Female Psychology:

"He knows how to put women in their place. I've never been shut down like that before."

"It's a huge turn on"

Most guys don't have the balls to shut her down and tell her that she's fucked up and to leave.

Women walk over them and on their way, take his happiness, peace of mind, and masculinity.

Never let a woman do this to do. If she's crossed a boundary, make it clear to her.

Law 11 | Her Attraction is Emotional, NOT Logical!

She might be extremely attracted to you one minute, but the next day, it's back to day one.

That's why, on day 2, remember to recollect a moment you both had, take her back to that evening and her emotions will come back.

Also, bragging about how great you are will never work. You have to convey it in a subtle way, preferably through somebody else's mouth (social ladder)

Make her FEEL strong emotions. Tell her about a future event you both are going to do- take the vacation, go shopping and buy her that sexy red panties, fuck her in the bathroom of a Boeing 747 (Future Pacing)

The strongest sexual organ inside the female is the female brain. Change her mood, not her mind.

BONUS- Tweet Explaination

Female Psychology:

“he told me I’m too short for him.

how dare he!? I’m going to prove that I am worthy of his attention and affection”

The evergreen Disqualifier.

Don't suck up to her. tease and disqualify her a little. tell her "we would've been a thing if you were a little taller. Oh well"

What kind of a man has the balls to say this? A Man with options. You.

Law 12 | Signals of Sexual Attraction

- Looking downward after having had eye contact with a male she is sexually attracted to is a clear sign of submission among all primates.

- Blushing.

- Scratching of her wrists and inner arms.

- Giggling is often sign of submissiveness.

- Emotional or dramatic outbursts. In most cases, this is a clear sign of sexual arousal in a woman.

- An increase in lower body movements that attract male attention.

- Impaired concentration and an increase in the unrelatedness of emotions within a sequence.

BONUS- Tweet Explaination

Female Psychology:

"He doesn't try to convince me.

He's so busy dominating his path and fulfilling his purpose that he doesn't have the time to fall into my frame."

Never convince her to stay. She's already made her decision, and if you try to push it, it will repel her and make her go faster.

Neediness is the most repulsive thing to women.

Get busy living, working on yourself and your purpose.

Law 13 | Alpha Fucks, Beta Bucks

The heart vs the head.

The lover is that attractive, fun-loving, non-judgemental guy who is often reckless but makes her feel like it's only her and him.

Think Cassanova and guys who are "naturals". Women will often fuck these kinds of guys faster than usual.

The provider is that "marriage material" guy whom the woman actually sees a future with. He will usually be judgemental and buy her things and gifts to impress her and get her attention.

She will not be sexually attracted to him, but the side of her that wants to secure her future will keep him in the loop, holding off the sex until the very end to drain him of his wealth.

EI TIGRE

I want to give a huge shout out to the seduction bible. Went through various sections, like words that make her wet, high value body language and others. Met a girl last night. I decided to try it out because we had some alone time in the bigger group. Used words like choking, tease, desire and SHE started to make sexual comments. She wanted to go home, and she was telling me that the entire time. Then when it was time for us to leave, she came with us. I continued to game as much as I could remember. (I Still have a WAYS to go) we all got back to the place later that night and SHE went in for the kiss. She kept begging me to fuck her. When I tell you that learning game, "playing" with her subconscious about you....works, even though I didn't execute everything properly it still worked.

BONUS- Tweet Explaination

Female Psychology:

"I am begging to fuck him but he is focused on his vision. I know he is going places.

I want to latch onto him"

If you can deny a woman sex because you're busy, she's going to be wet in disbelief. She's never been rejected before.

In fact, most guys would kill for a chance to be able to fuck her. You're not most guys.

You're a Man. If your mission calls, you leave her INSTANTLY.

Law 14 | Women Crave THIS in a Man

when she's deprived of eye contact by her man, she gets anxious. But when eye contact is maintained for longer periods, she feels happy and rewarded.

The paradox is- in the longer run, women will experience a decrease in sexual attraction towards the male who seeks too much attention from women.

Hence, calibration is most crucial. Learn to look at the signs and balance your attention out.

Women actually get a chemical high from talking, and that would explain why they love to talk so much and why many men do not possess the same level of verbal communications skills that women do.

Maintain eye contact, and let her open up by asking her open-ended questions.

BONUS- Tweet Explaination

Female Psychology:

"He has multiple sides about him. I can sense the struggle between the part that loves me and the part that wants to chase his purpose.

I hope he chooses his purpose. I don't want to be his #1 priority."

Don't be a monotonous boring man. Have different sides to your personality that she discovers from time to time.

That little bitch inside you will want to spend a few more minutes with her, but that's exactly when that alpha inside you will stop him and chase his purpose.

Law 15 | Women Rationalize Backwards

Although we all do this sometimes, it is extremely prevalent in women.

She will tell herself and society that she wants a nice guy who treats her well and buys her gifts, but then do the complete opposite by dating an asshole who treats her like crap, doesn't return her calls, and keeps her in the dark about his life. Toxic.

What she will do afterward is focus on the good parts about that toxic guy, and delude herself about the truth.

Why? As an excuse to reduce the friction and identity crises she will have to face about who she thinks she is vs who she really is.

Always watch what she does, not what she says

BONUS- Tweet Explaination

Female Psychology:

"He leaves me on read. He must be texting 10 other girls who want him.

I must fuck him first"

When you leave her on read, she assumes that you're either fucking some other girl or texting some other girl, both of which make her feel incredibly attracted to you.

always leave on a high note, making her want you more, not having gotten enough of you.

Law 16 | She Shit-Tests You Because She Gives a Shit About YOU.

Imagine this situation. You drop by your apartment to pick something up while on a date, and she says

"OK, but we're not having sex."

If you get flustered by such a statement, goodbye. But If your response is

"Yeah, so, who's talking about sex here?" the door for sexual engagement remains open.

what she means is she will take no responsibility for the outcome. If she ends up naked in your bed, that's not her fault because ***she said "no sex."***

This also prevents slut-shaming because she can tell her friends who ask *"I told him "no sex"* before I went into his apartment." Rest assured, it happened.

SHE SHIT-TESTS YOU BECAUSE SHE GIVES A SHIT ABOUT YOU.

BONUS- Tweet Explaination

Female Psychology:

"He makes decisions for his loved ones. He takes that burden off their shoulders.

I want that decisiveness in my man"

As a Man, it is your duty to lead others. To make decisions for others.

That is your gift of Masculinity.

When she sees this, she can trust you with protecting her and your offspring from uncertain environments.

Women are Beautiful.

FINAL THOUGHTS

"when women "lie" with their mouths, their bodies or emotions tell the truth. The rare man that can penetrate these words and handle the truth - as the woman feels it - is a man who is very well-loved by women, indeed."

NO B.S Instagram Optimization Guide

I’M ANGRY.

Im angry at all the dudes who aren't actively developing their Instagram profile.

The same dudes who will pay for tinder and bumble premium but won’t invest in a good profile.

Instagram is the BEST Dating App Out there.

In fact, Instagram is the best App to MEET OTHER COOL PEOPLE.

But

The traditional Instagram Game has changed.

cold DMing girls is alright, but you want to DRAW THEM IN.

This is going to be a No B.S guide On Optimizing your Instagram to Draw in Beautiful Women & Connect with Badass Men.

First,

Most of You need to absolutely ERASE ALL YOUR CURRENT POSTS because they are so bad, so LOW QUALITY.

And I don't mean camera quality,

I mean WHAT IT COMMUNICATES.

Confused?

LET’S FUCKING BEGIN.

INSTAGRAM > PHONE NUMBER IN 2023

Sold to

I used to go for a girl’s phone number Too, back in 2020 and before.

But now?

I don’t see the point.

Not before you’ve ATLEAST kissed her.

Why?

Your phone number doesn’t mean anything to her.

But through your Instagram?

she can get a GLIMPSE, a SNEAK PEEK, into your Life.

- The kind of people you hang around with
- The places you visit and your status at those places
- The amount of women who know, like and trust you (social proof)

Your Instagram is the BEST TOOL to get women in 2023.

Why would you want to take her Phone Number?

If you’re a weird dude she’s gonna leave you on seen either way, G.

The Flexing Lifestyle is DEAD.

In 2023, anyone can put together a few flexing photos.

Every girl knows the game.

4 boys, Pooling together some money, going to exotic places, living in dirty houses but getting the “Instagram pictures”

In fact, it’s not even respected or admired anymore.

Women crave authenticity.

Women crave PERSONALITY.

Women crave SOCIAL STATUS.

Women crave YOU.

So be authentic, wrapped around in a desirable lifestyle

What is a desirable lifestyle? It depends on the women you want to attract.

In fact, I would avoid traditional flexing because Artificial Intelligence and tech has made it so fucking easy.

The new “flex” is having TIME & LOCATION & LIFESTYLE FREEDOM.

Going on a hike among the mountains on a Tuesday Afternoon, when most people are working in your corporate job.

Shooting the shit with the boys, windows down, gassed up when most are in their homes.

The new “QUALITY” photos are not professionally shot, but IN-THE-MOMENT.

Nonchalance.

WHAT YOU NEED: THE GOLDEN MINDSET

The Golden Mindset is very simple.

Nonchalance + Authenticity + Natural

Posing- Literally and Metaphorically, is DEAD.

What’s valued is Random, In-the-moment photos of you and your tribe taken by your friends.

SET THE CULTURE AMONG YOUR SOCIAL CIRCLE-

EVERYONE TAKES RANDOM PHOTOS OF EACH OTHER ALL THE TIME.

That’s literally it.

You’re out for a daytime coffee or a playing a sport.

Take out your phone and start snapping pictures.

Everyone does the same, and then you share the photos with each other.

IT’S AN UNSPOKEN RULE.

When you do this,

Every picture will be conveying a STORY.

You with some girls on a hike, you with the boys at a gun range, or you with your social circle standing up and giving a toast.

You shooting the goal, scoring a basket, talking to a beautiful girl.

HE IS THE COOL GUY.

So remember to keep taking photos and videos everywhere you go. You can use it for a 1 second clip in a 9 second reel that goes viral. who the fuck knows. PERSONAL CONTENT IS KING.

WHO ARE YOU?

Most guys never ask themselves this question.

and then, proceed to copy every basic influencer type who has ZERO respect.

Your Instagram is YOUR TRUE SELF.

You can honestly also display your harmless flaws on your stories once in a while, like let’s say, you’re out with your friends and you spill something.

Ask your friend to take a video of you, where you all just laugh about it.

This is another idea of posting a story. I’m going to be dropping a lot of ideas, create a mix of it

Do cool shit that you like and post it.

What is “cool shit”?

Well, it depends on the kind of audience you want to draw in.

Your profile picture is just you looking cool.

Your Bio is a simple statement that intrigues the audience. A one liner like - “Now or Never”

Anything honestly. Don’t overthink this. you’re not an influencer.

WHAT KIND OF AUDIENCE DO YOU WANT TO ATTRACT?

I know TONS of multi-millionaires who have adopted the flex angle on Instagram.

Sure, they get laid.

But that’s ALL they do.

They are unable to attract QUALITY women and find it IMPOSSIBLE to RETAIN them.

You attract what you put out.

CREATE THE IDEAL ARCHETYPE OF THE WOMEN YOU WANT.

Name-

Interests-

Hobbies-

Kind of Memes they look at-

EVERYTHING.

THINK.

Do this RIGHT NOW.

In fact,

The kind of content you interact with, is the kind of people WHO YOUR PROFILE WILL BE SHOWN TO.

The kind of content you interact with, is the kind of people WHO YOUR PROFILE WILL BE SHOWN TO.

Start interacting with food accounts, fashion accounts, and similar ones that the kind of girls you want see.

No Rap account please.

Interacting with Tweets is also great on instagram. Lot of pretty girls do that.

If you want the 9s but who are BADDIES, go to the club and make friends, post pictures and interact with the nightlife accounts.

But all this is hard without the social circle mindset.

Your Social Circle Mindset

You cannot have an amazing Instagram without an above average social circle filled with people who do cool stuff.

I have a DETAILED guide on how to create, curate, and grow a Social Circle inside Seduction Bible, which is honestly overpowered. (Check it out- gum.co/seducewomen)

But, I'll put in a basic how-to from the Q&A Bible (which is my $5 guide on my personal opinions about various subjects. Check it out here- gum.co/askmr

Social Circle is my favorite topic, because it's the KEY to the game going forward.

Nothing has a higher ROI in 2023 and onwards.

Friends help friends.

Building a social circle is fun. Genuinely.

But before you do that, YOU MUST ENJOY YOUR OWN COMPANY.

Learn to do things SOLO.

People will love your company only when you first love your own.

The key is to recruit people who are the best at something.

One is best at bringing the party, one is great at money, one is great with networking, one brings the funny elements, etc etc.

The ratio should be equal, although you can and should have different social circles for different purposes. Some will have more girls, some will have more guys.

On the other hand, as you grow wiser, stronger and successful, you will lose touch with a lot of old friends. You simply won't be able to relate. That's alright because it's the healthy churn of life.

How do you increase your social value though?

Think- what do you have that others want? or better yet, NEED?

Do you bring fun, excitement and amazing emotions to the table?

Do you have access to women?

Different circles have different needs, and to penetrate them, you need to put yourself into their radar.

Like I've mentioned later here, you must go to places of common interest.

Then FIND RAPPORT through stories, shared experiences, charismatic questions.

What this does is, it helps you DIG FOR COMMONALITIES.

Frequency (how many times you see each other)

Duration (how much time you meet each other for)

Intensity (of the emotions and memories shared)

Commonalities (What you both vibe on)

The FDIC formula is KEY.

Then, to have a reason to keep in touch, you plan a future event, like having a drink with them to doing the common interest again.

I could go on and on about this.

I have an in depth guide on this called the Social Circle Bible. (It's 1 of 30 guides inside my bestselling course, The Seduction Bible) **Link HERE** if you want to check it out.

Depth of Character

You need to have different sides to your self.

Don't be the "travel dude", the "trust fund kid" or the "fuckboy"

Combine a mix of them THREADED BY THE GOLDEN MINDSET.

- Some days you show your ambitious side by posting a sneak peek of a project you're working on.
- Some days you show this hobby you're playing
- Some days you show what you and your social circle are upto.
- Some days you're all alone, reading a book or having coffee.

Instagram Stories is where you'll be posting the day-to-day,

And Your Posts are where you'll be posting your NORTH STAR.

Let’s say, you’re big into traveling. on your profile posts, you post you in an exotic location.

Carousel posts are doing amazing these days.

Put in a mix of your photos, group photos, random quotes, funny elements into your carousel.

Now, I don’t watch anime, but I know a LOT of pretty girls who do.

So, even if you don’t want anime, just look at what the popular ones are these days, and post any random story of an iconic scene. Or… you can actually watch it if you have the time.

I frankly don’t and I don’t go the anime route, but you can.

AGAIN, THESE ARE ALL POTENTIAL IDEAS.

KEY- Do NOT put YOUR ENTIRE LIFE on Instagram, but treat it as a SNEAK PEEK INTO YOUR LIFE.

Like a keyhole that a girl (and guys) see your life from- but still need the keys (sliding into your DMs and meeting you) to actually get the full treatment.

THE COLD TO WARM APPROACH: CTW

The CTW approach on IG is my favorite.

I funnel in girls who I meet through my social circle + content + approaches into my Instagram.

Then, I send them a Meme/Quote/Post related to something we had a commonality on, or vibe upon.

This builds some rapport.

If you follow this random girl who follows you back, then- wait for her to post a story. See what she’s about and the ONLY ACCEPTABLE way to slide into her DMs is to REPLY TO HER STORY with a funny/cocky/charismatic remark.

Don’t ask me what, just be a cool dude who’s giving off good vibes.

Now, she knows about your existence.

Do some back and forth banter, FDC- (gum.co/getmoregirls), and get the sharing reciprocity going.

Ideally, you want to mix in every “share” with some more conversation and eventually inviting her to a date.

Which places to go on a date? well, look at the places your ideal girl/guys are going to. Start going there solo and get the place ON LOCK.

It’s not that difficult, and I don’t want you to focus on the robotic stuff.

Don’t waste time on girls who don’t care.

Its Instagram boys, There’s literally a BILLION Women.

Eventually, I will also start sending her DMs of my Passion Account.

Let’s say, yours is your fitness account where you post your workout results and flex.

It’s acceptable to share that and add a “Hey, started this xyz because xyz. Do give it a follow, thx”

All these things are going to make the girl in question STALK YOUR PROFILE- HIGHLIGHTS, POSTS, EVEN COMMENTS.

It’s literally so easy.

Human Touch:

Authenticity is the most valuable currency on Instagram.

The current and upcoming generation have all realized that the flexing lifestyle is fake.

They don’t trust “influencers” because they know it’s all shilling.

They trust PEOPLE LIKE THEM.

And how to make women realize they like you?

Make them realize THAT THEY ARE “LIKE YOU”

What do women love? Travel, Art, Food, Humor

Your stories should convey PERSONALITY.

Add your “WEIRD” twists. Be funny, be interesting- women will start replying to your stories.

The younger generations (im talking about the 18-21 range) are sharing a LOT of Instagram, and if you’re an older dude, you should be taking notes BUT STILL MAINTAINING your “MYSTERY”

Dropping breadcrumbs, hyping up each other, doing crazy fun things (something as simple as jumping over a small fence in the middle of the night.

As you socialise more, it becomes harder to maintain mystery, but that’s where you create intimacy levels to yourself. The more personally people know you, the deeper down the rabbit hole of your personal life they are allowed into. You’re a wise dude, I’ll leave the specifics to you..

My point is, it LITERALLY doesn’t have to involve money.

In fact, I would advise against using the money angle.

Use the **“Im a chill dude living an amazing lifestyle with my badass social circle of beautiful women and G dudes. If you’re not with us, you’re MISSING OUT!”**

PASSION ACCOUNTS (To Display Your North Star)

Women love creative things.

You should have 2 accounts.

one is your primary account, personal.

the second is where you display your creative side that you don’t show anyone.

A Personal brand, basically where you display your NORTH STAR- the thing you’re better at/leanring to be better at than most.

Could be fitness, cooking (yes), travel, art, music.

And you MUST engage with the same type of content on these accounts. If you’re a fitness dude, like, comment, and follow similar people in the space, AS GEOGRAPHICALLY LOCAL AS POSSIBLE.

Instagram algorithm is exactly that.

Preferably she can see your face in the reels you put out, so she knows “This guy does creative things”

Doesn’t even have to be your own face, you could just start and Anime fan page account (not ideal but it is what it is)

Bottom line- this is your “shameless plug” account, where you can go wild with your content and share with people because, hey “It’s my passion account”

And who knows, you might even amass a huge following.

You can also post reels on your personal account of say, a month, or a location you went to. Which highlight a LOT of different aspects of your life. 15-20 seconds.

INSPIRATION

@ Adamhorowitz

@ Arlin

@ Imangadzhi

These three dudes are killing it at their Instagram Game.

Yes, they are rich. But I want you to see the kind of content they post, the kind of ideas they have.

Yes, their followers are high but that doesn’t matter.

In fact, I would recommend everyone get their followers up to atleast 500.

Hook or Crook.

Make it happen.

And please, keep your following as low as possible.

UNFOLLOW ALL “CELEBRITIES”.

You’re a warm blooded male, why do you care about people who don’t care about you? Or much worse, don’t even know about your existence?

The OBVIOUS “NO-NOs”

- More than 9 posts, reason being, it only gives more chances for the girl/guy to go “Ah, that’s a turn off” (Turn the average ones into stories instead)
- Cockfest (all guys in every photo)
- Selfies (2014 called)
- Cringe captions and basic bios (c’mon, you can do better)
- Don’t post a photo with just ONE girl (other girls will assume she’s your girlfriend)

The OBVIOUS “Yes please!”

- Social proof (Cool social circle around you doing fun things)
- Multiple women and 1 more guy in a photo. (2 guys and 3+ girls)
- Women leaning into you, laughing with you, looking at you, giving you something
- Variety of content and emotions

PUTTING IT ALL TOGETHER-

I recommend reading this guide over and over again because the ideas are scattered around.

One important question you would be wondering is -

“MR, wouldn’t this take a LOT of time?”

Honestly, no. You just need to take out a few hours a week to do cool shit with your social circle and you will get WEEKS of content which you can play around with.

And even if it does take time, you should put it.

It’s an investment, like anything in life.

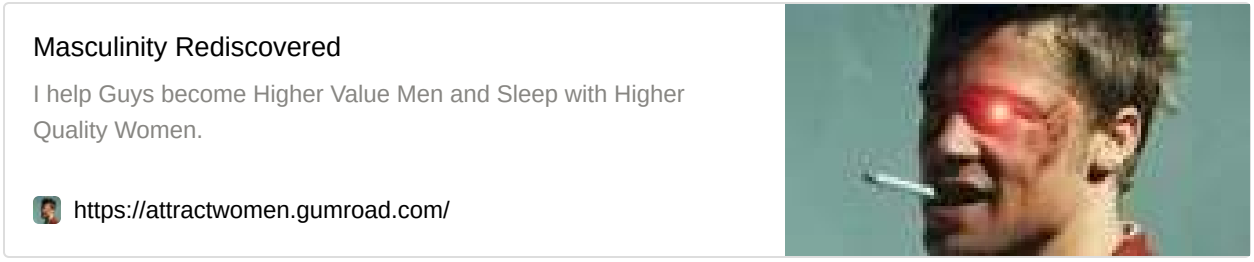
You spend more time watching sports and hanging out with people who you don’t even want to be around.

With this strategy, you will expand your circle, better your life setup, and create memorable experiences.

Remember, this is what you want to communicate-

“Im a chill dude living an amazing lifestyle with my badass social circle of beautiful women and G dudes. If you’re not with us, you’re MISSING OUT!”

And if you want to check out my other products and free guides, they’re all laid out here-



FAQ-

- Im a college student, I’m on self improvement. I don’t go out or take photos often. What should I post?

Post your self improvement journey in a non-cringe way. You must go to the gym, right? Post progress pictures, post your buddies in the gym, including women. Which books are you reading? post them. And in between those, post any random outside photo, maybe you go to visit the park. a coffee shop. POST THAT. You don’t even have to physically be there. Take all photos on one day of the week for Instagram and post them randomly.

- What should be blended into the profile? I’m a high-value man who owns businesses and travels.

A Mix of everything, with a “North Star” as explained above. Show your business developments and add a funny twist to it by maybe interviewing some females employees and asking them random questions.

- Belong to a traditional country where you can’t post explicit stuff because family will see.

then don’t. tons of other things to post about, which show your personality. Or just mute/block them.

- Close friends?

Just put all the girls who follow you into your “close friends” list and you can post all sorts of cringe shit that guys would give you hate on.

- How often should one post- posts and Instagram stories?

Instagram stories- about 3/4 everyday.

Profile posts- as less as possible. your profile is like an art gallery where you display only the BEST. It doesn’t need to be new, nobody looks at the date anyway.

- Do we need to click random pics all the time when going out? Cuz using the phone everytime is also not good.

When I say click random pictures of each other, I don’t mean you have to be out with your phone all the time. It has to be exactly that- RANDOM. When you see something interesting, or your friends in the moment, which your creative spirit thinks would be good content, just pull out your phone and tap 2 buttons! it’s an art, not a science.

- I don’t have many friends but would like to increase my following.

Everyone who owns the Seduction Bible (Freedom Edition) is added to our Mastermind Groupchat where we all follow each other. Reason I can’t open it up to all because you’ll be stalked by weirdos and random dudes. Everyone in the mastermind is a verified G because they had the balls to invest a couple hundred bucks into their future.

CHEATSHEET

ACTION STEPS

1 | Try this out with your friends and family. you are 4 people. show a photo of a square, and conspire with one person, so that both of you say that it has 3 sides, and both of you go first and second. watch the others agree with you in confusion, not wanting to sound like fools!

What other ways can this be used? Write down

2 | Play a memory game with someone close to you. tell them 10 fruits, and they have to tell you the ones they remember. Most likely they will remember the first and last, among a few others.

Sold to

CHEATSHEET

ACTION STEPS

3 | always be on the lookout for how your colleagues think of you, bosses and subordinates included. Build bonds and add "us-vs-them" dynamic. Whoever is in the group will win, due to the "in-group bias".

4 | The action step here is pretty simple. Throughout the day, Include random but strong statistics in your number. These may or may not be true. remember, the opposing party is going to be so overwhelmed that they won't question your numbers. make this a habit.

CHEATSHEET

ACTION STEPS

5 | Set a daily reminder on your phone to compliment people every day, and build up the social deposits, so you can withdraw it someday in the form of favors; They will want to reciprocate.

6 | Did someone do something you didn't like? Ignore them, or show visible disapproval. let them know. At the same time, reward the ones that did something you liked with a compliment, or something as simple as spending more time with them today.

They will remember. And they will behave accordingly. write down your recordings.

CHEATSHEET

ACTION STEPS

7 | Do this with 3 people today (preferably girls/ business associates) - Whatever you want them to think, say " Don't think of XYZ", and insert this line in the middle of a statement, such that they do not realize what just happened, but their subconscious will pick it up and draw the image mentally.

8 | Practice. practice. and practice some more. Somebody is going to succeed, why can't it be you? Do 2 things that you've been putting off because you feel "you aren't as good".

CHEATSHEET

ACTION STEPS

9 | Be very objective when someone brings up a past memory of yours with them. In fact, add some things you know to be false into them, and with a little persistence, watch them believe it.

10 | Use 5 statements in conversations that are grand. Don't say " some" "little" "good". Use words like " All" "everybody" "greatest" "fantastic" "record" . Be polarising.

CHEATSHEET

ACTION STEPS

11 | Catch yourself and people around you fall to the loss aversion bias. Immediately correct yourself, and go for the Win.

12 | Use the statement "I bet you're a bit like me, ..." 5 times. Use the pointers given and improvise. write down the responses and tweak accordingly.

CHEATSHEET

ACTION STEPS

13 | Use this 3 Times today - "As I see it, you have 3 options". This can be with a family member, an annoying person, or just a friend whom you want to help. Remember to make the 2nd option worse, before they come with the 3rd option, that they will inevitably have to pick.

14 | Every day we frame many sentences incorrectly, which hurts our chances of getting the desired outcome. Deliberately use the assumptive tone and "nudge" them to lean towards the outcome you want. Use those statements 6 times.

CHEATSHEET

ACTION STEPS

15 | Whenever you start making a point based on logic or selling somebody a product/idea based on logic, slap yourself.
Proceed with using the other secrets discussed above. Use Emotion to sell. Always.

BONUS |

Disqualify women at least 5 times today. Use the lines " You're the mom of the group, aren't you?" and " You're such a coconut girl", and play around with this. Improvise.

WHY ARE QUESTIONS SO IMPORTANT?

One thing I learned way later than I should've is the art of asking great questions.

Most guys are not able to get women to open up simply because they stick to the social niceties and never scratch deeper than the surface.

The most tragic part is, Women are ready to open up. They want to talk about themselves. But they never hear the right questions.

Questions are great because they also get her to qualify herself and make you the screener. How?

Because you are literally asking her to "entertain" you in a way by opening up, and it gives you great opportunities to pick up on things to go deeper on/ tease her/ disqualify her depending on you.

Just remember to not spit these questions one after the other like a robot or an interviewer. You won't need to use more than 2 per interaction, because you will be going deeper into the specifics she tells you.

In fact, in many cases, just 1 question can create a 1-hour conversation if you both vibe and open up. It's a life hack.

Lead the flow of the interaction and keep it as organic as possible. Don't be in your head about things. Remember, you're talking to an actual human being and checking if you vibe and if she meets your high standards.

To ask great questions, you must be a great listener. You should pick up her subconscious cues and the information she's dropping about herself which you can later use to ask questions

Before we move onto the actual questions, there is one KEY PRINCIPAL that you must remember-

To ask great questions, you must be a great listener.

You should pick up her subconscious cues and the information she's dropping about herself which you can later use to ask questions.

I'm not telling you to sit there and keep listening like a good boy, but to actively do back and forths while leading the conversation to where YOU want it to go.

Stay on a topic for a few minutes, ask supplementary questions, keep it organic, and give her strong emotions to develop a deep and intense bond.

What *NOT* to Ask

Firstly, let's talk about what kind of questions you should NOT ask-

Never ask closed-ended or fact-finding questions. These are boring and create an awkward silence after she answers like "now what?"

Questions starting with:

- Do- Yes/No closed-ended
- Who- Fact-finding
- Where- Fact-finding
- Were- Yes/No

For example: *Who is your favorite ____?*
Do you know what happened in xyz ?

II | The Kind of Questions you Should Ask

you should ask charismatic, open-ended questions that make her vulnerable.

These would be:

- What
- Why (great)
- How
- Would (it's about possibilities and finding their edges)
- Can- Yes, No but it's about commanding and challenging the other person.

Don't be surprised if she says "*No one's ever asked me that before!*"

Now, let's get into the exact questions and the framework for asking these questions that make her open up

1 | *"If you were to"*

"If you were to go sleep with a guy on the first date and you two had incredible sex, would you get attached?"

I really like this kind of question because it gives you plausible deniability. You're not telling her she's going to, but "IF YOU WERE TO"

It's a great question to ask her on the first date after some rapport has been built by other questions.

This is because she has to imagine an orgasm and having *"incredible"* sex, and the flow afterward.

With whom? she will associate those feelings with you because you are there with her.

2 | *"At what Moment..."*

- *At what moment did you decide...*
- *At what moment did you realize ...*
-
- *At what moment did you decide to end your previous relationship and move on?*
-
- *At what moment did you realize you like me so much?* (playfully)

She has to dig deep and pinpoint that exact moment that her life turned. Fun fact: She won't know herself. This will make her snap out mentally, which will make her totally present in the moment with you.

You can help her dig deep by telling her *"that moment when you just knew you <u>had</u> to do it"*

avoid going too deep into the negative side. You want her to be vulnerable, not depressed.

3 | "What made you..."

- *What made you realize...*
- *What made you understand...*
- *What made you who you are today?*
- *What made you come out of your dark phase?*

The reason this question is so good is that it forces her to look deeper into how she got to where she is.

This is similar to "At what moment", but she has to not look for a certain moment, but her internal qualities and characteristics, and external circumstance

You give her an opportunity to look deep into herself, and she will remember you for it.

Nothing is as charming as a man who is able to ask her the questions through which she understands herself better.

4 | *Suppose you were going to sleep with a guy on the first date and you both had incredible sex, would you get attached to him?*

The beauty of this question is that you're not saying she's going to, but *"SUPPOSE IF"*.

She also has to imagine an orgasm and the glow she feels afterward, and she will associate that with you.

It also brings up the topic of sex and gives you chances to tease her.

For example, if she replies *"no, I don't get attached that easily"* you can tease her by saying *"that's what all cute girls say"*

You're flirting, teasing, disqualifying, and implying that cute girls get easily attached to you. **Genius**.

5 | What's the hardest thing you even had to overcome?

You're getting personal.

Everybody has struggled in their life, especially with that ONE tragic incident that made them who they are.

The one they had to suffer with for a long time, had identity crises, and came out with scars that will be with them for life.

This question requires rapport, so ask her this only after you have asked some other, less personal questions.

Another way to ask: *What was the biggest challenge/hurdle/barrier to (achieving xyz)?*

After she replies- *(And how did you overcome it?)*

6 | *What is the biggest regret of your life?*

The classic, evergreen question that haunts the best of us.

What is the biggest regret of your life?

Best to ask this question when you're alone, preferably back at your place.

The key is to comfort her after and tell her *"We regret so many missed opportunities, it's made me more "going with the flow" kinda person, don't you agree?"*

This is key. What you're doing here is you're making her realize that she will regret it if she doesn't sleep with you. She will be more free-flowing because she has agreed that missed opportunities are painful.

Keep physically escalating and go in for the close shortly after.

7 | *If you had to do XYZ all over again, what would you do differently this time?*

Imagine if you're given the opportunity to do something all over again. A second chance. What would you fix and how will it be different this time?

This is a heavy compliance question. Save it for later, once she is hooked on the conversation.

Another important point to keep in mind is to never keep throwing questions at her. Dig deeper into each one, find the commonalities and build rapport.

The purpose of these questions is to find common ground, relate, and build trust.

8 | *Can you remember...?*

Can you remember __(the best/ most exciting/ most thrilling)__of your life? What was it like?

Remember the best summer of your life. What was it like?

This makes her think about extremely positive emotions and she connects them with you, and since she's sharing so much with you, **she feels like you both have known each other for a long time.**

Can you remember a time when you were completely free-flowing and let go?

This one is especially important because you need to reward her for "being independent and powerful" when she was free-flowing and let go. You want her to not be in her mind. What gets rewarded gets repeated.

9 | ***Imagine you have your feet in the sand, looking out at the deep, wet, endless abyss of the blue ocean on a warm, sunny day. If you had to describe how you feel in a few words, how would you describe it?***

The answer to this is how she feels about sex.

Tell her exactly that.

If she replies with "fulfilled", tell her "That's how you feel about sex. You're welcome, That will be $1,000"

Imagine how mind-blow she will be when she hears this come out of your mouth. 99.99% of guys will never even create that mental imagery in that head, let alone bring it down to one word for her- sex.

The best part? Now you both are talking about sex and getting comfortable with the idea of it.

10 | *What's your favorite place to be kissed apart from your lips?*

Ideally, you should be asking her this question when you guys have a deep rapport and you can tell that she's attracted to you and eating out of the palm of your hand. If you're alone with her, it's even better because what are you really asking her here?

You're asking her to think about the pleasurable feeling she experiences when she's kissed on her most erogenous zone apart from her lips.

This also makes her connect those feelings to you.

PS- it's going to be the neck or her earlobes. If she says breasts or inner thighs, she's ready to sleep with you.

11 | *What's the sneakiest trick you play on guys to attract them?*

Again, this is a brilliant question for multiple reasons.

One, you're blaming her as the aggressor, and two, her response will give you multiple opportunities to disqualify and tease her (banter):

"Oh, that explains a lot"

"So that's why you were doing those things"

"Easy, tiger. I have a 7 date rule before I sleep with a girl so, just keep it in your pants"

Her mind subconsciously agrees to it and goes "I'm trying to get his attention. I must really like him!"

12 | *Let's say you are going to become really close friends with somebody. what are 2 things you want them to know about you?*

Use this on the girls you want to put in your friendzone and make your wing-girls.

What is the implied frame here? That you two are going to be very close friends.

And she falls into your frame since she thinks about her vulnerable points to share. Don't expect her to tell you easily. She might even throw a *"and why should I tell you?"*

To which you can respond *"Afraid of intimacy, aren't you"* This gets the banter going and is a great cold read.

When she does tell the two things, you can disqualify again by saying *"Woah, you like THAT? That's it, I'm breaking up with you RIGHT NOW!"* playfully.

13 | *If you could wake up tomorrow anywhere in the world where would it be?*

Every girl wants to travel the world.

Every girl wants to escape her current reality. That is why Netflix is so popular. It gives them an escape.

When you ask her this question, you give her permission to imagine being in her best reality. In the part of the world, she craves most.

And after she tells the place (Paris, for example) , you can say *"are you doing this on purpose? How did you know?"*

She will say *"what?"*

You: *"How did you know.. that Paris is my favorite place!"*

INSTANT FUCKING RAPPORT. You will become insanely close.

14 | *Who's someone you really admire and look up to? Why?*

You're getting inside her world and trying to understand who her role models are.

You can be sure that her role model is exactly who she's trying to become every day of her life.

Example- If she says she admires Michelle Obama (so many girls do these days), tell her "*So you value independence and taking a stand for the issues you really care about, don't you*"

Her jaw with drop because you are one of the few guys who really understand her.

If it's the Kardashians, run away bro. She is/wants to become slutty.

15 | *What's it feel like for you right before you experience an amazing first kiss with a guy?*

This is a great way to go for the close.

She goes back and thinks about that amazing feeling of kissing somebody, and the same areas of her brain and body light up and she wants it even more.

Who does she associate those orgasmic feelings with?

With YOU, because made her feel them.

Use it when she's back at your place or you're alone with her and you've escalated her enough to the point that you know she's ready to jump.

Maintain intense eye contact, and look into her soul when she's speaking. You both will connect on a very spiritual level.

16 | *What was the best fucking night of your life so far?*

Straight answer, cuts through the crap that she heard all other guys say.

Use this when you're both drunk and leaving no skeletons in the closet. This will give you the best results, and allows you to know what she values most.

The kind of experiences that she craves for.

Plan that exact thing with her. tell her *"we're doing/ going to __(an experience she values) next week"*

You are Future pacing which makes her feel like she's known you longer than she has.

By the way, you can ask almost all of these questions to guys as well. This will skyrocket the results of your social circle game and deepen bonds with people.

FINAL THOUGHTS

To be interesting to women, you need to be interested in them. Genuinely be curious about people in general.

Asking Great Questions is a lifelong skill that will help you in dating, business, social circle, and life.

It is rightly said- judge a man not by the quality of his answers, but by the quality of his questions.

You will realize that most people are waiting to talk about themselves. To reveal their personality and be heard.

Give them that opportunity and you will forever be remembered by them.

That is the art of Charisma.

You now know how to know EVERYTHING about a person and develop deep bonds at will. Enjoy, keep taking massive fucking action, and DOMINATE.

#1 DAILY AFFIRMATIONS- REPEAT IN YOUR HEAD BEFORE YOU GO OUT

- LETS SEE IF SHE IS WORTHY OF MY DICK
- I AM GOING TO QUALIFY HER IN THE INTERACTION TO CHECK IF SHE CAN MATCH MY STANDARDS
- SHE ALREADY WANTS TO SLEEP WITH ME
- SHE WOULD KILL FOR A CHANCE TO SLEEP WITH ME
- SHE IS LOOKING FORWARD TO RECEIVING MY MASCULINE GIFT

#1 DAILY AFFIRMATIONS

- SHE WILL GET WETTER THAN A WATERFALL IF SHE GETS TO TASTE ME
- SHE IS TRYING TO MAKE ME ATTRACTED
- I HAVE HIGH STANDARDS WITH THE WOMEN I CHOOSE TO SHARE MY GIFT WITH
- SHE WOULD MELT IF WE KISSED
- I AM THE FUCKING PRIZE

#2 AFTER ACTION REVIEW

At the end of the day, you must perform an after-action review where you honestly tell yourself where you fucked it and where you aced it.

This is to prevent an endless cycle of Reframes. You need to face reality without being discouraged.

Reframe the Loss in that moment, but truly strengthen yourself so that you always face a Win.

Slowly go through each step of the process, and think how you could have held your frame.

Use Reframes, Pre-framing, and Box Framing

#3 CONSCIOUSLY CHANGING BELIEFS

Step 1- Think about a time when it was tough to hold a strong frame for you.

Step 2- Ask yourself- Why am I finding this tough?

Write it down on a piece of paper-

"_____ is tough because"

Then, reframe every reason to

"____ is easy because"

Example- "Talking to new women is tough before I feel nervous" becomes-

"Talking to women is easy because they love to hear what I have to say"

#4 REPLAY THAT EVENT

Close your eyes and look back at the event that didn't go as well as you had hoped.

And now, REPLAY IT BUT ASSUMING THAT WHAT YOU WANTED HAD HAPPENED.

I'm telling you to change the event, and replay it as if what you wanted to happen, happened.

So if you approached that girl, but it didn't go so well- simply replay it but this time as if everything went well, and you got her number.

This is mental masturbation, and you should do this carefully, and as little as possible- but this forms positive memories and trains and motivates your brain to act correctly next time.

#5 CREATING YOUR NEW LIFE

What will your daily life look like?

What will your women look and feel like?

What will your financial situation be like?

What will your health be like?

See and feel all of these in detail- and DONT have a birds-eye view.

Experience all these in the first-person view. You are in the middle of all this. This is the correct way to visualize.

Now open your eyes, and write down how your feel and your frame for the day.

#6 OBSERVING FRAMES

The next time you go out to a Starbucks, a club, or any social place, notice the different frames that people interact from.

State 2 possible frames for every person.

Try to see things from their perspective, and imagine what their frame is like, and how they are interpreting things.

At the same time, make it playful for your own interactions. Tell the female staff to surprise you with their best coffee. Look them straight in the eye, smirk, and hold your frame.

To make it even more interesting, use 1 new word every day in your interactions. CLICK HERE TO SEE TODAY'S

REMEMBER TO HAVE FUN

I said this in the "read this first" guide but it bears repeating.

Game is a beautiful concept for mastering Interpersonal and Intersexual dynamics.

you might be going through a breakup, or about to join a university, looking to keep it fresh in your relationship, or just learning this to keep yourself alert and ready for more sexual opportunities.

The common denominator here is, ALWAYS HAVE FUN.

Game is not something that should be forced. You should, and you will internalize it and be self-amusing always.
It's your life, have a great time and keep fucking DOMINATING brother!

HOW DOES ASKING QUESTIONS DESTROY WEAKNESS?

Our brain is plastic. As in, it's MOLDABLE. It can change and learn new things.

Our brain has another incredible quality which everyone knows but never asks themselves.

Ask yourself- What could that quality be?

You just used it. Literally. The quality is- If you ask your brain ANY question, it will TRY TO COME UP WITH AN ANSWER. You literally cannot stop it;

Most people live in a way where other people ask them questions and they answer that. REACTIVE ATTITUDE. Very bad.

But the FEW, ask great questions to themselves.

Because guess what?

When your brain is asked a question, it will search all over to FIND AN ANSWER.

High-Value Men, Naturals, the kind of man you're trying to become, do EXACTLY the same. They ask themselves amazing questions ALL DAY LONG, which results in amazing results.

I recommend putting these into a note on your phone and setting a daily reminder (preferably in the afternoons) to ask yourself these! Do add you own as well.

BEFORE WE BEGIN

There are a couple of things you need to understand.

Women have two goals from an evolutionary standpoint.

The first is to create ideal conditions for the birth of their children, and even more ideal conditions to protect those children during the early years and help them grow up.

Second, to have a strong influence on the men in her life and the environment she lives in- again, to guarantee the safety of her children.

BEFORE WE BEGIN

Women will very often achieve their material advantage with a provider (beta male) and sexual pleasure with a lover (Alpha male) and rule over both domains by receiving the best of both worlds.

Alpha Fucks, Beta Bucks.

But only as long as these Men don't know how to spot the seeds of manipulation inside her.

Unfortunately, 99% of men will NEVER get it.

Fortunately, you are here. You will learn exactly how women will try to manipulate you and how to counter it.

Remember, don't hate. simply play the game better than she does.

WHAT IS MANIPULATION?

Manipulation can be defined as the attempt to influence another person's mind to achieve a certain outcome.

As we discussed in the other guide on Frame, manipulation can be negative or positive.

Your gym buddy tricks you into counting the wrong reps while spotting is manipulating you, BUT he wants you to WIN. = Positive manipulation.

Women often Manipulate the lover into having sex with them for strong offspring and the provider to keep them safe and financially secure.

WHAT IS MANIPULATION?

Manipulation is used by women to achieve the following-

1- Safety and comfort for her and her children. Her primary purpose from an evolutionary point of view is the survival of her children.

2- Influence the Man's mind is a way such that he feels an obligation to protect her and her children, especially when she's pregnant. (because 9 months is a long time- a lot can happen that can threaten the survival of her child)

Post pregnancy and during the early years of the child's life are also equally important- She needs that PROVIDER.

PHASES OF FEMALE MANIPULATION

There are 5 stages of Manipulation used by women on Men-

1. Checking your Frame
2. Craving Realness
3. Turning you into a Beta
4. Successfully converted into a Beta
5. Slow-Kill

1 | *Checking your Frame*

This is the stage during the initial stages of the interaction where the woman throws shit tests at you.

By now you know that shit-tests are a POSITIVE SIGN. She Shit Tests you because she gives a shit about you.

Basically, she's saying "I'm going to be hostile to him and test his frame multiple times to see if he is capable of protecting our offspring"

Understand that she has to take a huge risk of carrying a baby for 9 months, hence she needs to ensure that you are a sex-worthy man capable of protecting.

Checking your Frame

If you can't even hold your frame in front of her, how will you stand up FOR her against society?

Specifically, she will test you for your:

- Physical & Leadership Qualities

In this day and age, we live in a safe environment, with most basic things provided for. But that primitive female inside her needs to know that there is the presence of qualities such as leadership, intellect, and a strong personality to achieve success in all areas of life.

At the same time, in case war breaks out, you must have the physical strength to protect her and fight for her

Checking your Frame

- The Hunter

She will always test a male she is sexually attracted to. Her Survival and Sexual Desire are tied to each other. If she is only testing to see the survival benefits (beta $$), she is not sexually attracted but using him just for survival- and at the same time denying her sexuality.

The right kind of women, then, will test your survival skills- the most important of them being your ability to hunt. Are you able of destroying a being and "capturing it"?

She wants to witness that inner caveman, that savage who is always ready to kill, hunt, fuck, conquer.

HOW TO COUNTER

Checking your Frame

You need to realize that the testing never ends. Women test subconsciously more than consciously.

Its her primary method to determine if you are congruent and being authentic about who you really are. Most guys who only use lines without any internal value fail her shit tests and move out of her sexual radar.

In fact, testing stops being a problem for you when you are completely congruent- you start looking forward to these tests because you know these are great opportunities to increase attraction

Checking your Frame

Once you have it together, you will not even realize you are being tested.

Another important way to counter these frame tests is by letting her know there are other women in your life.

It's extremely important for a man to have multiple women in his life- socially or platonically even when he is in a committed relationship.

It signals to your woman about your high sex-worthiness and your ability to quickly get another woman in the sack, in case she tries to act fresh.

Her frame tests will automatically reduce.

2 | Craving Realness

Once she has tested the man, and she is quite sure that he is not a weak pussy, but a strong man capable of protecting her offspring,

her next concern is "I don't want him to fuck other women"

She starts craving realness, EXCLUSIVITY. "Open up to me, please!"

Most who pass the first stage, inevitably fail the second stage, mostly because they fail to understand the meaning of this stage.

Here, she will use strange language, she will try to create drama by asking you lose-lose questions like "you were with the other girl, weren't you?" (agree and exaggerate), and her words and action will differ.

HOW TO COUNTER

Craving Realness

Most of her bouts of drama are really nothing but a signal of emotional ambiguity.

your goal is not to give in too much too fast. You must hold your frame and make her earn the exclusivity if you plan to give her that.

Also, setting CLEAR BOUNDARIES is extremely important. Set them early on, assertively and clearly- so that you are always in control of the relationship.

At this stage she will want to feel more excitement and passion from you, so carefully notice her "I feel"

It doesn't matter "WHAT" she feels, as long as she feels STRONG EMOTIONS from you. You need to match her intensity in the relationship and lead her to where you want her to go.

The only emotion you DON'T want her to feel is boredom, followed by indifference.

At the same time, you need to follow any emotion up with physical passion.

To put it clearly- *fuck her well, and fuck her often.*

3 | Turning you into a Beta Male

After you start opening up more and more to your woman, (realness and exclusivity) she will start exploiting you more and more, unless you counter it.

She will tell you to "take out the trash", "watch the baby", etc.

From this point onwards, she owns the frame of your relationship. This is also the point where you start becoming complacent because all the realness and vulnerability shown from your side has made you think-

"Well, now she loves me for who I am. I suppose I can let go for a moment"

Truly tragic. The Betadization process begins, as the man becomes more and more complacent and relaxed in the relationship, and the woman keeps asking him to do chores, and to relax with her.

Why does she do this?

She does this to prevent you from getting better-quality women.

She knows that if you remain the alpha male that you were, you will eventually find a better woman and mate with her.

But that primitive female wants to lock you down to her. Now that you've opened up, she has some power over you. But that doesn't mean you aren't talking to other women.

Turning you into a Beta Male

So, the "final piece" of the jigsaw puzzle is to turn you into a complacent beta male.

This is why most men turn fat and unattractive once they get into a serious relationship.

We've seen this again and again all around us.

The strange part?

Women don't even do this consciously. It's the selfish gene inside her that has been trained to do this for millions of years.

HOW TO COUNTER

Turning you into a Beta Male

As the parents tell their teenage kids-

"JUST SAY NO!"

You can do this assertively, but another way to do this is to do it in the spirit of teasing and fun.

Tease her for overcompensating her IQ by trying to act like the boss.

Even better- LEAD THE RELATIONSHIP.

Tap on her need to contribute something meaningful.

Communicate your mission to her, and why it is

Turning you into a Beta Male

Communicate your mission to her, and why it is in her best interest to help you get there.

More growth = more vacations to her favorite place.

Proactively give her meaningful work around the house, and praise her for it every few times.

The feminine builds up on praise, the masculine on a challenge.

Also, remember to keep working hard on your body, mind, and spirit. Lift weights, go out alone and meet new people, or with your social circle of men and women.

Turning you into a Beta Male

Bottom Line- the buck stops at you.

Notice how she will begin this- by telling you to stay in and have ice cream with her when you want to go out with your friends,

or telling you to stay for 5 more minutes when she knows you have to go workout.

JUST SAY NO. Your mission will always come first.

You must not use your relationship as an excuse to stop improving yourself. If anything, it should push you to do even better in all areas of your life.

4 | Successfully converted into a Beta

This begins when you did not follow the above advice on countering the Betadization process, and successfully became a beta.

She now has you by the balls.

You have no other women interested in you, and your mission has suffered a lot. You have become so invested in her to the point where you decide to just play by her rules instead of going back to square one.

The ugliest place to be in for a man, but this is exactly where most relationships are at all around you.

Successfully converted into a Beta

To put it in one statement- she will never be satisfied no matter what you do or how hard you try.

To put it in one word- toxic.

She will not give a single fuck about your needs, because she doesn't need to.

You don't have any options, and she knows it.

To make it worse, most guys will still be her bitch and do everything she says.

This also reduces the polarity and the sexual attraction between you two.

Successfully converted into a Beta

At this stage, you are no longer the alpha male she was once attracted to.

YOU ARE THE COMPLETE OPPOSITE.

The negative feedback loop will destroy your self-esteem, and you will fall into an extremely destructive cycle of mediocrity.

Most of the fathers today are at this stage, which results in weak sons because the Sons will emulate what their father will do.

The poor boy looks at his father getting toyed around all day by a female, so his brain goes "this must be how this world works."

HOW TO COUNTER

Successfully converted into a Beta

If you are at this stage or have ever experienced this, You need to realize one thing-

just because you have invested so much into something, does not mean you should drown along with it.

It's better to cut losses late than never. Move on, start over. It will be a painful process, but it will be meaningful and lead to much better rewards than staying with the same woman.

Successfully converted into a Beta

You also need to understand that this is natural in women- her primary concern is for her children.

If you're not being an alpha leader, she will become just for the sake of her children.

Women don't feel merciful towards men, and why should they? They are the weaker sex.

The key here is that you need to assert your value and put a price on your leadership.

It means that you need to lead the relationship and keep giving her tasks to do.

Successfully converted into a Beta

Assert you value every stage of your relationship.

She should be made aware of your value and your power over her by having a separate life that does not involve her.

You need to communicate that you have standards that she needs to meet, if she wants to be your woman and your submissive partner.

5 | Slow Kill- The hunt begins again

At this stage, the relationship is emotionally and sexually over.

She will communicate through her behavior how she does not see the two of you as partners.

She will throw endless words at you, nagging, etc.

And if you show you don't care, she will leave you and give you an excuse "you don't understand me" "I don't feel anything anymore"

She leaves him for another man, the alpha, and the cycle of manipulation begins again.

HOW TO COUNTER

Slow Kill- The hunt begins again

Although this stage is pretty much beyond repair, you can still save your self-respect.

Be prepared to let her go. Your best bet to save the relationship will be to let go and start again at the beginning.

Cut her out for a few months, master your game so you know how to keep it fresh.

The reason to start over (if you really love her) is that you never want to be in a position of begging or chasing.

Firstly, that is a tragic state for any man to be in.

Slow Kill- The hunt begins again

Your forefathers conquered lands, women, and other warriors- not for you to become her bitch, but for you to DOMINATE more women.

Second, any hint of sexual attraction leftover from stage 4 gets crushed at this stage- nothing is more unattractive than neediness from a beta male.

You think you can't survive without her, but that is the beta bitch inside you speaking.

The truth? A Man can survive anything, and he always comes back stronger.

This stage is the ultimate test to see how much of a man you really are.

IMPORTANT RED PILL

The above might be a bit depressing, but look at it from an objective view.

It is much better for nature and for the species to first create attraction and then have it decrease.

Because when attraction decreases, the focus shifts on the children. Why are most couples still together even without any attraction?

FOR THE SAKE OF THEIR CHILDREN.

This ensures the safe upbringing of the offspring along with more sexual interaction outside relationships = more genes are spread and the species grows.

IMPORTANT RED PILL

To put it simply- monogamous sexual relationships are not necessarily natural.

They've been brought upon humanity through social brainwashing and modern ideologies.

The kings of old times had hundreds of wives, which made a lot of sense from an evolutionary perspective.

What can we do with this information?

We can realize that it's important to keep the spice alive in relationships(Read as- GAME HER) in order to not let her manipulation work and to not let nature do its job, as it does on most relationships.

FINAL THOUGHTS

The above is a truly painful sight, but it is also the truth about society.

Weak Men create hard times, as we are witnessing right now.

Thank god, the above will never happen to you because you are reading this right now.

You will break the chain of beta males in society, make a promise to yourself right NOW.

You are our last hope. Together, we will all change this world for the better.

The above should also remind you of the importance of learning game. It helps keep it fresh. Keep fucking winner, brother.

BEFORE YOU START

This is the second major addition of the Seduction Bible.

I got tons of DMs from you guys, asking me how to seduce and sleep with beautiful women.

Many of you were facing problems in approaching, getting the number, and closing.

Most of you had a problem moving the conversation forward.

I felt for you all. I tried helping as many as I could, but I couldn't do it on scale.

Hence, I created this guide. It has *literally* everything you need to know on how to open, talk to, and sleep with the 9s and 10s.

This is your Holy Grail. It's been crafted with masculine energy and took months in the making.

When in doubt, refer to this book. Seducing Women is a muscle, which must be regularly trained for maximum benefits.

Cheers, Brother.

FINAL WORDS & NEXT STEPS

01- THE MINDSET

You can't be jealous, insecure, needy, or afraid that she will leave. Girls are attracted primarily to your personality.

Have the best life that you can, live life to the fullest.

Don't be afraid to look at a woman if she's attractive

All rejection or failure is feedback

The world is your dating and seduction playground

NEVER take anything personally

Focus improving on your social skills

It's about having a good time with her, having fun, and giving her the opportunity to see
what you're about.

-Express, never impress.

-Be comfortable with being nervous

-Never have an excuse to not approach, because deep down there are no excuses

-Put yourself out there

-The one who has the stronger belief in themselves will control the frame of the interaction and the other person.

-Don't show any reaction to a shit test

-When it's on and you're in the zone, social situations just open up so easily.

- When you interact with anyone, keep strong eye contact with them.

02- HER PSYCHOLOGY

Women have been socially conditioned to act like she doesn't like sex, so take the weight off her shoulder by giving her an excuse to come back to your place.

Ex- Coffee, checking out a "cool" portrait or something you made, After-Party, etc

Women are always living in the emotion of the moment, lead her emotions.

change her mood and not her mind.

(Continue reading & refer Psychology Secrets)

03 OPEN & INITIAL CONVERSATION

First things first.

Set your standards.

What kind of women do you want to sleep with?

Now, this is a guideline. You can obviously approach some girls as "warm-up sets", where you build up comfort and fuck around with them so that you're not stifled when the right ones come around.

When the right one comes up, follow the 3-millisecond rule. Don't give your brain any chance to delay the open, or it will never happen.

Always Open the girl, not the group.

This does NOT mean you ignore the group. Acknowledge them, smile as you are talking to your target. If they try to cockblock you, game them a little and then return to THE girl.

How you say > What you say.

Most girls won't even hear what you say. They will look for subconscious cues about whether your body language is high value or not, and whether your tonality is needy, or if it shows that she is just another girl who is no big deal.

have piercing eye contact as you deliver your opener. Speak with a commanding tonality initially, to grab her attention. If people can hear what you're saying from a few feet away, you're loud enough. If not, increase your volume.

Some good openers:

- "I saw you from across the road and you seemed pretty chill"

"Cute mask"

"Totally random, but you seemed pretty chill so I came to say Hi"

Socially calibrated openers:

" Crazy party. I saw this guy XYZ(something interesting or funny that happened)

"Hey, I wish I had the confidence you have wearing that dress" (I really like this one- because it can mean that the dress is TERRIBLE or that it's so hot that it takes confidence to wear it)

"Is that (XYZ brand)?

I won't dive that deep into openers though.

You can easily google and you will find Millions of them.

Let's be honest though**, no opener is as good as great body language, great tonality, and Confident Eye Contact.**

You get those 3 on point and I assure you, you could say the *MOST STUPID SHIT* and the girl will still be attracted to you.

Because attraction is not logical, and it sure as hell isn't a smart line. She doesn't care about the opener.

Just don't be a creep, be genuine, and she won't dismiss you.

04 BUILDING COMFORT

The most important thing is that you MUST be self-amusing.

Enjoy the conversation. If you're not, leave.

Create a fun, sexual vibe.

Don't try to be overly witty or clever, like you have a "routine". She will sense it. Speak freely as you would with a friend, except you add the flirtatious and sexual remarks here and there, so she knows it's not platonic.

Say and do whatever comes to mind- your face should be expressive, your body language should be open and priding. You can pull her in, push her away (playfully) taking her hand.

Don't be worried about how she'll respond.

YOU ARE THE SCREENER.

She should be worried about how you respond to her behavior.

If you're not genuine, she will sense it and you will lose her anyway.

Always Calibrate AFTER the fact, not before. This means that you should move the conversation forward and behave the way you know how to. Worry about her negative response only after it happens.

How to handle her negative response-

Calibrate, empathize with her by making a statement, and change the topic. Only re-acknowledge it if you can tell she isn't over it. This applies throughout game.

Always make more statements than asking questions.

When you ask too many questions, she becomes stifled since it appears like an interview, and they hate it. Keep the pressure off her; let her naturally speak more about herself by being a good listener.

A good tip to make your conversations interesting: Talk about the "why" more than the "what"

- WHY you do what you do.
- WHY you keep going even after so many struggles
- WHY she is pursuing that course.
- WHY you loved that particular time.

"What" is close-ended.

"Why" is open-ended- it allows her to go on and on about the topic.

Also, don't be stuck on one topic for too long, There should be no range on the topics.

One minute you could be talking about your purpose, the next minute you could be discussing squirrel fails on youtube.

Keep the tone positive, so that she connects you with positive emotions.

Don't deliver bad news.

However, if you disagree on some points, don't be afraid to tell her.

This way you both know whether you're compatible or not. This is beneficial in the long run.

05 MOVING THE CONVERSATION FORWARD-

PACING, LEADING, PHYSICALITY

As you escalate the conversation, you will either receive compliance or resistance. Keep moving it forward as long as she's complying, but take a step back if and when she resists.

When she resists, you need to continue building comfort and the vibe. Realize that she isn't "warmed up" enough. Don't bring up that awkward moment again, just hold your frame and focus on the fun, casual, non-judgmental vibe.

You will encounter Real and Surface-Level Resistance, so it's important to know the difference between the two.

Real Resistance is when she is clearly telling you to stop the escalation, and she is no longer comfortable. Here you must completely back off but not behave weirdly. It's normal. Keep building up the vibe. Make her relaxed and more "into it"

Surface-Level Resistance is when she is saying something but her actions contradict it, i.e., she's kidding.

Example: She says "*We should totally not be doing this*" as she kneels down to open your jeans and give you some head.

You both are into it, and she is just saying it as an anti-slut defense.

Here, you agree and say "*We should totally not*" as you move her head back and forth onto your dick.

A good screening mechanism is to be sexual with the girl early on by being physical- touching on the shoulders, upper arms, thigh, etc. and making casual sexual comments.

This will make her know what's up, and if she's interested- this will turn her on. If she's not, you will know and both of you save a lot of time and energy.

Example: " *You look hot in that dress. It's a good thing you have a boyfriend, or we might've been in trouble."*

This is great because she will also reveal whether she has a boyfriend or not. Either way, as long as she's there, the boyfriend is never an issue. In most cases, girls are unhappy because their guy is a simp loser.

Another example: *"You look smokin' in that dress. It's a good thing that you're too short/tall for me, or we might have been in trouble."*

Did you see how you totally disqualified her there? That's having the upper hand in the conversation.

Always remember that your end goal is taking her home/ to a hotel/ (parking lot for the adventurous). Keep moving her around, farther away from her friends and closer to the location where you plan to fuck her.

Great way to escalate: hug her, pull her closer as you speak into her ear (something sexual or funny), then go for the make-out. If she complies, say nothing- grab her hand and lead her towards the exit, towards your place.

If she or her friends aren't letting her become isolated with you, it's likely that the close isn't happening that night- take her number and keep her in the funnel. However, you can also try to game her friends so that they let you escalate right there.

Always give her a reason for the movement that she can tell her friends there or later, as an anti-slut defense.

Example: *"I got this cool __ at my place. "*
"There's this bar down the road that (something special about that place)"

06 OBJECTION HANDLING & FRAMING THE PULL

Within the first 5-10 minutes of the interaction, you should indicate to her about the pull. This should be the location where sex can happen. This way, you know if he has any concerns about going home with you.

Even if she doesn't seem receptive early on, keeping the seduction process going, and bring it closer to the sex.

The reason for doing this is to make her open and comfortable about the idea of going home with you. She won't be surprised when you go in for the pull, and it removes the other girls.

Make sure that there is a purpose for the invitation. This could be an "after-party", check out the view from your apartment, that magnificent painting, etc.

Don't be surprised by objections. In most cases, it's slut defense and needs to be handled carefully, and making her feel at ease. Be well aware of the logistics so that you can answer her concerns quickly.

These concerns can be related to:
- being seen as a slut by her friends
- logistical issues for traveling back home
- being away from home too far
- missing her plans for the night.

What she's really trying to say is " *I really want to come but (objection)*"

Help her make the decision and come up with an excuse. Don't give them special importance or she will sense neediness. Treat her like she's being crazy and ridiculous. Sarcasm really helps. *"Yes you are, but we're going anyway" "Oh right, I forgot you are the mom of the group"*

If she still doesn't agree, then use logic, and tell her the logistical solutions.

OBJECTION: *My friends won't let me leave!*
SOLUTION: *I know. we're just going to have 1 drink and come back*

OBJECTION: *Who else is going to be there?*
SOLUTION: *Just us and a couple of really chill friends I want you to meet"*

OBJECTION: " *I have an early morning"*
SOLUTION: ***If she says she has to get up at 7:30, Say that*** *" I have to get up at 6, so that's not even an issue."*

OBJECTION: *" How far do you live?"*
SOLUTION: *" Just 5 mins! (if you lie far away, reduce the time to a little less, say 30 becomes 15, etc)*

OBJECTION: *I'm not going to have sex with you*
SOLUTION: (Smirk in your head because you know it's going to happen.) *"Don't worry, I'm not in the mood either. We're just going to have a drink")*

NOTE: Often, she will insist on bringing her friends along. You have to find out how many cockblockers she will have, and get wingmen for her girlfriends so that nobody can spoil your vibe.

07 LOGISTICS & LANDMINES

This is crucial to understand the girl's logistical scene and help you proceed. For example, if she's leaving tomorrow, you know that you have to go for the pull early.

Landmines are unknown pieces of information that might hurt the pull. If you pull her and then realize that she lives with her parents and has to be home early, you have a nightmare.

How to handle this? Slide-in these questions while building comfort and being playful. Don't ask them one after the other. or the interaction becomes serious.

Every situation is different, and it's tough to predict these, but below are some common questions that will blow the potential landmines early on.

Who are you here with? | How do you all know each other?

It is essential to know her group dynamic. If she's with somebody close who might judge her, you're going to have to isolate her from them, and if that does not happen, refer "Day 2" in the Bonus section

Who do you live with?

SOLUTION: It's crucial to know this. If she lives with family ,ask her if she's allowed to have guests over. If not, you will have to pull her somewhere else or go for the day 2.

When do you have to be home?

If she has to be home early, tell her she should go since it's way past her bedtime (reverse psychology + disqualification + non-neediness), that will buy you some time. If it doesn't, screen the date for another day, or else move on.

What does your week look like?

If the pull is unlikely, you will have to screen her week for the date. If she has a busy schedule, and it's unlikely you'll see her soon- cut it short. Don't waste your time.

What part of the city do you live in?

This is crucial if you're taking her home. If she lives too far, you will have to work out the logistics, or perhaps move on.

08 PULL

Time for the close- only after you're noticing that she's sexually receptive to your advances. Tell her that you're going to your place and invite her, as discussed earlier. Grab her hand, and lead her towards the exit, to your home.

Your place is always better, because you have the logistics in check, and it shows dominance. She will have to submit- prepare your home very well- check out THIS THREAD ON TWITTER for tips on making it sex-friendly, and in the bonus section as well.

The average pull takes about 35 minutes, but as long as you use these strategies, time should not be an issue.

Beware of Last minute resistance, that she gives after she's agreed to go home. This will happen at the club exit, before you enter the cab, etc. These are not to be stressed about;

She just wants reassurance of your earlier promise- that you're a fun, chill, sexual guy whom she will have a great time with. Convey that.

Example: *You will drop me back to my friends, right?*
You: *Yeah, don't worry. We'll have a drink and head back.*
You: Yeah, you're my responsibility now.

Use the fastest mode of transportation. The shorter the distance, the less time she has to back out or come up with more objections because the vibe will die down eventually.

To prevent that, keep the energy up and keep building comfort. You might even ask her some personal questions and tell her about your personal things, now that she is definitely coming home with you. This will make her feel comfortable and at ease.

You can make out at regular intervals, but not for long because you want to be a tease; keep the tension and excitement up.

There will still be times when her resistance becomes too much, and you will have to baby-step the pull. If she still doesn't comply, check out "Day 2"

BABYSTEPPING THE PULL

This is a crucial yet hard part because it requires patience, a LOT of wits, and improv. It will come with practice and experience, so don't stress if you don't get this right the first few times.

One way to baby-step is to ask her to *"come meet my friends"* near the exit of the venue. You obviously won't be able to find them even after trying hard, so you go outside to check if they're there. You get hungry and tell her about this burger joint just next block, and on the way you remember you have some at home along with some shots of tequila, which is just 5 minutes away.

See what I did there :-)

09 THE CLOSE

The venue has changed but the vibe should not. Great music is a must. Buy the Alexa speaker, and create a playlist. You will thus just have to tell Alexa to play the playlist, which will make things infinitely convenient. Also, have a playlist called "bedroom music" Women love it when guys are prepared.

Take out the alcohol, cigarettes, etc, and have a chill "after-party" vibe going.

The close will be you giving her a tour of the room (either immediately or after a while), coming to your room, and then once you get there, you can look into her eyes and go for the close.

The house must be clean and organized. You don't want it to look like the "stoner's abode". it should show that you give a fuck about where you live, eat, shower and shit. Invest in a good couch, soft pillows, incense sticks, and multicolor lights that can connect to Alexa, so that you can change the light as per the mood.

Keep the bathroom clean, have toilet papers, hand towels, air purifiers, and fresheners. A lot of guys have told me how their pull blew when she went to the bathroom, only to be horrified by the conditions. It's a MAJOR TURN OFF.

Slowly build-up to the close, if you don't want the room close. Make her sit next to you, begin with one arm around her and the other on her thigh, then gaze into her soul and kiss her. Neck bites make women go crazy with pleasure. I personally like to kiss on women's neck more than on the lips- the tease makes them go WILD.

if she backs off at any point, go back to building the vibe- change the song, light color, and don't bring up the moment again. Make sure it's real resistance and not surface level.

She's at your place- she wants to fuck. She just isn't warmed up enough. She requires more intimate details of your life so that she can trust you as a person.

10 COUNTERING CLOSING RESISTANCE

- Take the pressure off her, and reassure her that she doesn't have to do anything that she doesn't want to.

- The nicest boy line if it gets bad- "I don't want to sleep with you if it means I'll never see you again"

- Shift the focus towards building connection- tell some personal childhood stories or recent ones that stand out and show you in a positive light. It also conveys to her that YOU like and trust her, which will make her reciprocate the feelings.

- Be calibrated to her body language and emotions. If enough comfort has been built, don't open up more- go for the close.

BONUS

The Palm Reading Game-

Tell her that you know Palm Reading.

She'll say *"oh really? blah blah"*

Offer her to read hers if she promises to not make fun of you.

Take her hand, and then point your finger at any random line, and say- " *This is the luck line. You have brilliant luck. It says that you will meet a handsome guy today. I wonder where he is"*

The next line, again say something random.

The third line, look at it and tell her- *and you know which line this is? This is the stupid line for believing in all this crap".*

Watch her jaw drop and eyes widen in excitement and laughter :)

FINAL WORDS & NEXT STEPS

Goddamn, you already have that new energy around you!

Your eyes are more clear, and you look superiorly confident.

That was a LOT to take in, I know. It will take regular practice, out there in the field to get you results.

Put a daily alarm on your smartphone, to revise this book daily, along with other components of the course.

You have the gold in your hand.

Now it is on you to get the results.

I can't wait for you to charm the women and dominate them- in conversations and in bed.

Enjoy, brother.

HIGH
VALUE
BODY
LANGUAGE

BODY LANGUAGE

I'm sure you've heard that you communicate most of yourself through your body language- much more than words and tonality.

I won't go into its importance.

But I will say this- your body will influence your mind MUCH more than your mind will influence your body.

In simple language-

When you portray a high-value and confident body language, your brain automatically produces positive thoughts, and the "Right Words" just come out of your mouth. Sean Connery, pictured above, is the perfect example of high-value body language.

The first thing women will instantly recognize is whether you have a high-status winner body language or a low-value loser body language.

You will find a lot of gold below, but make sure you practice it. Nothing comes naturally, and it WILL feel awkward at first- that's OK.

With enough practice and fuck-ups, it will become second nature man.

And that's all that truly matters.

1) Stand up straight

Your Chin should be just behind your crotch (or belt-front) It should be at a 45-degree angle from your neck, looking straight.

2) Feet

Your feet should be pointing towards her direction while talking to her. If she feels uncomfortable, or if you want to signal even higher value, you can move one foot away from her.

3) Progression

After your initial rapport building, move towards the side, such that you both are looking at others. This will create an "US VS THEM" dynamic. It's a great way to build comfort. Literally, start talking about the environment you're in, and some observations. She will agree with you.

4) Shoulders

Keep your shoulders back. Your Chest's shape should be visible. No Slouching. Shoulders in front represent low status.

5) Hands

Your hands should not be in your pockets. Keep them by your side.

If you want to keep your hand in your pocket, keep your thumbs out. Your thumbs are your authority finger, and should never be hidden.

6) Mirroring

For instant rapport, mirror her body language, with a slight delay so it doesn't seem obvious.

For example- if she puts her hand on her chin, you do the same after a 5-second delay. It subconsciously builds rapport.

7) Eye Contact

Strong eye contact is a MUST.

When you have her eye contact, you have her attention. Of course, look away every once in a while.

80% times eye contact /20% times not, is a good rule.

Pro Tip- stare into her soul when you drop the most impactful word of your sentence.

8) BE OPEN & PRIDING

Have open body language.

You are a MAN. Never hide your body- take pride in it. Keep your legs wide apart so that your crotch area is visible to her.

She wants to see you being your dominant self.

9) POWER POSE

Find your power pose. This is your most uninhibited self.

It's usually your arms outstretched, feet wide apart, and looking upwards while closing your eyes and thinking of a time you WON.

10) TAKING SPACE

Whenever you go to an event, make yourself comfortable first.

Take up as much space as is required, provided there was space, to begin with.

If there isn't space, take your time to find a good spot. There's no hurry.

11) MOVEMENTS

Move slowly. Most Men walk fast, react fast, and just don't take their time. Most Men also don't get laid.

Move slow, about 70% of your current speed. Practice doing EVERYTHING at half speed for about 20 minutes 2-3 times a day, and that will drastically improve your walk, movements, and body language.

Women notice these intricacies.

12) GROUNDED

Be grounded. Your feet should be wide apart, and your center of gravity should be low. This ensures that you are standing strong, which transcends into your voice and gestures.

Nobody can fuck with you.

Pro-Tip-

At Clubs, Bars, and House Parties, hold your drink outside the frame of your body (besides your body). Guys who hold their drink in front of their stomach signal under confidence, because it shows that you're trying to protect yourself from external danger.

You're not most men. After reading and applying this course, *you will be in the top 1% of Men.*

IS IT REALLY THAT SIMPLE?

Yes, it's very simple. Is it easy? perhaps.

But the bottom line is, you need to become an Extrovert to succeed with women and in the social scene.

And once you become one, and you will, you kick yourself about how better and more fulfilling life becomes. As I spoke about in the "Mindset" Module inside Social Circle Bible, we all are natural introverts.

You need to understand that the #1 reason you IDENTITY as an introvert is because you grew up watching things and being around people who made being an introvert acceptable, and perhaps even "cool"

I fell for this myself. All those self-deprecating memes, shows, movies, etc made me complacent.

Until I realized that's not how real life works. WAKE UP.

X | THE MINDSET

As discussed in the mindset module on the social circle bible, you need to realize that
"you're already naked"
(-Steve Jobs)

You need to accept the possibility of defeat. I suggest you watch this scene from the "Dark Knight Rises"

It applies to all things in life. You need to lose to ropes- lose the "I can't do that because I'm an introvert" safety net that has prevented you from winning.

Trust me, after you do the following, especially the "Quick Start Exercises" daily, you will realize that you were an extrovert ALL ALONG. You just had to reconnect with it.

Today is the first day of the rest of your life.

1 | Expose yourself to Tension

You've become too comfortable in your own introverted reality. You need to make Tension your best friend.

How? Do the things that make you uncomfortable at best, and fucking terrified at worst.

The idea is to be in that situation for as long as you can.

- cold showers & ice baths daily
- weight lifting & increasing your load.
- maintaining eye contact till the other person breaks it.
- not smiling or laughing in conversations. (extreme for a while, then gradually smirk)
- Instead of texting, call the person.
- Instead of face timing, meet the person physically.

And always REFRAME situations positively. It's not a loss, it's a lesson.

2 | The 2 Questions to Receive Social Freedom

Q1: Identify the part of you that's been holding you back from being the most socially free version of yourself possible? Give it a name and write it down.

Q2: Identify the Parts of yourself that you promise to Water daily and develop over the coming weeks? Is it a charismatic, seductive, social, dominating side of you?

be specific, identify 3, and give a name to them.

How to Answer

"I am saying goodbye to the introverted, socially closed-off side of me because being shy is being a loser and I'm not a loser.

Today, I commit to enjoying and giving fuel to my Fun-loving, social animal, charismatic and DOMINATING side, as it grows and develops over the coming weeks."

Write this down on a piece of paper and stick it somewhere you can see every day as soon as waking up and just before you sleep.

You are now ready for change, my brother!

3 | State Management

This is THE MOST IMPORTANT module inside this guide. Your state (how you feel at a given moment) can make or break your interactions.

The first thing you need to realize is, that you're not depressed or low value. You are "doing" low value and depressed.

How? Your body impacts your mind and state more than your mind impacts your body.

The next time you feel sad or depressed, notice how your body language is closed off, you're hunching over and making yourself appear as "small" as you can.

Here are some great exercises to change your state from introverted to extroverted:-

3 | State Management

1- Skipping, jumping, bouncing around to your favorite music.

It's not possible to keep jumping around and be unhappy. Why is it that people in clubs bounce a lot? Because it's the universal sign that you're having a great time. Blast on the music that amps you up and go crazy for 60 seconds.

2- Breath of Fire+Grounding

Watch this video: https://youtu.be/SQS4Ad-16vE

You start slow, then medium, then extremely fast, 2 minutes each, and at the end,

you take ONE DEEP grounding breath- while being excited about the day and grateful about Life.

3 | State Management

3- Connecting with your PRIMAL APE

We've been sedated by society. We've been taught from a young age how suppressing your emotions is good- FUCK THAT. Expressing yourself socially involves unlearning all the social conditioning we've been brainwashed with.

How to do this?

For 15-20 seconds, make LOUD ANIMAL NOISES This could be a gorilla thumping of the chest while doing a Tarzan scream, BARK thrice, and get the volume up as loud as you can. Jump up and down like a chimpanzee while doing it.

The main goal here is to remove all filters and reconnect and UNLEASH that wild BEAST.

4 | Power Pose + Go-to Thought Loops

You all know what a power pose is. But when you add these positive thought loops to it, it's like STERIODS for your social results.

Get into your power pose, close your eyes and repeat one of the following thought loops in your mind while simultaneously visualizing and seeing yourself dominate the day and the people you meet.

- "I love myself"
- "I am a social animal"
- "women beg for an opportunity to talk to me and fuck me"
- "I love giving my gift of charm and attraction to women"
- "I am free flowing & relaxed in social situations

5 | The Social Shock Refresh

This will completely eliminate your programming and rewire your brain.

Head to a water faucet and keep it in the hottest setting possible.

Keep your hand in there for 15 seconds, then turn it to the coldest setting and keep your hands there for 15 seconds.

While doing this, nod your head "yes" and repeat the above thought loops in your head. This internalizes those thoughts faster because your body is more present at the moment.

You could also think about a time you dominated your conversations with women and were completely socially free.

6 | Facial & Vocal Warm Up

1) 20-30 seconds:

Yawn widely to stretch the jaw, while making a sighing sound for as long as you can exhale.

2) Tongue Stretches (60 seconds)

Stick the tongue out, point it up and down without moving your jaw.
Then brace the tongue behind the front bottom teeth and push the center against the inside of your teeth.

(last 20 seconds) Massage the muscles of the jaw and face to further reduce tension. Stretch the neck lightly by rotating it.

3) For 20 seconds, close your eyes, while making a "MMM" sound with your lips closed.

Maintain this sound steadily for as long as you can. This helps clear and even out your voice while increasing projection.

4) For the next 60 seconds, pick out anything from your environment (the view, the atmosphere, anything) and talk about it.

There are no standards here- you can talk with yourself about anything related to that object. Be completely free-flowing with 0 judgment.

If you want, look up some tongue twisters to warm up your vocal cords even further.

7 | Quick Start Exercises

Your mindset has been fixed. You're in a great state, your thought loop is fucking amazing.

Now comes the heavy lifting.

If you don't know what to talk about, refer to charismatic Questions and to The Openers inside Social Circle Bible.

Below is a set of exercises that you need to do daily and measure how uncomfortable you felt on a scale of 1-10

1- Very COMFORTABLE
10- Very UNCOMFORTABLE

The goal is to add the scores up and to AIM for the LOWEST SCORE Possible. You are competing with your own scores. (Print the "Social Anxiety Destroyer Weekly Planner)

Remember to reward yourself for every increase in your score, because what gets rewarded, gets repeated.

1) Make Eye Contact with 3 people and dont break it before they do.

2) Ask a stranger for the time/ directions

3) Talk to someone lower value than you for 1-3 minutes without giving in to their demands (homeless guy, girl scout, salesman, etc)

4) Tell a joke in front of people you know

5) Small talk with the staff even when somebody is waiting in line

6) Walk up to a stranger, and talk till you make him laugh. You can't leave the conversation till you make him laugh.

7) Do shirtless pushups in an empty street

8) Do shirtless pushups in a crowded street

9) Dance like you're inside a club on the street or a public place.

10) Go up beside a person walking and match their pace and intensity while being as close to their shoulders as possible.

FINAL THOUGHTS

With this, you are now fully prepared to DESTROY that Introvert side of yours.

Huge success and blessings await you, my brother. I'm so excited to see your progress, to see you embrace that extrovert inside you that has been DYING to come out and showcase all the gifts that you have to this world.

Print out the planner and come back to this often, and you will find yourself more and more at ease in social situations.

Remember, its a marathon, not a race.

And only the ones who keep fucking going, DOMINATE LIFE.

AN IMPORTANT STORY

Once there was a farmer, with two sons.

One day, one of his sons came back with a wild horse he'd found.

"Wow, you're so lucky!" said his neighbors.
"Maybe," Said the farmer.

The next day, his son was taming and training the horse, when he fell and broke his arm, which meant he wouldn't be able to help with the farming.

"Wow, that's unlucky!" said the neighbors.
"Maybe," said the farmer.

AN IMPORTANT STORY

Then the next day the military came because there was a war coming. They took his one son, but not the other, because of his broken arm. Everybody died in the war.

"Wow, that's lucky for your son," said his neighbors. "Maybe," said the farmer.

The Lesson here?

An Event can have INFINITE number of meanings, depending on the circumstances. That is where YOUR FRAME comes in. How you see events will decide your outcomes.

There's a great saying-

"*Events are just events. It is we who frame them as positive or negative*"

With that, Let's begin.

WHAT IS FRAME?

The above story should give you a basic idea about what frame is. Let me make it clear here.

Frame is your perception of reality. It is how you interpret events, things, people, etc.

The concept of frame is important because reality is always malleable and subject to interpretation.

Whoever is more convinced of their interpretation will influence the behavior of everyone around them.

Whoever has the stronger frame "controls" how everybody interprets events.

THE TWO FRAMES

When going to meet a girl, your frame can either be

"God, I hope she finds me attractive "

Or it can also be

"God, I hope I find her attractive"

In the first situation, you will be jerky, underconfident, nervous, chasing- SHE WILL SCREEN YOU

And in the second situation, you will be calm, you will maintain strong eye contact, you will tease and disqualify her, and most importantly- YOU WILL SCREEN HER

Golden Rule- ***Women are screening for men who are screening women***

IS FRAME CONTROL MANIPULATION?

There is a reason that I'm putting this at the start of this guide.

Firstly, you need to remove your frame of "Manipulation is always negative"

Nothing could be further from the truth.

Manipulation, when done correctly, is extremely positive and a win-win for everybody involved.

Every day you are manipulated to do something.

You are manipulated by society and your parents to go to college.

You are manipulated by your high value friends to work on yourself and improve yourself.

IS FRAME CONTROL MANIPULATION?

Two cases of manipulation, one is not so good, the other is very good.

At the core, Manipulation is something you do that you wouldn't have done if not "Manipulated"

You bought this course because I "Manipulated" you, but this is going to change your life and your interactions with men and women.

Controlling the Frame is also manipulating their perception of reality,

.

IS FRAME CONTROL MANIPULATION?

The difference?

It is in THEIR BEST INTEREST because you are a Masculine, High-Value man who gives great experiences to them.

People are looking for leadership anyway.

If you can prove that your frame is in their best interest, they will willingly go along with you

Big Picture-

Always create an underlying context of Win-Win.

BIG PRINCIPLE | Emotional Stability

Everything you do needs to come from a place of groundedness.

You can express emotions of anger and disappointment ness but it needs to come from a place of 100% control.

Think about the result you want, and what behavior you require to achieve it.

Let's say, you spot her talking with another guy at the club.

If you validate her and fuel her drama with attention when she tries to flirt with a guy, you're forming a very vicious feedback loop.

You're training this behavior and giving her the power.

Because the next time she needs your attention, she will flirt with more guys, and worse, sleep with them.

Emotional Stability

So How do you react?

You playfully Encourage the behavior while holding your own frame.

You tell her “Not bad for a blonde girl like you!”

Make it a game where she has worked hard, and tell her to ask the guy to bring 2 drinks for her (one for her and one for you)

Another way you can do it is by outrightly disqualifying her behavior.

Tell her “That was your best shot? I thought you could do better than that.

You both had such great chemistry there, although.. you came off as a little too desperate.”

Emotional Stability

She clearly knows that you're completely secure in your own skin and that her bouts of drama won't get any attention from you.

Another method is to completely be unreactive like it never happened.

In all the cases, you should also talk to another girl in the venue, to show you're very much capable of seducing other women if she tries to get fresh.

Understand that in most cases she's trying to get you to chase.

Advance Concept- Once you have huge amounts of value and she is clearly the one chasing, you can flip it on her and act "jealous and accuse her of being with other guys"

WHAT FRAME CONTROL DEPENDS UPON

Frame control depends on-

- **How much she trusts you and feels comfortable around you.**

- **How strong your frame is:-**

- Internal self-talk (she's fucking attracted to me)

- Is it physically strong? Are you involving touch, and moving your body while establishing frame?
- Is it verbally clear? The tone in which you say your words.

- **How attractive your frame is** (will it add value to her life)
-Positive vs negative frames

When you combine all the 3 above principles, ANYBODY will WILLINGLY FALL INTO YOUR FRAME.

BIG PRINCIPLE | HAVE A HUGE THROBBING VISION

when you have huge goals and a purpose to live for, your frame will automatically become one which serves you the most.

Along with this, your reframes will also become fast and you will be able to hold your frame in any interaction.

Think about this-

If you have a goal of sleeping with 3 different beautiful women before the end of this year, and every day you're working hard at learning game- improving your personality, methods, mindset, etc;

will you be bothered by small things like one girl "rejecting" you?

HAVE A HUGE THROBBING VISION

No, because you know it's a learning process, and that there could be a MILLION reasons why she didn't want to have good sex with a masculine badass (notice the reframe i just did there?)

Think about a Boxer trying to survive 15 rounds in a ring to get a payout of 15 grand vs a man fighting off muggers in an alley.

The man will have the basic instinct to fight and escape alive- he cannot afford to slip up and waste time. (Guy desperately trying to get laid that night) ;

The Boxer, on the other hand, can afford to pass time by "hugging" the opponent and stalling for more time. He can take a punch or two(rejections by women) because he has a bigger goal.

BIG CONCEPT | How are Frames Defined?

Frames can be defined consciously and subconsciously.

If you're getting mugged by criminals, you don't think whether it's a positive or a negative frame.

Your subconscious instantly comes up with a "Dangerous situation. Run"

On the other hand, If a girl looks down immediately after making eye contact with you, a guy has to think consciously whether it's positive or a negative frame. (It's positive)

BIG CONCEPT

Conflicting Frames

Ever had an argument with somebody about a topic you felt strongly about?

There are two opposing frames in that interaction.

The best is the Democrats/Republican Ideology.

If you notice carefully, Every event is interpreted in two extreme ways, with both sides blaming each other in what seems like an “Obvious” choice.

Think about it- The facts are the same, but the two sides INTERPRET them in a different way which makes their frames conflict each other.

Conflicting Frames

So, how do you counter this?

- **Being Congruent-**

Your whole being strongly believes in your viewpoint, you're not just saying what you heard.

- **Pre-Framing-**

You ask them early on if they can "entertain different viewpoints without disagreeing" and that they're an "open minded person" This way, they have to listen to you later on because they said so.

Conflicting Frames

- **Having Experience-**

If you have been in the center of the issue, and have real-life experience, you have a higher weight in the interaction. So if you've slept with a model tier girl, you have the higher, stronger frame to comment on what kind of girls they are as opposed to a virgin. Extremes but you get the point.

- **Being Flexible-**

If you're good at your reframing game, you can frame your argument differently or theirs differently.
Great example- If she says "I have to ask my friends, what will they think" when you tell her to go home with you.

BIG CONCEPT | HOW TO BUILD A STRONG FRAME

- Authority & Status-

Having underlying status in the environment gives you a lot of frame.

The host of a house party will have more frame in the CONTEXT because it is his house- people will listen more closely to him and fall into his frame more often.

- Social Proof-

If you are the center of attention in a circle or environment and women see other women leaning into you, listening to you- They are more likely to do the same because you have a lot of social proof.

HOW TO BUILD A STRONG FRAME

- Self Belief-

Truly believing that you are worthy of authority and you deserve to be listened to. Affirmations will help with that

- Resilience and Resistance-

You need to stand your ground often and outrightly reject the frames that others try to put on you.

- Using Pre-Framing, Reframing, and Box Framing

BIG CONCEPT | How to get women to do whatever you want them to do

Let's discuss one of my favorite concepts around frame.

PRE-FRAMING.

It's simple, and it works wonders on men and especially women.

Very simply, early on in the interaction, you ask her if she's an open-minded, adventurous, and spontaneous girl.

You can ask any one of the three, but for best results, ask all 3 differently, with about a 15 minute gap.

She's obviously going to say "Yeah blah blah" Ok cool.

How to get women to do whatever you want them to do

Later on, say

“You said you’re adventurous and spontaneous right. Come, let’s go to the bar"

(or somewhere secluded where you can isolate her and make out)

Now, since you pre-framed her as an open-minded /+ Adventurous /+ Spontaneous girl,

she has no choice but to go along with you because she agreed to it.

Insanely powerful, please do not use this unethically.

BIG CONCEPT | RE-FRAMING

If you face rejection or an L, you can change your frame to NOT demotivate you.

You simply change what it means- Hence the "RE-Frame"

Example- If a person is driving mad fast and cuts you, you can either frame it as-

- What an asshole
- What a fucking loser
- I'll show him

Or

- His mother is in hospital, he must be hurrying to see her one last time.

RE-FRAMING

The first one throws hate and negativity into the world. but the second one shows empathy and a positive frame on this world.

Bottom line?

You might never know the truth, but it's always better to assume something positive because you don't want that hate lying around in your brain anyway.

At the same time, it gives you power around your life- because you are able to control the interpretation of reality.

High-Status people do not concern themselves with negative thoughts about random people they don't know.

RE-FRAMING

Reframing is so powerful because you can frame an event in an infinite number of ways to serve your purpose, without somebody coming and telling you it's wrong.

It's your reality and nobody has to right to question it.

By positivity reframing events, you will also change the way you behave, you will have a DGAF vibe about yourself, because you know anything that will happen will be positive.

It's literally a drug that you need to be careful around.

2 | Importance of Re-Framing

It could sound like a load of woo woo shit, but consider the alternative.

You embrace that victim mindset and go down into a downward spiral of negativity and resentment.

Nobody likes a loser. No, we support the underdogs who bounce back harder and stronger. Reframing allows you to do exactly that.

The best part?

After a couple of months of practice, you will automatically reframe every event positively and in an instant- without even thinking about it

Sometimes, however, reframes don't work- we discuss why under "Box Framing"

BIG CONCEPT | BOX FRAMING

By far the strongest, and extremely important for conversational dominance- with both men and women.

You put their frame in a smaller box and wrap your frame in a bigger box that carrier their smaller frame

This way, you're not denying or opposing their frame. You're simply acknowledging their frame but also implying that your frame is an obvious and stronger one.

Example- she says that she has a boyfriend.

BOX FRAMING

Reframing won't work here, you can't say "She's just saying that to play hard" (She could be, but the odds are less)

The better way is to put her frame in a small box.

Let's say she's 5'6

Here's how you do it- "Woah, easy tiger, I barely know your name. Besides, I only date girls who are 5'8 or taller"

What you've done is you've acknowledged the fact that she has a boyfriend

(aka I'm not available for you),

BOX FRAMING

but made her frame sound ridiculous by putting your bigger frame on top of hers

(Who said you're upto my standards?)

It conveys to her that you're a chill guy who isn't just trying to get in her pants. She'll be more open to your advances later on.

ADVANCED LEVEL EXAMPLE

If you're escalating physically and she tells you "Things are going too fast and that she isn't ready for sex" , a reframe won't work (Time is just an illusion)

BOX FRAMING

Instead, what you need to do is agree with her frame, that “I know, I’ve never felt this way before.

It’s a big step, and it’s better to be fully ready to experience it at its best.” You simply keep dominating your path and reduce your attention, while never bringing up sex again.

Obviously, you will be seeing other girls at this point, so you won’t be in any hurry anyway.

But to her, you’re the first guy to not push for the sex and that’s extremely attractive and a huge turn on. You’ll realize that she will fuck you sooner than you expect.

BOX FRAMING

Another example in normal conversations-

A friend or your girl tries to argue with you about something, such as who is better, or which cuisine is better.

If they believe X is better, but you believe Y is better, here's how you win the frame battle.

You simply acknowledge their opinion.

"Yes, X is great, one of the best there is. But Y is the greatest. "

You're simply putting their opinion in a smaller box and wrapping yours in a bigger box

2 | *Women will always follow your lead*

Women are verbal mirrors of their environment. They quickly adapt to what's happening near them

If you touch awkwardly, she will too.

If you sound nervous, she will too.

If you're unsure of what you want from her, she won't be able to trust you and will be unsure about your future together too.

Hence, you must create a conscious frame where you are the one who makes the decisions around each other

3 | Be The Friendly Thief

It's important to approach each conversation with a grain of salt.

You should not be too loud or be too smiling. you need to be ready to fight back in case all hell breaks loose.

It's about carrying a big stick. You're kind to people- but you have the power to completely destroy them- mentally, physically, emotionally.

Remember, the person who stays composed is the person who wins. If you're loud and shouting, everybody knows you're just overcompensating.

If somebody does something you don't like, point it out right away- assertively. Kill the monster when its small.

4 | How to Break out of her Imposed Frame on you

Consider this classic shit test - “is that your pickup line?”

What frame she is verbally trying to put on you:-

- You are chasing her
- She gets hit on very often
- This is normal for her
- She’s not easy
- She’s higher value than her.

How to Break out of her Imposed Frame on you

How to Break out of her Frame and instead put your frame on her?

"Woah, easy tiger. I barely know your name. You're cute, but I don't sleep with girls who are 5'5/blonde/from LA/ *anything about her*

Here's what you conveyed through that line-

- This is normal for you
- She's not hot enough for you
- You don't chase girls
- You have high standards
- You're not afraid of qualifying and disqualifying
- You get your way with women
- YOU ARE THE FUCKING PRIZE

How to Break out of her Imposed Frame on you

At the same time, you shouldn't be arrogant- i.e, you shouldn't look down upon her. You should be cocky-funny.

You should be Narcissistic (read as- self-love) with a playful vibe.

Trying to Impose Prize Frame = Lower Value

Assuming Prize Frame = Higher Value

At the same time, you MUST have REAL Value.

(Good news- When you go through this entire course, you will have more value in the Social and Sexual context than 99.99% of Men EVER will!)

5 | Good Practices for Maintaining Frame

Let's suppose you're about to meet a person. Just for practice, Choose a frame that you MUST hold in that conversation throughout, even if external pressure is applied.

Example Frame- "Let's see if she matches my standards "

If a girl says "I don't sleep with guys on the first date",

here's a great frame you can choose -

"Aw, how cute. She doesn't know she's going to have the best sex of her life tonight"

Good Practices for Maintaining Frame

Every word you speak should come from that frame.

You already know she's going home with you tonight, you're just having fun teasing and disqualifying her along the way.

Eventually, your frame will manifest itself because she can sense it through your actions.

The stronger frame ALWAYS wins.

6 | You don't always need to be Right

the problem will most guys when learning about Frame is that they try to assert their dominance in every conversation- they try to be right every time and push back against the other person's frame.

The truth is, you don't need to argue at all.

Simply choose a frame, and hold it regardless of the opposing views.

It's about the saying "My beliefs don't require you"

They can choose your frame (which is in their best interest) or they can stick with their own frame.

Either way, it doesn't affect your frame at all.

You don't always need to be Right

For example-

if she tells you she's got a boyfriend, She's trying to imply that you're trying to hit on her and that she is higher value than you

Now how are you battle this frame and instead is by telling her

" Woah, easy tiger. I barely know your name. Besides, I don't date _____ girls (blonde/brunette: 5'5 - anything specific about her)

You don't always need to be Right

Now you flipped her frame and instead put yours, which is-

- This is normal for you
- You have high standards in life
- Hot women don't impress you
- She's chasing you

It's literally that simple.

Practice feeling as if all that attention is directed towards you.

Hold eye contact and smirk.

6 | Barriers to strong Frame

Naturally, as you try to progress and build yourself up, you will have to face some obstacles to your success.

Our primitive instinct is survival, because of which when we face questions about our frame, we tend to easily fall into the other person's frame to avoid confrontation. and getting kicked out of the tribe.

However, modern situations are not life or death. But our primitive brain doesn't understand that. Hence, we need to realize that and hold our frame.

FINAL THOUGHTS

You need to have some sense of entitlement, that you deserve to be heard and respected, and that your frame and your beliefs are truly worthy of adoption.

If you truly believed that you're a masculine badass who women are attracted to and would kill to fuck, your actions will flow automatically no matter what happens externally.

This is more than anything you will ever need to Master your frame and DOMINATE all your conversations- with men and women alike!

By re-reading this frame guide, you will master your conversations and dominate your relationships.

Keep WINNING, brother.

WHAT ARE METAPHORS AND WHY SHOULD YOU LEARN THEM?

As you already know, I preach ALL AROUND GROWTH. You don't want to be a "Pickup Artist" who has all the lines but no charisma and character to back them up with substance.

There's a saying-

If you want to change the world, change the metaphor.

And this holds a lot of truth.

Have there been times when you wanted to get a point across to someone, but you simply couldn't by using explanations?

That's exactly where metaphors steps in.

Why do metaphors work so well? Because we've always tried to explain things by comparing them to something else.

For example, someone asks you-

"Why do you read so many books?"

You could say- "It teaches me a lot, It's very calming, I like to stay on top of things. blah blah blah."

Or, you could simply respond-

"Because Reading is to the mind, what exercise is to the body.

BOOM.

Which one had a greater effect on you? That's why learning metaphors is CRUCIAL to becoming a high-value man.

"Metaphors are to a High-Value Man, what a sharpened spear is to a skilled warrior."

(Just made that one on the spot)

HOW TO USE POWER WORDS

WHERE TO USE THESE

Power words display skill.

They show that you are a competent man who knows what he is talking about,

Feel free to use them in business negotiations and meetings- where it is imperative that you show the upper hand

WHERE NOT TO USE THESE

Don't overuse them to the point that you seem like a "try-hard"

The aim is to insert one in a sentence to emphasize your point. These words are polarizing and will help you make an impression.

You definitely don't want to overuse these in social settings where you are trying to climb up the ladder.

The more selective you are in using these, the more powerful their impact will be.

WITH WOMEN

Women love it when guys have strong control over grammar and know when to say what.

Your goal is to mesmerize her with your passion.

What are examples of some passionate words?

CONQUER.
BREATHTAKING
ECSTATIC.

Actually, I realize looking at them, that 90% of the power words convey passion.

Bonus points if she doesn't know its meaning. Tease her by telling her " You have a short vocabulary, don't you?"

MY STORY

I'll be honest with you, I was a simp until a few years ago

I used to sit on my couch, play video games, and jerk off every night before i cried myself to sleep.

My girlfriend had just cheated on me with my best friend.

I was miserable.

Then one day, when I was contemplating thoughts of suicide, I decided to rise against the odds and I screamed so loud that the neighbors were about the call the cops.

"I WILL NEVER QUIT"

and the journey began.

I kept my feet down and worked out for the next 6 months. I ghosted all my friends. not a single call. not a single "here's what's up", NO.

I disconnected and worked on myself 24 hours a day. literally.
even when I slept, I put on affirmative subs that reprogrammed my brain to believe better thoughts.
when I was not working out, I was learning psychology, game, and the sport of business.

6 months later, I made that ex my fuckbuddy, till I got bored of her and dumped her. I moved to a different city, where she FOLLOWED me. I banged her there for a while as well and dumped her again.

I got the last laugh.

The best part?
We're still friends. even after what I did to her.

That is the power of psychology, persuasion, game, and influence.

I have since then, built multiple successful businesses using near ZERO money, and dated some of the most beautiful women in the world. I have a healthy competitive mindset and a fit body, but mind you, it wasn't always like this.

The power you feel is incredible.

WHAT THIS BOOK IS, AND IS NOT

This book is going to be straight talk. no fluff. no woo-woo shit. I've read countless books, articles on this topic, and researched all on the topic of psychology. BUT that's not important. nobody gives a fuck how many books I've read.

Here's what matters-

And I have to attribute most of that to the secrets that I'm about to share with you.

what I've always noticed is that how much false information is given, and how much is held back from you guys!

Most books on psychology are 1000 pages of technical jargon that nobody gives a shit about and very little actual information that can be used. The good news is, this book is NOTHING like that.

I've used psychology to become socially calibrated; I know the underlying factor in why someone does what they do. It's incredible how someone can be so dumb at times. The china virus is only going to worsen that. People have become so isolated that they don't even want to interact with each other.

The strong ones will win.

The weak ones will suffer, and be sent into oblivion by society

It's as simple as that.

I've been APPLYING psychological secrets to game women and get into business with extremely high-profile people. At the same time, I've improved my inner mindset so that I protect myself from all lows and highs. I have extremely high standards with people and events and a badass social circle.

It's clear and concise information, that can be applied IMMEDIATELY as soon as you read it. I've also prepared an action step cheat sheet for you badass motherfuckers, so you know exactly what to do in addition to a whole bunch of other bonuses

01 The cat that was actually a dog

decisions are influenced by preceding thoughts.

If Person A goes first and votes "yes" for a cause, it is likely that the next person will also vote "yes"; and before you know it, the whole room votes yes.

we are primed to say that. Nobody wants to feel left out of the herd. sequential order changes decisions.

This is why so many great ideas die. People don't stand up. 99% don't. Realize this, and be the odd one that says "NO".

You will be suitably rewarded, since your idea will be taken up, and you will have become a leader. Most likely the people who vote after you will mimic your vote.

People are extremely self-conscious.

In fact, there were studies conducted where if you showed a group picture of a dog, and the first person says it's a cat, the next person has an 85% chance of agreeing that it's a cat even when it's obvious it's a dog.

01 The ca
a dog t that was actually

This is the power of groupthink, and there is an opportunity in going against it.

In Business, be the one to disagree with the herd. be the one to bring up different viewpoints. People will have much better points, but because they won't dare to go against the group, you will reap the rewards.

In Dating, Disagree with her. The whole world agrees with her, just because she's pretty and they think agreeing with them will get her in their pants. Imagine how wet she will get when she realizes that someone has the balls to have a different viewpoint, and isn't afraid of challenging her.

02 First Impression stay, but Last impressions Last.

You might have heard, first impressions last. well, it turns out that last impressions last too.

It was found that people who went to a crowded amusement park, with long waiting lines, unhygienic environments, and crying kids did not in fact seem to care about it, if the last few rides were pleasant, with no waiting lines, clean surroundings, and a peaceful atmosphere.

This is also called the *"Peak end effect"*

There is power in this.

Say, you are going to give a presentation to your boss, or to a board that you want to impress. There are many others going for the role as well. Ideally, you want to go either first, or preferably last. This is because people remember only the very first and the most recent ones.

Think of your dating life. you surely remember the first women you slept with, the whole experience, the afterglow, etc.

Then there were many blurred memories in between, a lot of blanks that you can't seem to fill. You do, however, also remember the most recent woman you slept with. That is the power of *recency*.

02 First Impression stay, but Last impressions Last.

Back to the interview.

In Business, It was found that you are 60% more likely to be selected for a job/ promotion when you were the last person to give the interview or the presentation. That means, even if the person preceding you was much better than you, you are more likely to get promoted just because you were the last, and the one that they remembered!

In Dating- If you are texting with a girl, be sure to send her a meme, or something witty and flirty right around the time she sleeps. She will remember you, and tend to hit you up when she wants someone to "console" her ;)

03 Hazelnut and Cacao Bliss Balls

looking for evidence?

People judge based on the conclusion, not the evidence.

The dots are connected backwards.

If end result sounds positive, they will confirm the result with the logic that the evidence made sense. The dots always make sense backwards. This is why so many corrupt and crooked businessmen and politicians get away with so much. They have the power to maintain the outcome of lawsuits and trials in their favor, and when the public sees that, it's all they remember, and they come up with logic such as "he did good deeds" " The evidence clearly states he's innocent".

Remember, the public view is the "reality"

This is why businesses pay millions to Public Relations firms. They know that public image is the difference between getting sued and getting rewarded.

In Business- always be on the lookout for how your colleagues think of you, bosses and subordinates included. Do small favors for them, and inevitably the judgment will be in your favor. The logical reason they will give themselves will be "he's clearly better"

With Women- the most believable conclusion is what she will agree with. ensure that you dumb it down for her so that it is easy for her to agree with you. Suc-cess with follow

04 *Insert Automated message here*

Society is slowly but surely resorting to the automation bias.

people tend to believe anything on a screen.

In fact, in a study conducted by Harvard, about 96% of people agreed to a statement that was falsely stated as a fact.

you took the bait.

In Business, to make your point During negotiations, quote random statements with a specific number as fact, citing a study. The opposing party will have no option but to acknowledge that. If they disagree or question it, they sound uninformed.

With Women, Pretty much the same. overwhelm her with poetically formed statements that sound so smart that she can't even comprehend.

Women like high IQ men who can challenge them.

05 Pygma-what? effect

Below is what's called The Pygmalion effect

external opinions increase/decrease the performances of people.

In fact, people internalize how others see them.

They see themselves through other people's eyes. this is a pretty mediocre trait, and I hope you aren't doing this.

You are what you think you are. Others see you as a reflection of themselves. So when people are judging you, they are really just judging themselves. Mindfuck right? I know.

But since 99% of the world is mediocre, you can use this to your advantage.

When you want someone to do you a favor, compliment them a few hours or a few days leading up to it, depending on how big the favor is. Though this might seem obvious, it's incredible to see how many people don't do this. Positively reinforce the person, and they will perform exactly up to your standards.

Never seek approval.

This brings me to the next secret psychology trick:

06 The only way to get people to owe you big time

Two lines of pure gold below, which will solve 95% of your people-problems:

what gets rewarded gets repeated.
what gets punished, gets banished.

Don't be nice to someone who does not obey your command. Your word is your final warning.

I make sure I reward someone when they do something positive for me. A simple thank you goes a long way in building social currency. I equally make sure to let them know they fucked up and I'm angry at them. I either ghost them till they apologize, or make their life a living hell, depending on how bad they fucked up.

Fixes things up in an instant.

Here, the application with women and in business are the very same. you have boundaries and standards. anything that does not match up to it is punished and thrown out. anything that exceeds it is rewarded and welcome.

accepting them is the minimum requirement.

07 Don't think about a Pink Elephant

Humans love to do the opposite of what they're told to do. It stems from their childhood need to rebel and disobey their parents. That is why, you tend to disagree with people whom you don't like, even though you both support the statement.

This can be a very powerful tool if used correctly and at the right times.

It's called Ironic process theory.

it also works in a negative way, meaning when you try to stop thinking of something, you will dig deeper into it.

How to apply this in:

In Business, when pitching your products to investors or selling them to customers, tell them to "not think of" an image that describes your product. They will think more about it, which will, of course, lead to more sales and better results.

With women- Play the mental imagery game. put pictures of you two having a good time, and then tell her "I don't want you to think of me inside you, while you scream and beg me for more". Thank me later

08 The World was created by People no smarter than You

Let's talk about the "worse than average" effect. It's a tendency of people to underestimate themselves at a task they're new age when in reality they're just as good as anybody doing it!

People are really underconfident of it and need significant help with it.

The opposite is also true, where people grossly overestimate themselves at a task where they're no better than the average. It's called the "Better than Average" effect.

Recognize that someone has to succeed. Why can't it be you?

Don't fall for this bias; immediately correct yourself as soon as it pops up.

09 The girl who accused her father of rape

Short story: there was this girl, who in her mid-thirties accused her father of rape when she was just a child. It was shocking and her father was sent to prison.

Months later, it was proved that it never happened, and she literally created a false memory in her brain. It wasn't manipulative; her brain genuinely created a strong memory of her father raping her regularly when she was young. Her father was released from prison and she was sent to rehab.

Realize through this, that the world as we know it is an illusion of the truth. There are thousands of stories throughout history that are false. wars that never took place. kings who were never born. some are done intentionally, some unintentionally.

Many were just the ideal figment of their imagination that people created to show them the way. It's pretty fucked up, but that has always been running around in circles.

during negotiations, if the other party accuses you of something, bring up instances of false memory and some statistics showing how common they are.

10 Facts don't matter. Only the direction does.

Look at the statements below

All Americans agree when I say this "Capitalism is great for our country"

65% of Americans agree when I say this" Capitalism is great for our country"

which one do you think is true?

which one do you think is useful?

what is the factual truth does not mean it is useful or quotable. people like extremes. they want to support a movement that has full backing (groupthink)

Donald Trump uses this trick all the time. He uses grand words to describe even the smallest changes. This makes them big and relevant, and the public loves it.

I bet you, a few of them are factually correct. But you know what? nobody gives a fuck.

Only the direction matters. If you are directionally correct, i.e., it makes sense and some people do agree with it, you're good to go.

always use grand statements during financial numbers and future projections. The stock market runs on hope, not on real financials. The better you can hype it up, the higher up the ladder you go.

The same applies to women. use such strong purposeful words that she can't help but plead to be dominated by you.

11 Avoiding the $90 profit

What if I told you that if you give $10, you have a 50% chance of winning $100? would you try your luck?

and

What if I told you that if you give me $10, you have a 50% of winning $100, and a 50% chance of losing that $10.

chances are, you did not like the deal so much after reading the second statement, even though the chance of winning is equivalent to a coinflip, and in the long run, you are pretty much guaranteed to win.

Both statements are identical in meaning.

Then how did just one reminder about how you could lose your money put you off?

In comes the *loss aversion bias.* It basically means that humans like to avoid losses much more than they like to win.

That's also the reason why so few people are extremely rich. most settle for safety and security, out of fear of losing what they have.

Take the $90 profit risk. Remember that the higher the risk, the greater the reward. obviously, you have to be sensible about things, but if you have a small hunch, shut the bias and take control of your destiny.

Approach women and be direct in what you want from them. Don't be stuck in your head thinking "oh, but what is she going to think?" nobody cares man. She is more introverted yet she has insane desires that she wants fulfilled. all you need to do is be direct and go for the Win.

12 "I Bet you're a bit like me"

I bet you're a bit like me: you love to socialize with people and meet new women, but at the same time you love the alone time where you sit and contemplate life and get deep focused work done.

you related to that. didn't you?

The beauty of these statements is that everyone has all kinds of feelings and wants in them. Sometimes they feel like doing A, other times they feel like doing B. You have to relate to them, and it's not that mysterious.

The true power lies here- It "helps" anybody agree on just about everything.

You see, people want to be helped to make decisions and agreeing to things. If it's a stranger you're talking to, this works even better, because just the sheer audacity to cold read them is going to make them bow down to you (metaphorically)

Saying that will get them to provide evidence that supports your objective.

Holding eye contact is key. It will feel as if you're looking straight into their soul. watch them nod back at you.

Here are some examples:

Situation- you're skeptical of someone's objective to your idea because of lack of time.

(continued below)

12 "I Bet you're a bit like me"

Solution: Early into the conversation, say something like-

I bet you're a bit like me; you enjoy working hard now, knowing it will pay dividends in the future.

Let's say you want to partner up with somebody-

"I bet you're a bit like me, you hate watching trashy TV in the evening, and would rather work on something beneficial.

This one below works with just about any issue:

"I bet you're a bit like me; you're a busy person who is always juggling to get everything done.

which is incidentally how 99% people see themselves as.

The beauty of this is that it will break down the walls that people create to protect themself. They will welcome you into their circle because you get them. You understand and respect their situation. And since you're both alike, you will both like each other.

Cold read women you meet. "I bet you're a bit like me, * insert generic yet relatable statement*

13 "As I see it, you have 3 options"

This is another tactic that is incredibly effective in negotiations, and when you have to make someone look stupid.

wait, aren't they the same? haha.

Here's how it goes-

People:

1) Hate to be manipulated
2) want to feel like they made the final decision

The good news is, you can do both and win big.

Use these words to narrow their gaze:

"As I see it, you have 3 options"

always leave your preferred choice at the end. You will build its value using the other two statements.

Here's one that I really like, for something you want them to try.

"As I see it, you have 3 options. First, you could look for another job, work on your resume, send out applications, go through countless interviews. Second, you could do absolutely nothing, stay exactly where you are, accept that your current circumstance is as good as it gets, and just sucks it up. Or third, you could give it a try, work it alongside what you're doing right now, and see how far you go.

13 "As I see it, you have 3 options"

"Of these 3 options, what's going to be better for you?"

And then let them decide.

The trick here is to portray the first option as bad, and the second as **WORSE**, before you insert the third option which appears as a godsend to the person.

use this at free will with people in negotiations and when you have to wake them up to the truth. Most people don't consciously think about this. It hits them so hard, that they have to reassess their life choices.

14 "You getting this, aren't you?"

It's so important to correctly frame your words. We can talk about body language, tonality, etc all day but in the psychology of influence and persuasion, words are king.

Here's the power of simple swaps:

It turns an open-ended question into a closed one

For example, after a presentation, you want the audience to engage with you because frankly, it's good for you and them.

What would you choose to say?

A- Do you have any questions?

or

B- What questions do you have for me?

both these questions are hoping for the same response. The difference is that B is coming from an assumptive tone; they obviously have questions for you, you're just asking them "what questions"

The first one comes across as underconfident, needy, and seeking. and if there's one thing in life you DON'T want to be, it's needy. fuck being needy. only have wants.

Here's another, which will be very useful in both business and with women:

Say, you meet a prospect and pitch a product, or you approach a beautiful woman. in both cases you want their number, so you can contact them later.

Here are two ways you can go about it:

A: can I have your number

B: what's the best number to reach you at?

see the power.

This change itself is worth ten times what you put into this program.

make the decision easy to make. they will oblige.

15 The man who bought a Tesla because of it's 435 Mile range.

Think about the last time you bought something. It might be a piece of clothing, a phone, or something as simple as a drink.

Let's take the example of red bull. Why do you buy it?

Is it because it has caffeine, vitamins, and taurine?

or is it because it conveys taking risks, adventure, and obviously feels good in your hand?

Well, there's your answer.

People buy on emotion, and then justify that purchase with logic.

Very few people realize this. Most are out there still trying to sell on logical reasons, while the few who realize this, sell based on a lifestyle, a way of living; an emotion.

And the man who bought a tesla for its range?

he doesn't exist.

he bought it because it's the sexiest car around, and Elon Musk is among the Richest in the world but shares dank memes on Twitter. He wants that lifestyle. Hell, we'd all wanna do that!

BONUS!

Snapback Comments and Disqualifying

This is my favorite psychological trick to use on women. They fall for this like a moth to a lamp.

It's similar to "I bet you're a bit like me", but it's kind of the opposite. we disqualify her.

What is qualifying and disqualifying?

Think of it as screening applicants for a job interview. You check for the ones that are good and reject (disqualify) the others.

So you could say something to her that is completely the opposite of what you want her to be.
example-

"you're the mom of the group, aren't you?"

"you're a coconut girl, aren't you"

"you're the innocent one, aren't you"

She will want to snap out of them and will reply with something like "no no I'm not I'm fun " something along those lines that will prime her to be more sexually receptive the next time you escalate.

At the same time, you are disqualifying her by putting her in a negative frame. girls love it when guys do that because while you are disqualifying her, i.e, telling her she is not up to your standards, while the whole world is literally begging for her attention.

You will stand out in her head.

That usually ends up good ;)

NEXT STEPS

THIS BOOK IS JUST THE BEGINNING OF THIS PROGRAM.

There's so much that I've prepared for you.

It's exactly what I use for myself, to get the results that I get.

You will find attached "Winning Metaphors"

These are the quotes and metaphors that have kept me going even in the darkest times.

They've motivated me and pushed me to become better. I read them every day at least once.

My mindset has become much better because of it.

You will also find "The Rules of Life" Affirmations.

These are the words that you'll live by.

Your subconscious will reprogram your brain and you start behaving exactly how you see yourself.

When you combine these two with the most important of all;
THE ACTION STEP CHEATSHEET

You will become unstoppable.

I'm so excited for you man.

FINAL THOUGHTS

This book and the program have been a journey of many years in the making.

There were highs and lows along the journey, and still are;

but what matters is you persevere through them.

Just Win.

& Dominate.

If you enjoyed this book, and the whole program, be sure to rate it 5 on gumroad, it will help other badass action takers get the practical knowledge to win.*

WHY DO YOU NEED TO LEARN HER SIGNALS?

Did you know?

Most potential soulmates never even meet. Because either the Man or the Woman never got the signal in the first place. Although women are MUCH better at spotting signals, We Men, on the other hand, aren't the best.

In fact, 95 out of 100 out of men miss female attraction signals.

This means the 95 women have to SETTLE for Men they're not the most interested in, simply because YOU never got the sign in the first place!

I'm sure you have the following questions-

At this point, I'm sure you would want to know-

(1) what woman?
(2) what signals?
(3) how many signals? and
(4) what each one means.

Women are always sharing secrets with their girlfriends- sexual and otherwise

Once you read this, you'll soon be able to read and attract a woman effortlessly.

Always look for multiple attraction signals, because it guarantees a sure-shot way of her being interested in you. Without further ado, let's begin.

1 The "Social Moment" Gaze

Laughing is one of the most honest signs of enjoying communication and interaction.

But when everybody laughs in a group?

She always looks for the person she's most interested in.

"Is he laughing too?"
"How does he look when he laughs"

Her subconscious craves that instant connection with the guy she likes the most. Look out for this.

1 The "Social Moment" Gaze

In this picture, you can see through the red line how those two are attracted to each other.

Look for this in social interactions.

2 | Posing for you

Ever noticed how your body language changes when you see an attractive girl?

You immediately straighten your posture, fix your hair, try to avoid eye contact to not look creepy, and walk/sit confidently.

Well, it's no different in the case of women.

if she sees an attractive guy walking into the venue and in her line of contact, she will get very conscious of her body and try to align it in a way that makes her look extremely sexy and seductive.

3 | Licking or Biting her lips

This one should be relatively obvious, but you won't believe how many guys consider this as another one of the "she's just adjusting her body" or "her lips are just dry"

Listen, bro.

nothing she does is accidental. Women are masters of the game and have been playing it ever since they were 5 years old, asking their father for another scoop of ice cream.

When a woman licks her lips, it's her primal self preparing for the kiss. She's making it wet because she's already imagining you kissing her and inside her. She's making them more inviting, increasing the tease, and making you escalate further. You can go faster when she gives you this sign.

3 | Licking or Biting her lips

4 | Looking down submissively, then looking up again

When your eye matches her, do not look away.

Hold that eye contact, and if she's interested, she will look down, submissively, immediately.

This is the moment where you keep holding that eye contact, and she will inevitably look at you again.

This is when you pass a gentle smile. She will reciprocate and you can safely approach her. .

5 | The Body Caress

How do partners touch each other's bodies before, during, and after sex? They Caress it.
It's the universal way of showing sensual care and comfort.

When she starts caressing her body while talking to you or looking at you, it's like scratching a sexual itch.

She's feeling that tingling sensation in her body. It's also a learned trait since she's seen it in movies and seen Men enjoying women caress their bodies.

Now she uses it as a way to seduce men from afar.

When she does this, you can be sure that she's in the bag and all you have to do and keep leading her and leading her till she's in your apartment riding you.

5 The Body Caress

BONUS-Are these Signals Conscious or Unconscious?

you need to understand that attraction is not a choice.

Unless she is literally a stripper or a thief who has been trained to display attraction signals, most of what she will do is Unconscious/subconscious.

She's learned most of it over the years of interaction with men and girls when she was younger, but now it's all ingrained deep down into her psyche.

In the male body, our pleasure zone or "erogenous zones" are mostly located at one area- on and around the Penis.

BONUS-ARE THESE SIGNALS CONSCIOUS OR UNCONSCIOUS?

But in the case of women, it's much different.

Her erogenous spots are spread all over her body- her neck, her earlobes, her underarms, inner thighs, her elbows, her breasts and nipples, and so on.

When she feels attracted, she gets all fidgety and tingly all over these spots. Hence, she will often touch, caress or display these areas in an effort to show the Man that he's turning her on and "signaling" that she's getting turned on.

Unfortunately, 99% of men never understand this. But you have. Congratulations!

6 | Leaning in

If she's just met you, you're interacting, and the vibe is pretty good, she will often lean into you, as if almost trying to touch you but can't.

This is her way of letting you know she's interested in you by entering your personal space.

Remember to *never* back up when she does this or she will take it as a sign of your disinterest and shy away.

7 | The Interested Palm

When a woman glances at you, chin resting on her hand and the palm facing forward or upwards, it means that she's interested in your style and is ready to submit.

You've made her curious. The opposite is true as well, if her palm is facing her neck- she's probably not interested in you..yet. Take a step back, Smile, and continue building comfort.

The reason? Palms are very sensual and "honest" parts of the body since they are usually hidden. When you surrender. you raise your hands up and show your palms to signal submission

7 | The Interested Palm

8 | The Neck Reveal

The Neck is one of the most submissive parts of the female body. When animals hunt for food, they always aim for the prey's neck.

Similarly, when she flips her hair to one side and reveals the neck on your side, you can be sure that she's liking what she's seeing and hearing. It's her way of saying " I submit".

You can comply by complimenting her on the texture of her hair. Remember to be specific.

8 The Neck Reveal

Man on this side
= attraction signal

BONUS- ATTRACTION IS LITERALLY A DRUG

We're gonna get a little nerdy here. Bear with me.

Phenylethylamine or the PHM

This is the ultimate neurotransmitter- i.e, that substance that is released at the end of a nerve fiber when a nerve impulse arrives- the impulse of love, attraction, and excitement.

Now, PHM basically gets you high. When she sees someone she's really attracted to, more PHM is released, ***which makes you less rational and more impulsive****. This is also why women go head over heels in love and lose all senses when she's with the man she likes, and also why eventually many guys become... beta bitches.*

BONUS- ATTRACTION IS LITERALLY A DRUG

This is why learning the game is so important, and why you will get 100 times the results the other guys get- because women understand the game very well, and yet they want you to play it.

Heck, they want their Men to be a Master at Game, because when she's attracted to you, her body only thinks in primal terms and about how much fun and excitement she feels, because she wants her fix of PHM.

You can smirk and maintain strong eye contact and even wink, when you're sure that she's giving you an attraction signal. This will let her know that you understand the game and her movements.

BONUS- ATTRACTION IS LITERALLY A DRUG

Note- the negative side of this are the "messed up women" aka sluts, who jump from one guy to another to chase a greater PHM fix.

If you know someone like this, you must avoid her before she leaves you messed up too, and perhaps with STDs.

9 | The Underarm Display

Similar to the neck, the underarm is another submissive and Erogenous zone in her body that is extremely sensitive to touch.

It's rarely seen and hence, exposing them to any male means that you mean something to her.

She is comfortable enough in your presence to lay back.

You might think that she is just adjusting her hair, but she knows exactly what she's doing- sending you a signal to keep doing what you're doing- and escalate further sexually...

9 The Underarm Display

10 The Monkey

Also known as mirroring, oftentimes a woman will start doing exactly the same things as you do, body language-wise.

You take a sip of your drink, so does she. You put your hand on your chin, she does the same. This is one of the strongest signals of attraction because she is trying to be at the same wavelength as you. She likes your personality and wants to show that she can do the same too.

Pro tip- You don't have to wait for her. Start mirroring her movements after a 5-second delay and this will establish rapport between the two of you.

She automatically starts feeling comfortable around you, because she likes people who do the same as her, and vice versa.

The Monkey

11 | The Shoe Fidgeting-

Observe her footwear. If it's falling off her, and she's trying to bounce it off the end of her toes, she's definitely trying to show more flesh. It's an indication of positive sexual energy.

If the shoe falls off the floor, it's a kind of sexual "come at me". She will usually do this along with 1 or more of the other attraction signals we've discussed.

Bonus Tip- The Footsie

If her legs touch yours, or if she tries to play footsie with you under the table, you can be sure that she's sexually attracted to you. The feet are the most honest signal of attraction. Women simply won't bring their feet near a guy they're not interested in. Anything Knee below, and it's a great sign. Your job at that point is to keep doing what you're doing and just lead her to your place/ sex location

The Shoe Fidgeting-

FINAL THOUGHTS

I'm sure you've noticed many of those signals from women towards you, but you missed so many opportunities to open and escalate.

NO MORE.

You're now aware of the most important attraction signals that you need to know. Remember to NOT get too stuck up in your head looking for these signals or you will fuck up the conversation.

After some conscious practice through looking at public interactions and yours, you will internalize them.

Keep becoming better as a Man, something we discuss and work on every day inside our Brotherhood. If you want to be surrounded with Action taking Masculine, High-Value Men, join us!

WHAT IS THE IMPORTANCE OF SELF-IMAGE?

Self-image sets the boundaries of individual accomplishment. Most of you have poor results because your self image is always "Why do I also get poor results"

This concept is a bit woo woo but believe me, changing my self image changed my life.

Ideally, you say "I AM" and then add whatever you feel you're not and that you're trying to be. It has to be in present tense, as if you're already living it to work.

I've written down many that worked for me. Feel free to add your own, in fact I ENCOURAGE IT. Repeat these every morning and evening. Set a reminder of your phone.

CLOSE & DATE SETUP

When it has been understood that there's a low chance of sleeping with her that night, you will have to keep her in your funnel by getting her number and setting up a date instead.

This gives her a chance to convey any remaining concerns and also removes the pressure off her.

Tell her " It's a bummer that you can't come tonight, but let's meet later this week. Is Tuesday better for you or Thursday?

You're thus giving her the illusion of Option. She has to choose from 2 options, which reduces the chances of her saying she's busy both days.

Select the date, location, and time. Pizza, Coffee, or Ice cream all work great. Which girl says no to Ice Cream?

The location should be close to your place, or the hotel. "Cool. There's this crazy place called __. Let's meet around (time). "

Once the date is set up, take her phone and save your number as "(Name) My future Ex Boyfriend." or "Mr. Handsome" or any inside joke that you two shared.

Then, text yourself from her phone, something playful that when she looks at the next morning, she remembers that feeling.

"Hey, it's Laura. I can't wait to see you on Tuesday at Jamie's at 8 pm. I'll wear something tight ;)"

This is, of course, for the girls you cold approach/Instagram. You don't need to go that hard with girls you meet via social circle- but the added fun element is always good.

This being done, start this with the next girl- don't waste more time on her.

If she doesn't give her number/instagram, don't try. Move on- plenty of fish in the sea.

If she's not sure about her schedule, be cool about it and set a day, but "no worries if we have to change it"

It's important to be nonchalant about it- it shows that you have multiple options and a lot more to life than going to a date with her.

A few hours before the date, confirm her presence by building anticipation and future pacing-

"You're not one of those lightweight girls who can't handle her booze, are you? I'll see you at 8pm"

The #1 Reason Women Flake is because they're in a bad state *in that moment* By leading with that tease, you're creating a challenge for her!

Once you're on the date, and this is the most important no matter if you know NOTHING about her.

Break the ice immediately by breaking rapport with her. The Bible of Spark is extremely useful for this.

Why? Because what kind of people break rapport with each other comfortably? People who've known each other for AGES.

Another thing, always sit BESIDE a girl. Never opposite. sitting facing the same way Creates an "us vs them" frame. Trust me on this.

Once you're there, the goal should be to give an emotional rollercoaster (the friendzone destruction bible), build comfort (charismatic questions), have fun (word-for-word attraction), and then either take her home OR leave at a high and plan a next date. You can tell which by the way she responds to your game!

WHY CONDUCT AN AUDIT IN THE FIRST PLACE?

You can only be as good as the people around you- in mindset, habits, and to a large degree, results.

Hence, it's crucial that you consciously create and curate your social circle. You need to have high standards that MUST be maintained in order to be your friend.

have different people for different purposes. Different circles for different events. Don't dump your vulnerabilities on your girlfriend, instead have a close male confidant or female friends whom you confide in, and he/she confides in you.

There are certain questions you will need to ask yourself, the difficult conversation you will need to have with "friends" and with yourself, all for the greater good- MAXIMIZING YOUR RESULTS IN ALL AREAS OF LIFE.

X | Define your Best Friend, Confidant, & Brotherhood

You will be pulled into conversations that will tempt you into revealing details about your life. Avoid it. It's not worth it. You will appear to be qualifying yourself, and reveal key points that can be used against you.

To help with this, pick one person whom you trust with your life, and whom you can count on to give you solace and advice at the right times.

He is the only person you share problems with. Make it crystal clear that the person is your confidant.

They should know that they're your confidant and that you both won't be talking about it to other people.

This will benefit you by removing your anxiety and worries, putting a lot of weight off your shoulders, allowing you to walk lighter.

Thought Loops & Their Importance

I'm sure you have heard the phrase "Your thoughts become your reality"
But have you ever taken a minute to carefully think what it means?

Look man. You and I both have thoughts occupying our heads everyday. Whatever is on the to-do list, the girls we're in touch with, the bills we need to pay, the patience games we are forced to play.

But I'm here to tell you. That's BULLSHIT.

The Average Person has over 70,000 thoughts per day. 68000 of which are ABSOLUTELY USELESS. Compare this with professional athletes and elite level men- who have around 3,000-5,000 thoughts ONLY!

How do you reduce these useless thoughts, then?

By simply putting a thought loop ON REPEAT in your head, all day long when you're just wandering otherwise.

Here are some ideas for you, some thought loops that worked for me. Choose one per day, and whenever you catch your mind drifting, insert one of these thought loops.

I highly encourage you to add your own to these!

WHAT IS RAPPORT?

Rapport is a relation of relatability.

It's a situation when you both have a connection of any topic and can relate to one another.

If you get introduced to a girl by your homie, you ALREADY have rapport with her because you have a common connect- YOUR HOMIE.

When you add TRUST to RAPPORT, you create COMFORT.

TRUST + RAPPORT = COMFORT

The girl you met has rapport with you without speaking a single word out, but there might not be comfort built yet.

WHAT IS RAPPORT?

Here are some easy ways to build comfort:

- Matching and mirroring their body language (and an advanced version is, after them responding better to you, changing your body language to a better level and taking them with. you)
- Maintaining good eye contact and smiling.
- Asking Charismatic Questions.

All of which are in the Seduction Bible you own.

Rapport sounds amazing, doesn't it?

So why am I telling you to break it?

THE IMPORTANCE OF BREAKING RAPPORT

1. Every dude desperately tries to build rapport with her all day

2. What kind of people break rapport with each other?

PEOPLE WHO ALREADY HAVE AN ABUNDANCE OF IT

(people who have known each other for a long time)

Mindfuck- when you break rapport with a girl, you send a signal to her brain “we’ve known each other for a long time, we already have comfort.”

That’s why I often tell guys to break rapport within the first few seconds of meeting a girl.

Breaking rapport builds rapport. POWERFUL STUFF.

THE IMPORTANCE OF BREAKING RAPPORT

Now, obviously you don't keep breaking rapport or that will make her go "he's right. I'm not worthy of him."

she will check out sexually.

The goal is to agree on some aspects, disagree on others, do some light teasing, while still maintaining the comfort.

Don't worry, by the time you're done reading this guide, you will know this on the tip of your tongue.

GOLDEN RULE:

After a Break in Rapport (Disqualifying/BR) it is important for you to build some kind of comfort afterwards (BC)

THE IMPORTANCE OF BREAKING RAPPORT

Some good ways to do this-

- Saying “I’m just kidding”
- Pulling her in for a hug
- Laughing with her
- Complimenting her about something very specific “I like the fact that you know so much about style”

Now that you know the basics and advanced stuff of rapport and breaking rapport, let's dive deeper!

1 | QUALIFYING AND DISQUALIFYING

What is Qualifying & Disqualifying?

Most guys have a vague idea of these concepts, but they can't verbalise it with examples

Simply put, qualifying is when you make her jump hoops to show that she's worthy of your attention and time.

- The same way a dog is made to shake hands to receive a "treat"

- The same way a circus master makes the lion jump through rings of fire at the circus.

Disqualifying (or Breaking Rapport) is when you convey that she's not worthy of your attention. Breaking rapport & then qualifying creates the SPARK of attraction.

QUALIFYING AND DISQUALIFYING

This is when you stand out from ALL the sea of simps that orbit around her.

None of them have the balls to tell her “No, you can’t have the treat”

When done correctly, she will initiate touch with you, flirt and invest more into the interaction.

Before I give you the exact lines, a word of caution:

Too much of breaking rapport breaks the elastic band. You have to balance these out with comfort building questions which I will lay out as well.

Remember that the underlying tonality should always be that of fun, playfulness, and self amusement. Women are DRAWN to that energy.

THE 7 WAYS OF BREAKING RAPPORT:

1) PHYSICAL

2) TEASING

3) VERBAL

4)TAKEAWAY

5) DISMISS

6) UPPER HAND

7) SEXUAL

1 | PHYSICAL

- Playfully push her away
- Touch her with something very cold/very hot for a second
- Play thumb war and press her thumb down HARD.
- Tell her to put her palm in your hand. Then, tap her on the hand. Like you're smacking a kids hand, since she has displeased you. Get’s the dominance-submissive compliance going.

PHYSICAL

- Have your eyes wonder, looking into the distance, like you've become lost in thought
- Lean out and away from her
- Check a text message and start replying for 2 minutes during your interaction
- Tell her "I don't know if I want to hug you or fight you"

2 | TEASING

- give her a silly nickname- “Sweetie, Sparkles, Candy, Buttercup, etc
- Loudly say “No I will not make out with you”
- Introduce her as “This a Julie,... and can you believe she’s never had sex?”
- I bet you’re one of those girls who spends 25 hours in a day of her iPhone
- You know, you're cool, but you're in my friend zone.
- Oh, you couldn't even handle me, you're totally the missionary style, like lights out, sex only on your birthday girl

3 | VERBAL

- Ask this if she tells you to do something. “Ok, only if you can answer this question correctly- which sentence is correct, “The yolk of the egg ***is*** white,” or “The yolk of the egg ***are*** white.” When she answers explain that the yolk of the egg is yellow. make her do something for you as revenge. (Builds compliance)

- If a girl tries to shit test or tease you, just look at her unimpressed and say, “weak.”

- Observe something negative and point it out, i.e. “You kind of mumble a lot.”

- You know what, you're blond/brunette (whichever she is basically) so I'll speak really slowly

4 | TAKEAWAY

We call it takeaway because you're taking away part of your validation from her, letting her know that she can't get too fresh around you.

- Tell her to get out of your "bubble" (personal space).
- Say she seems like a good girl and you don't want to corrupt her. (future pacing)
- Oh you have a great smile. It's the best smile I saw all night. Oh wait a minute, that girl over there actually has a better smile than you (as you look at that girl and point her out)

TAKEAWAY

When you run into an "old friend"

- I'll just talk to you for a little bit until some blondes actually show up.

If she's too innocent-

- You know what, you're like honestly too young for me. Women are crazy until they're 25.

5 | DISMISS

Not playing around here. She fucked up or irritated you and you let her know.

- Cancel a plan you made. Something as simple as replying "Something important came up, i'll have to cancel"

- [After she says she likes something, say that you don’t, with a brief explanation, preferably hitting her value) "I don't respect people who do x. The question is, are you one of those?

- Where is your off button? (Homage Hank Moody)(when she keeps on going lmao)

DISMISS

- Say, “I bet you can't dance” (or whatever activity is going on).

- ”Are you like a typical Vegas party girl?"

If she says yes: "Oh god, another one of you?"

If she says no: "Oh, so you're just kind of like a nerd, right?"

- You’re not going to talk to me for an hour now about [crossfit, veganism, or some other hobby she has]

(This Asserts your Dominant Frame in the interaction) Along with it, you don't

6 | UPPER HAND

This is where you make her jump through a hoop to give her what she asks for.

- She asks you to go to XYZ place, but you reply with “First, we’re going to ABC place”

- If she asks you to buy a drink,

you reply simply, “You get this round and I’ll get the next”

Or “I don’t buy random girls drinks. tell me about your story and I’ll take it from there”

- Cut her off when she’s speaking

- Take a sip of her drink without asking

- If she says something boring say "Amazing" and change the topic

7 | SEXUAL

Hats down my favorite because it gets her really turned on. I use these at house parties and clubs- nighttime environment basically.

- “I don’t even want to know what dirty thoughts are going through your mind right now”
- “It should be a crime to put clothes on your body”
- “Gosh, stop undressing me with your eyes”
- After your first kiss, Squeeze her ass tightly and say “You’ve been waiting for this all night, haven’t you”
- “Stop fucking me with your eyes”

ACHIEVEMENT UNLOCKED: THE BR KING

Now that you have 101 ways to break rapport in any situation, you must follow it up with QUALIFICATION.

Breaking Rapport is the attraction spark, and qualification is the attraction WILDFIRE.

It is the BEST WAY to get her investment.

Take the example of Tom Cruise. When he meets a new person, do you think he talks about how many movies he's did, how many fighter aircrafts he's flown?

No.

He talks about the guy/girl sitting across him.

He's interested in YOU.

WE'RE NOT DONE YET ;-)

People of high-value don't try to impress people.

Instead, they use these qualifying questions to get others to PROVE themselves to them.

And if you seriously think about it, OF COURSE you should qualify.

Let's say you want a religious girl who believes in god.

You should say "Every girl I know believes in god, and I really respect that in girls. What's your relationship with god like?"

To not do that is to sell yourself short and settle for someone who's not even your type.

PERSPECTIVE FOR QUALIFYING QUESTIONS

Remember, the point isn't to MEMORIZE these.

The point is to give you IDEAS and lay a strong foundation so you can create your own.

Because the qualifiers you use must actually have meaning to you.

Consider this the framework.

Also, you can use these qualifiers just the same with any Man you want to network with,
strike a business deal with,
especially one who's higher value than you.
Flip the fucking script.

I'll use the word "them" and it can just as easily be replaced with him or her because it works on both genders.

THE 4 TYPES OF QUALIFIERS

1) STATEMENTS

2) SMALL HOOPS

3) MEDIUM HOOPS

4) LARGE HOOPS

I | STATEMENTS

This is sort of FRAMING them as how you want them to be.

“Hey, you seem like an adventurous girl. I wanted your opinion on this really adventurous thing you’re gonna do”

This sets the tone for the interaction and gives them an image to “live up to”

These are great to use in the opening few lines because they require low compliance to agree with.

Do you notice how these are also great ways to “pull her in” after a breaking rapport move? Cocky Love.

See the next page for examples-

STATEMENTS

- You’re adorable.
- You seem to have big ambitions.
- You seem like the type of girl that likes to live in the moment.
- I can tell you’re someone who’s very positive.
- It’s great to finally meet a girl who’s humble and not stuck up.
- It’s great how you don’t take yourself too seriously
- You have this really primal energy about you.

STATEMENTS

- You’re the type of girl that always keeps the party going.
- I really respect the fact that you trust your own decisions. Most girls have to rely on her friends.
- I like how down to earth you are.
- You really know how to keep a conversation going. It’s so easy to talk to you.

II | SMALL HOOPS

Think of Hoops are those Circles of Fire that Lions have to jump through at the circus to get the meat as a reward.

No jump = no reward.

A small qualification hoop is a question that only requires a yes/no answer. It's to test the waters.

Example- "Do you party?" Notice how these are short, direct, to the point. You're not asking her if she "likes to" party, you're simply giving her a choice.

If she gives a simple "yes/no" answer, you haven't teased (breaking rapport) her enough because a girl who's invested will NEVER give yes/no answers.

SMALL HOOPS

But if she starts saying

"I mean I often party but I like to attend house parties where you can sit and actually talk with the other person"

Then you know she's invested and you're on the right path.

Other examples-

- "Do you cook?"
- "What's your go-to hobby?"
- "Do you consider yourself an open-minded girl?"
- "Do you rate yourself as a good kisser?"

III | MEDIUM HOOPS

This sort of piggybacks from the small ones, and you want a more than yes/no, a detailed response.

Often you can skip from Statements to Medium hoops directly, if she is responding well to your breaking rapport statements.

Simply add a “What” or “How” to turn it into a medium hoop.

- “How do you like to party? Are you the clubbing type or the house party type?”

or, you can continue her response to the previous question-

- “What is it about house parties that you love the most?”

MEDIUM HOOPS

Some more medium hoops for you-

- What do you value most in a person?
- If you could one anything in the world, what would you want to be?
- How good/bad of kisser are you?
- What do you enjoy cooking the most?
- What's the most charming thing about a guy?
- What's the most interesting thing you can done all week? Apart from having this conversation with me, of course (smirk)
- When was the last time you actually did something you really enjoyed?

IV | LARGE HOOPS

These are close to charismatic questions but more with the intent of justifying themselves to you.

The word “Why” is what turns a medium hoop into a large one.

A good flirt line I like to use is

- “Why do you like me so much right now?”
- “If you could pack your bags tomorrow and move anywhere for 6 months, where would it be and why?”
- What’s your favorite spot on your body to be kissed on?

LARGE HOOPS

- What's one date idea nobody uses?
- What are your thoughts on soul mates?
- There are many beautiful women in here, what sets you apart? (Do this one while holding her hand so she knows you appreciate her but you still aren't completely sold yet)
- What's a quality of yours that you wish people appreciated more?
- What do you think of girls who automatically assume every guy who speaks to them is hitting on them?
- At what moment/ How do you know you're in love?

"HOLY SHIT". I KNOW :-)

If breaking rapport is the spark of attraction, then qualifying is the wildfire.

What you read is so amazing, that I myself go through it often. Revision. Practice. 10,000 hours.

These two principles will help you master push and pull, better than 99.99% men on the face of the planet ever do.

Watch as her eyes gleam and pupils dilate, thinking "Wow, i've never felt this way before. How does he know so much?"

Remember to act nonchalant. Women don't want perfect guys, they want *almost* perfect men who have a major flaw that they're not afraid of displaying.

Looking forward to hearing your feedback of this latest addition!

BEFORE WE BEGIN:

The following pages contain mistakes that WE ALL have made. Back when I was a simp, I made these every fucking day. So don't kick yourself if you catch yourself making them.

You might think you need to be "perfect" on text. But remember that it's more about whom YOU WANT TO BE.

How will the Man you want to be like talk via text?

Simply not making these mistakes will put you in the top 5% of Men

1 | ROBOTIC Gaming

This happens when you become too stuck on "openers" and "lines" and the usual PUA jargon.

Listen man, lines are great, but you need to have a personality of yours in order to get laid frequently.

Never become a robot- girls can sense when you're vomiting lines off a program or book.

The solution? Know the lines- and INTERNALIZE them.

Become the character and you will never have to remember the lines.

You live it, and your personality just spits beautiful "game"

ROBOTIC Gaming

Invest in your life, and improve it's quality.

Go workout, friendzone girls- yes, you don't fuck every girl in your life.

Some girls are better as friends because they can give you advice and connect you with other high status guys and girls.

There is no substitute for a Life Setup. Game is a supplement of your Life.

2 | Destination F*CKED

This one irritates a lot of girls-especially if they already are attracted to you- because it is the most common mistake guys make.

It happens when guys lack purpose and steer the conversation nowhere, aka destination fucked.

Stop beating around the bush.

After building a little bit of rapport, start the push and pull, while leading the conversation towards a date, or her coming over.

Imagine you go down on her and stay there, licking and fingering her forever and ever. You both know you want to fuck, but you're taking forever to lead it there.

Destination F*CKED

That's exactly what happens when guys start to take the "friend" route on dating apps.

Even if you're on Instagram, the purpose has to be clear.

NEVER BECOME HER TEXT BUDDY.

You will end up just being an emotional tampon to her.

It's worse than the friendzone.

3 | Not Calibrating to the Vibe

This is fairly common as well when a guy is unable to pick up on the cues that a girl gives him.

She will be horny and looking for a good fuck, but the guy won't get it.

The key is to pay attention to her responses. If she is

- replying quickly

- giving you her attention easily

- maintaining the sexual tension

- indicating that she feels lonely and "could use some cuddles" or something along those lines

Not Calibrating to the Vibe

-then you don't have to set up a date.

Invite her over or suggest that you guys meet up THAT Night.

It's important to keep it that night itself, because she is horny.

She might or might not be horny tomorrow, but if you delay the process, and kill her turn on, she will definitely hit up the next guy.

4 | Supplicating & Submitting

This occurs when the conversation starts to become girl to girlfriend, instead of MAN TO WOMAN.

Listen, man.

That Masculine-Feminine polarity has to be there.

This usually occurs when you decide to play it safe, and act very nice in an attempt to get the girl to like you.

stop it.

Women are attracted to men who are not afraid to say or do what they want.

Supplicating & Submitting

They want to experience your balls in the conversation.

Don't be an asshole, but let her know that you can be one if she doesn't behave.

Be direct and honest, in a calibrated way.

Carrot and Stick approach works. Don't be afraid of tension, and Don't be way too excited about everything she says.

or she will make you her emotional bitch.

5 | Overinvesting

This is what intermediates do, and fuck up.

They have solid game, but they go too deep with the flow, and forget about the fact that women always notice.

They fall off and become a simp- giving her all your attention.

Don't be overly expressive in words, it will be better long term.

Although this is not as damaging as the others, in the long term it will be.

You want to hold your attention and validation enough to make her chase and earn it.

Overinvesting

One of my favorite analogies that I like to use a lot is :

She is a dog, and your validation and attention are the treats.

You give her a bite, then take it away.

She will do everything she can to get another bite at it.

6 | Meaningless Number Close

Guys will often get the number and feel like they just came on the girl's face. They stop pushing-pulling and go home like they won the battle.

Bro, Get this misconception out of your brain that you need her number to fuck her.

I've fucked girls through dating apps, and I don't even remember their name, and definitely didn't ask for their number.

The number is never the goal.

The goal is to see her in person.

If you met her in real life and need to catch up again? Exchange IG's. It's asking less from her and after you display your charm over text, she'll happily give you her number anyway.

Meaningless Number Close

Needless to say, "number closing" is a good thing ONLY if there is a purpose behind asking it- which is a means to the end.

You should get her to agree to the "idea" of hanging out with you before asking for the number. Otherwise it will seem weird.

What she thinks:

"Like we guys haven't even discussed meeting again, and this guy is already asking for my number? That's creepy"

Understand.

7 | Simping for Women

This is very similar to #6. Both are creepy, involve a lack of patience and social calibration.

This happens when you try to be needy and meet up with the girl very soon after you've just started texting.

It's especially prominent when the girl tells you that she's busy and you tell her that you're busy too, but you can ditch your work to meet up with her.

Listen, that is the worst thing you can do. You are conveying that your work doesn't matter, and that you are willing to forget it, for her. For a person you haven't even met yet.

Simping for Women

It shows extreme un-calibration and that you're pedestalizing women.

It also shows that you lack options- she is a big deal in your life- an opportunity that can't be missed.

Don't.

It's better to postpone the meeting to later that week and arrange the logistics of it.

It's only acceptable when you're leaving the city the next day, and you tell her that.

8 | Avoid Bad Needy Texts

Women hate nothing more than needy guys.

Double, triple texting show this. If she doesn't reply right away, she's probably busy.

If she doesn't reply at all, she's not worth your time anyway. Go work on yourself, and in 6 months' time, you will be spending time with even hotter girls.

Don't release your anger on her by being emotional.

This is a cuck trait, and it spoils your chances of ever sleeping with her again- we're talking 6-12 months from now.

Avoid Bad Needy Texts

If she leaves you on read, don't try to salvage it. Ignore her, and when you become an even bigger badass, you can text her and she'll be more receptive to it.

It's all about success long-term.

If you really want her, then you've already lost her.

By being needy, you are only showing her that she's your only option and that you don't have a life.

FINAL THOUGHTS

So now you are aware of all the mistakes you might be making.

I want you to go over your past 3-6 months' chat history with girls, and spot the mistakes you are making, write them down on a piece of paper, and next to it, write what you SHOULD HAVE instead replied with.

Remember, the lines don't matter as much as the intent, so correction should be made with the core behavior of a High Value Man.

If you don't know what to reply with, go over and internalize the other text game resources given with this course.

Lastly, remember that practice makes perfect. Don't expect from yourself unrealistic results like becoming a badass at text game right away. It takes practice and consistent revision to get it.

Like I said at the beginning, simply not making these mistakes will put you in the top 5% of Men.

INTRODUTION INTO FOUNDATIONAL APB

APPEARANCE | PERSONALITY | BEHAVIOR

You can have all of the top game in the world. However, if you don't fix your appearance, presentation, and behavior, the high will be short-lasting.

Rule of thumb: If you don't receive compliments on any of the areas we will talk about, you need to improve them.

Don't confuse this with being externally validated, NO.

This is simply about presenting yourself in the most seductive and irresistible way to women.

The good news is, after reading and APPLYING the below advice, that won't be a problem.

Read carefully. Read again. Apply daily

1 | NETWORKING & SOCIAL CIRCLE

You must present yourself as someone memorable and important.

Someone that goes to the premium and exclusive events and places, knows a lot of high-value people on first-name basis, is actively building his already badass circle, and has access to valuable resources.

Now, this may or may not be true already. The bottom line is, looking the part always helps make a great first impression, which you can build upon as you go forward.

The Highest Quality women always go for the Highest Value Men.

How to Build a Great Social Circle, you ask?

GO OUT.

PHYSICALLY as well as OUT OF YOUR FUCKING COMFORT ZONE.

What's the worst thing that will happen when you go out and talk to new people?

They might laugh you off. WHO THE FUCK CARES?

-You don't even know these people.
- You will never see them again in your life.
- Life remains the exact same even after (if) they laugh you off.

YOU HAVE NOTHING TO LOSE.

Just keep this thing in mind-

DON'T be a value leeching loser. Go up to the person and actually provide value. Whatever value you can. Start off with a compliment or something about them that you found interesting. They will be more than happy to hear about them. People love listening to good things about themselves

Here's the GOLD- As you move forward into the interaction, they will talk about something they do or some problem they're facing. If you're good at it, you tell them.

Even If you're not, after enough interactions you now know what people want. Learn that and help them. Give value first, and people will keep you around FOREVER.

There's your Social Circle class 101.

That in itself is worth the price of your investment into this course- IF YOU APPLY IT.

2 | STYLE

This is so essential yet overlooked by most guys.

What you wear MUST fit you. This does not mean that you can stay fat or skinny. Start working out- become FIT, so that your tailored clothes can do magic on you.

Here are the key points:

-It should be stylish and be as per your body type. Don't wear clothing that's too small, too loose, too bright, doesn't match, looks dirty and cheap.

- Some good resources to check if you're on the right track are- A, B, and C . Your female friends will guide you. Be very open with them about wanting some advice on style and especially cologne.

- I like to layer up when going to clubs, a bomber jacket that is opposite the color of my t-shirt, along with some distressed jeans.

Ex- Grey Jeans, White T-shirt, and Black Bomber Jacket.

Now, how do I make it better and stand out?

I accessorize. I wear a Pendant, that hangs around my neck-chest area (not that stomach- that's too long and looks gay)

Women dig that. Invest in some Pendants that appeal to your personality. Bracelets do well too, just don't overdo them.

Watches are great. It shows that you are a person with class. Don't wear the sporty ones. Buy a good analog watch that is simple and looks timeless (pun intended)

One key tip- your belt, watch, and shoes should be the same color.

3 | COLOGNE

Women hate very few things more than a guy that smells of sweat and filth. It's important to have a signature scent for dates.

Having a Signature scent starts with actually being clean and always applying some sort of scent after a shower and before going out.

Now, it is important to understand that not all colognes match everyone, so you might have to try out a few before you finally find your "go-to" cologne.

Ask the female employees at the store, they will be more than happy to help you. Bonus points if you can get your female friends to come with you. It will make the whole process much easier.

Apply them in a civilized manner. One of each side of your neck. One on the T-shirt or Layer you're wearing. And of course, on your wrist.

Pro Tip- Have a different scent for different occasions- your mind forms memories and patterns based on different scents. This will help you perform 10x better.

4 | GROOMING

- Look Clean. If you can grow a beard, keep a 7-10 day stubble. If you can't, keep yourself clean-shaven. Don't be the guy who tries to keep a beard but has patches all over.

- If you never receive compliments on your head hair or facial hair, change it up. Find a good stylist, and stick with him/her. Tip them well. They will love to help you. I've moved around a lot, and every single time I've invested the time and money to find the right stylist who knows what kind of hairstyle will make me look best.

This link will help you find a lot of new hairstyles that you can show your stylist, or choose yourself.

- As for pubic hair, it has to be either trimmed too short enough that it doesn't irritate her when she goes down on you to give head or shaved completely. Imagine her disgust when she gets excited to get a taste, only to find out that you don't even take out the time to groom your most important region.

WHAT IS THE FRIENDZONE DESTRUCTION BIBLE?

As the name suggests, these are 6 Techniques that Make ANY GIRL want to Sleep with you and FUCK you ALL NIGHT LONG- especially the ones you are stuck in the friendzone with.

These are tried and tested multiple times, and with regular practice, you will master these.

Over the next few pages, you will witness the sacred knowledge that has been proven to work over 1000s of girls, among me, my friends, and my coaching mastermind.

You know that time when you looked at the hot girl at the bar counter and thought to yourself-

"Man, We would produce pure radiant energy when we fuck. She is a deserving candidate to experience my dick.

At that moment, you will now able to use these techniques to fuck her, and she will be craving to have sex with you.

1 | Find Outrageous reasons to end the Friendship with her

This can be applied very quickly into the conversation. After some small talk, you can ask her something like-

"Blue or Black?" or "Artist A vs Artist B"

What you ask doesn't matter as much as what you do next-

Which is, no matter what she answers, you disagree with her.

And then say this golden phrase of flirtation.

"You know this means that we have to end the friendship right?"

And that's it just like that.

You have sexual tension.

She'll laugh or agree with you or say no or something like that.

Just hold the tension for a very brief second. little smirk a little pause, smile, and then say something like:

Find Outrageous reasons to end the Friendship with her

"Fine. We can give this one more shot. But we have to promise neither of us will ever bring up the Jay Z vs Kanye topic ever again."

She will say *"yeah"*, but you say- "*no no no... that's not enough. We need to Pinky swear on this."*

Do the pinky swear thing- the idea is to make it **ridiculous.** Both of you know that it's just play, and it's all **HER FAULT** because she has a bad taste in music or whatever you asked.

This is an instant way to create sexual tension with anyone- just ask them a question about something fun, like better singer, better album, city, etc.

it doesn't matter that whatever she says, disagree with her and be like, *"you know, this means we can't be friends anymore."*

And then she'll fight it and you say the whole thing.

So now you get the **escalation,** you're building the **sexual tension and comfort,** you have the flirting, you have the vibe, you have EVERYTHING.

super powerful.

2 | For Fucks Sake, get a Wing-girl

All Men who get a lot of pussy have a strong wing girl game, myself included.

It's effortless. The easiest pussy you will ever get.

Rule of thumb: let your wing girl do the majority of the work.

The reason being- girls just have it way easier influencing other girls in an attraction or dating setting. So even if you're not on the hunt for a threesome yet, you can still absolutely use this to your advantage by deploying a wing girl out there.

Here's how it goes:

Get a female friend of yours to befriend a girl of your choice in the venue you're in, and after a few minutes of some small talk, do this-

have her point you out from across the room.

Now it is important for you to, at this moment, be talking to preferably a girl, or a group of girls. DON'T look at your friend or the future fuckbuddy.

This shows preselection, and she will feel a little bit of envy and attraction when she realizes that other girls want you, and you are the center of their attention.

When she points you out to this girl, she should say something like:

"you see that guy over there?, he's one of the best people I know. His heart is huge."

"But understand this; he's bad news when it comes to girls- they all just love him. They fall for him because I've heard some things about him in bed, ***but it doesn't matter.*** *I'm just gonna introduce you in a second, but just be careful around him."*

What you just read is verbal magic. Your wing girl has primed the target girl to have a perception of you, as a womanizer, and she has seen you talking to girls, which confirms it for her.

The key part? Your wing told her to *"be careful"* around you because *"I've heard some things about him* ***IN BED.***"

She's already wet and imagining you inside her.

Then have her introduce you.

You don't have to do much. Simple.

3 | "I'm not gonna kiss/sleep with you"

Abilities over routines. Always.

You will realize why seducing women using your natural inherent abilities will always be better than general routines or can game this little move here.

This move, once understood, is a timeless classic, but so rarely used. This works on all kinds of girls, especially the conservative ones or those who are hesitant to sleep with a guy they just met.

There was this girl that I was talking to in the dark corner of the bar. She was cute, great energy, a great vibe, the whole thing. But there was a catch. She had some rules about guys who she just met. One of which, was "I don't sleep with guys I just met". I gracefully accepted the CHALLENGE.

And here's what I did instead and what you'll want to do:

"I'm not gonna sleep with you"

While laughing with her, I slowly moved my face closer, like I was going to kiss her.

She started laughing like "No, I said I don't."

And as I keep smirking, I flip the script on HER.

Moving closer, I say:

"I'm not going to kiss you."

"I'm not going to kiss you" as I **shake my head** a little bit, "and I'm not going to kiss you" as I slowly move closer and closer to her face, brushing a strand of hair behind her ear.

And now our lips are just two inches apart.

I pause (smirking), I say "You better not kiss me. You know I've rules about this sort of thing. "

And I just hold it there. Doing something like this will create massive amounts of sexual attention.

"I'm not gonna sleep with you"

At this point, there is so much Sexual Tension, that she lunges at me for the kiss.

I push her away after a couple of seconds and I said "hey, I have rules."

you can use this with any girl you can clearly tell is into you, but trying to fight her carnal urges.

Okay, so all you're gonna do is lean in slowly, say things like "I'm not gonna kiss you, I'm not gonna kiss you" and you just hold it there a couple of inches apart.

and just holding you there that close, yet it's so far at the same time, that it will drive her wild with sexual attention in the kind of the way we like where she wants it way more than we do.

The difference? we can hold and control the sexual tension and we can be patient and relaxed, and she just can't. she is tempted for your dick.

4 | Teach her about her body

Women become extremely wet when they meet a guy who knows about the female body and its intricacies.

This is because 99% of Men don't know the first thing about her private parts. They barely find their way around her vagina when fingering her.

Become knowledgeable about this. Luckily for you, you invested in this course.

KEY POINT: Do this from a place of coolness.

Never, never ever teach a woman from a place of trying to show you're above her or trying to prove yourself because it will severely backfire and put you into the douche-zone.

Teach her about her body

Teach her about the Deep Spot.

This is an area of the vagina, that when done correctly, will have her moaning endlessly in pleasure.

You can bring it up in the conversation like- *"Most Women don't even know their own sex parts, besides their clit. Do you really think the best parts are on the outside?*

That'd be way too easy. Have you ever heard about the deep spot?"

Let her share her opinion. Remember, it's a mature discussion, so be casual, cool, and relaxed about it. She is turned on just by your sheer non-neediness.

She will probably say she hasn't heard much about it, so you can explain it further-

Teach her about her body

"It's this area on the front wall of the vagina, from like the top of the G-Spot all the way back as far as my middle finger reaches. And when a guy is rubbing it the right way, with the right rhythm, in a smooth, controlled motion, it feels absolutely amazing for the girl.

But seriously, you need to stop making me think about these things. It's highly inappropriate."

That tease, in the end, is GOLD, because otherwise, it sounds preachy.

When you blame the sexual talk on her, you impose your frame, where she becomes the aggressor, making you talk about these things, and trying to fuck you.

By laughing, she submits to that frame- i.e,

"I'm trying to take the conversation into that direction --> I must be sexually attracted to him"

5 | You don't even wanna know

This one takes balls to do, but it rewards you handsomely as well.

It's especially strong when you use it on a girl you just met that night and/or you just had your first kiss a few minutes ago (not a requirement)

You will use this as a supplement to the other gold that's laid out in Seduction Bible, and after you've escalated to the point where she's being receptive to your advances and giving your cues of interest.

Here's what you do:

Whisper slowly in her ear-

" *You don't even wanna know what I'm imagining about doing to you right now*"

give her a good, deep “tension glance”, mixed with a sly smirk.

She’ll get really turned on and ask you, *“What? What do you wanna do to me? Tell me..”*

You can tell her that you will sweep her off her feet, rip off her panties and bend her over as you shove your dick inside her and make her moan in pleasure all night long.

or don't. It's up to you, really.

You have to be good in your sensual language and wordplay, or else, just let her imagine- her imagination is FAR greater and sexual than anything that we men can conjure.

You can also just show her. Move her somewhere private, press her against a wall, as you take her hands and pin them above her head using your hand, while you kiss her senses out.

You don't even wanna know

6 | It was Fate

"This one is on the edge of morality."

said by - Fat people, married ones, and simps with no game

Listen. Game is Warfare.

Women use their tactics. We use ours.

Here's how this goes.

The night you meet her- a club, cafe, or a social event, plant some seeds about how the two of you meeting and connecting deeply was fate.

It was just "meant to be"

The Forces of the Universe are at play.

Don't overdo it, however, because it will seem planned.

Here's what you say:

It was Fate

It's so weird, I wasn't going to come to *(insert venue)* tonight. I had even made a reservation at the other place but I canceled last moment and came here because I don't know, I just felt like it"

"You know, it's crazy, I was going to stay in tonight and catch up on work and upcoming projects, but for some reason, I felt like I shouldn't"

Say this, then look into the distance.

and let me tell you, she will be staring at you with her pupils dilated, like she is head over heels into you.

Don't say this multiple times, just once, but in a Slow, Calm, and genuine tone.

FINAL THOUGHTS

These techniques will make a key part of your seduction arsenal. Use them carefully, and selectively, so as to not make them obvious.

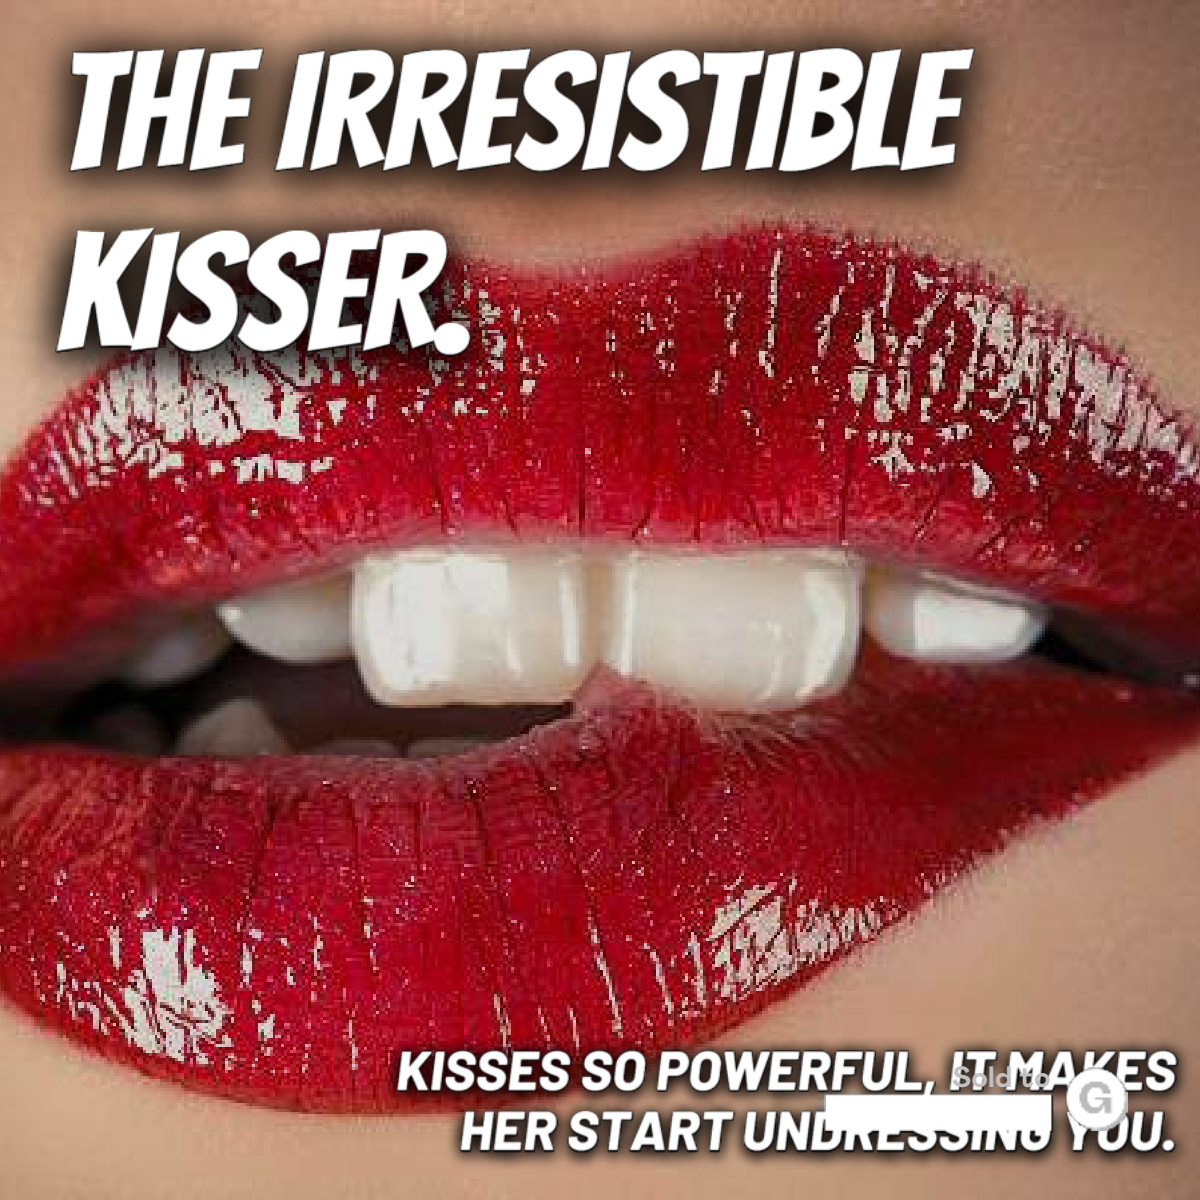
This is fight club shit. You don't talk about these, otherwise, women will become resistant to it. I'm sharing it with you because you TOOK the step towards investing in yourself.

And if there's one thing i respect in people, It's putting money with your mouth is. I respect Action Takers, who stay consistent towards their goal.

Get a Wing girl- A good friend who you're tight with, make her your "bro", and she will enjoy introducing to and setting you up with girls. You don't bang every girl, you give her a place in your life- social events, fuckbuddy, bro, and so on.

When you understand the importance of keeping different people for different occasions, you will go one step closer to achieving your dream life.

Now go out there, and get it. I give you my blessings, brother.



THE IRRESISTIBLE KISSER.
KISSES SO POWERFUL, IT MAKES HER START UNDRESSING YOU.

WHY LEARN THIS?

Why learn to become an “Irresistible Kisser”?

There are a couple of reasons:

<u>The FIRST Reason:</u>

Kissing is the MAJOR breaking point after which everything else becomes EASIER. It gives you access to her RAW BODY. There is intimate touch, FINALLY.

I’m sure there have been times when you knew you HAD her, but you just DIDN’T know how to go in for the kiss.

“What if she says no? All of my effort until this point will go in vain”

And that’s why they never are able to BREAK FURTHER and sleep with her.

WHY LEARN THIS?

The SECOND & Most Important Reason:

As SOON as you kiss a girl,

she can INSTANTLY tell how good or bad you will be in bed.

The way a man kisses tells her everything about your experience, dominance, and sexual LEVEL.

Most guys even when they DO kiss?

Have such a WRONG Way of KISSING, that they NEVER GET FURTHER.

Even when you DO KISS? You must know how to escalate it smoothly to a place where the two of you are completely naked.

Remember, you're not high-school kids who only want kissing. SEX is the most natural destination.

With that said, LET'S FUCKING GOOO!

1 | KEY MINDSET: PROJECTING STRONG SEXUAL ENERGY

Women actually don't see making out as a big deal.

It's what they crave.

And more importantly, it's what they expect from a man who's high-value.

"I'm pretty, he's confident and funny, of course he wants to kiss me. Why isn't he?"

The FIRST STEP to making out with a girl,

and to become the IRRESISTIBLE kisser is to take off "kiss" from that pedestal.

Sure you want it to be magical but don't be ghey it's a woman's thing for it to be magical.

Lmao.

What happens with every guy is that you get too much into your head about the whole thing and you give off that awkward vibe.

And she can feel it.

Your mindset should ALWAYS BE-

"I'm a sexual guy, I like women and if I vibe with them, of course we kiss. Its obvious. It's the most NATURAL thing."

Repeat that 10 times.

Write down as a reminder if you need to.

ELEMENT #1 | YOUR BEHAVIOR

The irresistible kiss is applicable on girls you meet on a night-out, in a social setting, or at bars.

Having alcohol around is ideal.

Not because you both are drinking (that helps),

but because OTHER PEOPLE ARE DRINKING.

And that makes it a very non-judgmental environment.

A safe space for the girl to be in touch with her feminine emotions.

The key is this- to get physical STRAIGHT OFF.

You meet her?

Introduce yourself, extend your hand, bring her in for a spin, and compliment her on her nails. (Yes women love this)

Now, this will feel awkward at first.

But that's why you need to ACTIVATE your alter ego until it becomes who you are.

Refer the Q&A bible for the sauce on alter ego.

ELEMENT #2| ANIMAL PROXIMITY

The BEST way to create sexual tension (that energy which makes her wet)

is to GET PHYSICALLY CLOSE to her.

Rubirosa Porfirio, probably the greatest seducer and playboy in modern history, did this PERFECTLY.

He came in close... close enough for the woman to feel the tension....

but never close enough to kiss them.

She could feel his presence, and she got swept away with his masculine dominance.

ELEMENT #3 | HYPNOTIC EYE CONTACT

Eyes are the window to your soul.

Platitude but true.

You know the whole “gaze into her eyes”,

but where the fuck in the eyes? Which eye?

What should you be imagining?

NOBODY TALKS ABOUT THIS.

Here is EXACTLY what constitutes a HYPNOTIC eye contact:

HYPNOTIC EYE CONTACT

ELEMENT #3

Look at: her Left eye

Reason: (Left eye is connected to the creative, emotional part of her brain and it activates it = she gets out of her logical mind and into her feminine emotions)

Where in the left eye-

Look at the BLACK of her eye. Gaze deeply into her pupil (and observe it EXPAND.

which if you didn't know, is a sign that her eyes like what they see)

What you should imagine= Imagine her on her knees, submissively looking up, waiting for you to FUCK HER.

ELEMENT #3 | HYPNOTIC EYE CONTACT

Do this, and she will literally fall into a state of trance where you can do WHATEVER you want.

Now, if her pupils INCREASE in size when you do that?

That means she is getting aroused, and you move onto the 5th element.

If the pupils do not increase, refer to #4- “The Triangle gaze”

ELEMENT #4 THE TRIANGLE GAZE

This is the classic technique which makes every girl expect an incoming kiss.

It's really simple:

Look into her LEFT eye, look into her right eye, and then look A BIT LONGER at her lips.

Repeat on and on as you flirt with her.

By now, she is AROUSED.

She WANTS the kiss.

But... you're not done yet.

You're not the average Joe who jumps on his chance. You are a SEDUCTION BIBLE BADASS. You smirk inside and continue...

ELEMENT #5 | THE "MOVE IN"

Now, you move your face closer to hers until your lips almost touch.

But... you leave 10% of the space for her to move in.

If she moves in? You can kiss her.

If she doesn't?

Here's the GOLD that you paid your money for-

While holding eye contact, tell her-

"You'll never see me again"

And then move in for the kiss.

ELEMENT #5 | THE "MOVE IN"

Why this works so BRILLIANTLY is because women HATE when people leave their life.

It almost makes her long for it more.

The feeling of your leaving gets her completely in the moment and she can't help but desire the kiss.

I've personally used this tons of times and it has NEVER failed. (after using all the above steps obviously)

It shatters her resistance and overrides her programming.

SECTION 2: THE KISS KLOSERS

KK #1	THE EYES WIDE SHUT KISS
KK #2	THE SLY KISS OF POISON
KK #3	THE PLAYFUL KISS
KK #4	THE CUPID ARROW
KK #5	BONUS #1 [REDACTED]
KK #6	BONUS #2 [REDACTED]

KK #1 THE EYES WIDE SHUT KISS

This requires a “schoolboy” vibe from your side. If you have a childish spirit inside you and women know you like being playful, then it is BEST to use this.

And it’s literally very simple but you have to be smiling, laughing and being very casual about it.

When it’s just the two of you siting beside each other,

Tell her- “Close your eyes”

If she resists, keep that childish spirit vibe going and say

“Trust me, I won’t kill you I promise”

KK #1 THE EYES WIDE SHUT KISS

When she closes her eyes, wait at first because she will open them.

If she opens them, tell her

”that’s it, im breaking up with you”

and act to leave (she will say- “ok ok I promise ill keep them closed this time”

When she closes them the second time?

KISS HER, SLOWLY, SWEETLY.

KK #2 THE SLY KISS OF POISON

Women love perfumes.

And they will usually apply them on either side of her neck.

When you're out with her, randomly say-

"which perfume is that, I love it!"

She'll go into some story, blah blah.

Then tell her, "Lemme smell it hold on"

And go for the left side of her NECK, Just between her collarbone and earlobe.

Smell it once, leave a slight cold breath to tingle her sensations.

KK #2 THE SLY KISS OF POISON

After 3-4 seconds, return back and compliment her on it.

Do that the second time later that night and this time,

start kissing her neck, give a slight bite and if she responds well,

look her in the eye and kiss her lips.

Kissing her neck first makes kissing her 10 times easier.

Try this, you're welcome.

KK #3 THE PLAYFUL KISS

The questions game is great if you're on a first date or in a less sexually charged environment like a cafe or at a house party in a park.

You already know about the questions game.

It's in the Holy Sextuple guide (but for a quick recap it's basically both of you ask each other a question. It can't be the same and you have to be 100% honest.)

The game key here is to start increasing the sexual intensity of each question as you on.

Q1- How many guys have you dated?
Q4- Do you kiss on the first date?
Q6- What's your favorite sexual position?
Q7- What's your wildest sexual fantasy

etc etc etc.

KK #3

THE PLAYFUL KISS

Start fairly innocent and turn the heat up gradually.

As you do this, she gets hornier and hornier.

Finally, when you can see her giving you the eyes, ask-

“Do you want to kiss me”

And REGARDLESS of what she says, lean in for the kiss (remember, 90% of the way in)

In case she says a CLEAR NO?

Tease her saying- “I didn’t say you could, nerd”

The questions game is EXCELLENT for screening purposes and you can literally play it ANYWHERE.

KK #4 THE CUPID ARROW

This is advanced.

But, it's incredibly powerful when you come from the right frame and REALLY feel it.

The idea is to hit straight at her heart without even having to kiss her.

You hug the girl, and you literally stay in that tight hug position- as you whisper sweet, sexual things in her ear.

"You don't even wanna know what I'm thinking about doing to you right now"

It's like cuddling, but standing up.

And she feels super connected to you because nobody has ever hugged her like that before.

BONUS #1: THE SEXUAL STEROID

If you REALLY want to send her over the edge and FALL IN LOVE with you right there and then?

Do this after the ELEMENT “Move Closer”

“I want to kiss you right now... but I won’t”

Speaks to a woman’s strongest sexual organ-

HER BRAIN.

Plant seeds of IMAGINATION in her head.

Then carry out the actual act when she’s LEAST EXPECTING IT.

BONUS #1: THE SEXUAL STEROID

Example:

you're alone with her, and you tell her "I want to kiss you right now"

and then look away into the distance.

Then, when you're in the ELEVATOR,

you pull in and kiss her deeply.

She's literally going to be swept off her feet.

Why?

Because she knew it was coming, but she didn't know WHEN.

Seduction requires ANTICIPATION.

BONUS #2 : THE "IT'S OKAY" METHOD

After she gives the triangle gaze back , you say ""It's okay"

Her: "What's okay"

"You can kiss me, I want to kiss you too"

And that is REALLY it.

Why this works so fucking well is because you give her PERMISSION to kiss you.

You IMPLY that she wants to kiss you.

You also DEMONSTRATE strong frame control, because even though you want to kiss her too?

YOU DON'T.

SECTION 3 | HOW TO KISS

Kissing is an ART.

There are COUNTLESS ways of kissing, and 95% of them are WEAK.

The goal is to TURN HER ON to a point where her juices start flowing rapidly to her vagina and she starts UNDRESSING YOU.

I won't bore you with nerdy details about how to kiss.

I'll tell you in SIMPLE WORDS.

Start slow. Go for her upper or lower lip, whichever is SMALLER. I like going for the uppeer lip as it has more sensation than the lower.

Start kissing very slowly, every touch should be SOFT and caressing. You are gauging her comfort level and reactions.

SECTION 2: HOW TO KISS

Keep one hand on her chin and the other on the back of her head.

Then, start kissing faster. Increase the pace slowly, and gently start pulling her hair a bit.

Hold her hair from their roots, not from their ends.

You can keep the other hand on her chin or you can cup her ear.

At this point, she will start lightly moaning. This is GOOD. She is starting to get wet.

Increase the pace even more now, and start BITING as lips as you complete every kiss.

Bonus- Lightly start running your TONGUE along her lips, and whisper “You taste so good”.

She will smile and by now she’s probably started intiating the tongue (FRENCH) Kiss.

SECTION 2: HOW TO KISS

At this point you are ALREADY her BEST KISSER,

But you don't stop here. You're THE MAN.

When you start tongue kissing, DON'T ram your tongue into her mouth. Start slow. Play with her tongue lightly as you keep kissing.

Then suddenly RAM your tongue in her and absolutely CURL her tongue. Start rotating it in her mouth, like two fishes moving in circles to mate.

This is going to be INCREDIBLY PLEASURABLE for her. At this point you can start kissing her neck, biting her ear, and lightly blowing cool air on her neck after you kiss it.

That is your kissing masterclass. You won't see this simple, direct, and practical explanation to kissing ANYWHERE. This is EXACTLY what I do and it gets her going EVERY. SINGLE. TIME.

QUALIFYING AND DISQUALIFYING

This is when you stand out from ALL the sea of simps that orbit around her.

None of them have the balls to tell her “No, you can’t have the treat”

When done correctly, she will initiate touch with you, flirt and invest more into the interaction.

Before I give you the exact lines, a word of caution:

Too much of breaking rapport breaks the elastic band. You have to balance these out with comfort building questions which I will lay out as well.

Remember that the underlying tonality should always be that of fun, playfulness, and self amusement. Women are DRAWN to that energy.

FINAL THOUGHTS :-)

“I’ve been here before. It’s my natural state.”

The key is what happens after you kiss.

You must act like nothing happened and keep on continuing the conversation.

You’re not high-school kids, the goal is to sleep with her.

Keep talking and getting more and more physical, start some foreplay (like rubbing her thighs)

Of course, The Pleasure Bible, my program on mastering sex will literally take over from here for you.

It’s usually sold out (I open limited spots), but you can check it out here if you want- gum.co/orgasmmastery

Anyway, I’m MR, this was the irresistible kiss mastery,AND YOU,

ARE A FUCKING BADASS.

SHIT TESTS
ANNIHILATOR

BEFORE WE BEGIN:

What is the purpose of a shit test and why should you even care about it?

A woman shit tests a man only when she is attracted to him.

Observing your reaction to the shit test helps her assess his sexual market value (SMV) relative to hers.

Men can pass shit tests if they identify them quickly and respond to them appropriately.

However, most men are unable to even recognize a shit test until it is too late.

The average man must learn to identify and deal with shit tests quickly because failing a series of shit tests can dramatically lower his perceived SMV in the eyes of the woman who shit tested him.

If the drop in his perceived SMV is low enough for her to think that her SMV is greater than his SMV, she will either unhappily settle for a man whom she thinks is not good enough for her or set her sights on other men with higher SMVs.

THE ESSENCE OF SHIT TESTS

I don't understand why guys hear a shit test and think it's a bad thing. If anything, if she isn't throwing shit tests at you, you should be concerned.

Because if she doesn't give a fuck about you, she won't even bother to test you. By giving a shit test, girls are showing interest and investment in you. When you pass it, she moves one step closer to sleeping with you.

She sees you as a potential sex partner. Hence, the shit-test.

There are 2 Kinds of Shit-Tests:

1. **Qualifying Shit Tests**
2. **Assurance Shit Tests**

QUALIFYING SHIT TESTS

These will usually happen early on in the interaction, and can often be perceived as rude and disqualifying to the average guy.

Some things they might say:

"Do you say that to every girl?"

"Thanks, but I have a boyfriend"

The key to passing them is to ASSUME that she's being fun and casual, and you have to be fun and casual about it too.

You can choose to agree and completely ignore it and change the topic.

For the *"Do you say that to every girl"*, you can reply with *"Yes, and it's your turn today. Are you ready to go home with me now?*smirk* "*

The point is, to treat it like a joke, and playing along, while also increasing the sexual vibe.

ASSURANCE SHIT TESTS

These come later on, usually sometime before the close. She realizes that she will actually go home with you, so she needs to make sure that you're not a serial killer.

"How do I know you're not doing this just to get in my pants?"

In most cases, you have to treat it as a genuine concern, switch off the playboy for a minute, and answer -

"*I genuinely find you interesting, otherwise why would I still be here?*"

and then change the topic.

Note the question in the end- it will make her brain think and come up with an answer- *"Yeah, he makes sense"*

It's important to treat both kinds of shit-tests differently.

ACTION STEP

Here are some shit tests. Your job is to classify them as Qualifying or Assurance, and then reply accordingly. I have given one reply, your task is to make 2-3 more.

1) Also, here's how you should reply to- "*Thanks, but I have a boyfriend":*

- Wish her well, and walk away.
OR
- Great, will he cook for us in the morning?
OR
- Disqualify her, reject her, and then seduce the next girl right in front of her eyes.

Timeless.

2) "Is *that your pickup line*?"
TYPE: QUALIFYING

Yes, and I practice it every morning before breakfast.

3)"*I think I should find my friends first"* (in the club)
TYPE: Assurance

- I think I saw them at the corner (leading her to the exit)
-I saw your friend exiting the club a short while ago. I think its better if you text her.

ACTION STEP

4) "*You're being creepy.*"

TYPE: QUALIFYING

A- Smirk at her, turn your back, and hit on one of her attractive friends or another hot girl at the bar who has been giving you the eyes.

Soon, she will jump into the cab to go back to your place.

5) "*You know, you're not the type of guy I normally go out with*"

TYPE: QUALIFYING & ASSURANCE

A- *"Do you always superficially compare people based on what they look like?"*

(Reframing it and Ridiculing her; essentially flipping the fvcking script on her)

Play around with this, write your own responses, and take action!

Enjoy this newfound power :)

WHY DO WOMEN SHIT-TEST YOU?

Why do women shit test you?

Simply put, Women shit test you because she gives a shit about you.

She tests you because you at least seem a little interesting to her, which puts you in the top 10% of guys by the virtue of her testing you.

Do you think she gives a fuck about most guys whom she comes across?

Fuck no!

She ignores or ghosts them. They did not cross her first layer of screening.

Shit tests can also be called congruence tests.

Why? Because she tests you to see if you are REALLY that masculine, alpha male you portray yourself to be.

She comes across a lot of fakers every day, and to ensure her safety and healthy offspring, she has to qualify to see if you will be able to protect and provide- hence the test to check if you are congruent with whom you say you are.

In fact, you should look forward to these tests. It is a fantastic opportunity to increase her sexual attraction for you.

Welcome them.

BEFORE WE BEGIN...

Before we move onto the actual tests, it is important for me to give you this important hack while dealing with shit tests.

Context, Body Language, and tonality are always more important than the actual words themselves. You can say the smoothest shit but if you just met her, have a beta body language and a "seeking rapport" tonality, you will have failed her test.

when in doubt, you can do any one or multiple ones from these-

hold your frame (Your reality and perspective are strongest), maintain eye contact, smirk, look away, change the topic.

BEFORE WE BEGIN...

And always remember, there is no “perfect line” for every girl.

Some girls will always hate them, some will love them, and some with be indifferent to them. How you say > what you say.

As you become better at game, you will reach a level where you will just know what to say, and you won't even care about her reaction to it.

YOU ARE THE PRIZE.

BONUS- FRAME MASTERY CRASH COURSE

What is Frame?

Frames are worldviews through which a person sees an event or a conversation.

Having a stronger frame means having a stronger perception of the worldview that the person is in. Women usually have a weaker frame in front of men, because they have been submitting to Men throughout history.

As a Man, your frame should be the strongest in your life. Learn to trust your instincts, judgments, and decisions.

BONUS- FRAME MASTERY CRASH COURSE

Example of this- You want to go to X Cafe, but the girl wants to go to Y cafe.

In this situation, you have to remind the girl of a time when she went with your decision and had a great time- this will change her mood and affirm her decision to trust you.

Additionally, you can pick her up, swing her around and move her.

This gets her out of her current state, whatever it might be.

FRAMES ARE EMOTIONAL.

Logic doesn't come into play.

Learn to read between the lines.

For example, if she asks you: " Is that your best Pickup line?"

Logically speaking, she is asking you if that is indeed, your best pickup line.

But on an emotional level, she is conveying that:

- She's higher value than you.
- You're trying hard.
- Guys often try to pick her up.
- She's the prize
- You're chasing her.

So how do you get out these implied things? YOU FLIP IT BACK ON HER.

Example: " Look, you're really cute – but I have a new year's resolution. Basically, I can only have sex with one new girl per month. Sorry, hope you understand!"

Get creative with this. The more ridiculous, sexual, and that frames her as the aggressor, the better. That's all you need to know about Frames, brother. Enjoy!

KEY CONCEPTS

#1) CHALLENGE

Remember to come across as playful when you say this. It shows that you're not looking for her approval, and are not scared to challenge her to rise to your level.

Ex- She says you're too old/too going for her

You reply- "too old or can't handle?"

#2) SELF DEPRECATION-

These should be used when you have a clear high value in that environment, and she knows it.

If you do, it shows insane confidence, self-validation, and security in your own skin. She knows you're not taking her seriously and she feels totally one-upped.

#3) AGREE AND EXAGGERATE:

This is a classic technique to ace her shit tests. What you do is you make her statement sound ridiculous to the extent where she knows that you're a veteran at the game.

Ex- She asks you if that's your pickup line

Your reply: "Yeah, and I practice it everyday first thing after waking up"

#4) DISAGREE AND EXAGGERATE:

Basically the opposite of the above, but works just as well.

She asks if that's your pickup line

Your reply: "No, actually you're the first girl I've ever spoken to"

#5) DOMINATING:

This works extremely well when you are jacked, handsome, and dressed perfectly for the occasion. She's obviously ready to sleep with you, and you can tell by the signs she's throwing your way.

For example, she says "Are you hitting on me?"

Your reply- "Yes, yes I am." with an assertive tone, intense eye contact and High-Value body language.

#6) FLIPPING IT BACK ON HER:

Here you get out of the accusation by instead reversing it on her.

example- "she says, Sorry, I have a boyfriend"

Your response- "Woah, easy tiger. I came over to tell you that you reminded me of my little sister"

#7) IGNORE:

This works especially well if you are in a social event because you can ignore her and instead talk to the other girls around there.

The example here is simple. She says something, you completely ignore and instead start gaming her female friend.

#8) MISINTERPRET:

This one is too fucking funny and you can effectively interpret it into anything. You shake her off her frame and now she has to qualify herself by explaining that she meant something else

For example- she says "do you say that to every girl?"

You reply- "Did you just say you work at McDonald's?"

#9) TREAT HER LIKE A 10 YEAR OLD

Here, you simply react the same way you would if a 10-year-old tried to act smart in front of you, you could effectively play dumb to go down to her level.

Example- She says: " Is that your pickup line?"

You- " What line?"

Now, let's begin with the REAL shit tests

Shit Test #1	"You seem like a player"
What she really means-	I find you attractive, and you seem sex worthy. Let's see if you really are experienced with women or if you're faking it
Context	You have a great vibe about yourself, and she's definitely interested in you.

Good Responses

+ Look her straight in the eye and say "do you think this is a fucking game?" Let the tension simmer for a moment, then smile and say "I'm just playing" and pour her another drink.

+ And you seem like you're lonely. I guess we'll both find out soon enough.

+ You can just say I'm handsome, I won't judge you (disqualifying smirk)

+ The real question is, you're not a stalker, are you?

+ Too afraid to play?

+ we both know you're the real player here (as your sip your drink and stare into her eyes)

Bad Responses

- Yes, I am one / I absolutely am a player

- What do you think? (This can be good as a follow up to a good response, but requires pro experience to execute well)

- *Laugh* (Hahaha: Breaks the tension)

- How did you know?

- Awesome, you have good observation skills, keep it up.

Shit Test #2	"I don't sleep with guys on the first date"
What she really means-	“I’m not a slut” – Its just ASD- Anti Slut Defense.
Context:	she is saying this because she is afraid of being judged by you. this is a great sign and the mere fact that she is saying this means that she has considered having sex with you.

Good Responses

- Easy tiger, we just met. Besides, I have a 10 date rule myself."
- "of course not, you're not getting lucky tonight"
- "Not so fast, woman. I'm saving myself up for the special one"- obviously, a joke, be dramatic when saying this so she knows you're a funny guy who can handle the pressure, and isn't unfazed easily

Bad Responses

- “I promise we won't”
- “But I thought we had a special connection”
- There's a first time for everything
- Today you’re dealing with a man

Shit Test #3	"You're too short for me"
What she really means-	“I'm going to target your insecurity and see if you flinch or get mad”
Extra Notes	Hold your frame, be unfazed

Good Responses

- I won't be when you're on your knees
- The rest of my height went somewhere else, if you behave well you might even get to see
- Yeah, am an absolute midget, I can’t even ride the roller coasters.
- Whoa, is height something you’re really insecure about? Did your friends tease you growing up?
- Yeah and you’re too old for me
- And you’re too blonde (Change hair color) yet here we are

Bad Responses

- Are you looking for love or height?
- Actually no, I'm the average height for a male
- I got inches elsewhere... care to have a look
- Oh, okay
- STFU Bitch (don't resent her, seriously. If she's that girl of girl, your time and energy is better saved by just walking away and onto better girls.

Shit Test #4	"Do you like me?"
What she really means-	I want your approval and validation, but lets see if you put me on a pedestal”
Notes	She's already in the bag, play it cool.

Good Responses

- Only when you're naked (if you have hooked up before)
- Yeah, you remind me of my little sister (great disqualifier)
- Depends on how well you behave (challenge)
- I don't think I can make that judgment at the moment (Why not?)
- I Haven’t seen you naked yet. (if you’ve at least kissed before, otherwise it's just creepy)

Bad Responses

- Do you?

- Is that important to you?

- Yes I like you a lot

- Yes I love you so much

- You already know how I feel about You bae

- You mean to say you like me haha tell me more

- What makes you say that?

- Yeah you are cool

Shit Test #5	**"So how would you describe yourself?"**
What she really means-	“let’s see if you try to quality yourself to me like it’s a job interview.”
Extra Notes	Never, under any circumstance do you actually explain yourself

Good Responses

- +White/Short/Tall/Horny
- I am the worst, stay away
- My ex described me as a walking dick (execution requires pro game- avoid till you get the other ones down)
- I am nothing but trouble, you should avoid me.
- All my ex-girlfriends described me as an asshole.
- Look, you're cute, but you're really not my type

Bad Responses

- The way you would describe yourself

-You can Ask my ex, she will tell you only positive things about me

- I'm a great guy

- I love to have fun, I am grateful for this world, etc

- I think we'd make a perfect couple

Shit Test #6	"Do you really love me?"
What she really means-	“I want to feel your affection, but in a non needy detached way”
Extra Notes	If you answer logically, she will create drama.

Good Responses

- Only on the weekends
- Easy tiger, I barely know you
- We'll see tonight
- * don’t respond, just kiss her on the forehead*
- If you behave, you shall receive the answer tonight
- Check her out, then give a disapproving look and push her away playfully.

Bad Responses

- I love you more than anything in this world”- she will feel good in that moment but her raw attraction for you will decrease over time

- Yeah I do, I've told you so many times. (you need to learn female psychology)

(Any rational response here is not good)

Shit Test #7	"Aren't you gonna buy me a drink?"
What she really means-	“I’m an entitled woman, guys always buy me drinks. Let’s see if you’re another one of them”
Extra Notes	Be careful with this one, she might be a "daddy's princess".

Good Responses

+ Sweetheart, if you are looking for an excuse to go home with me just say it

+ After you sing a song for me.

+ *look with weird/disgusted face* Is this your best pick-up line?

+ *look at your watch* Isn't it past your bedtime?

+ Do you ask that to all guys?

+ Are you even old enough to drink?

Bad Responses

- you down for it?

- I don't drink, but if you really want one I can get you a drink

- Oh I totally forgot, sorry

- Oh yes, I was just about to

Shit Test #8	**"You know...you're not the type of guy I normally go out with."**
What she really means-	you're interesting, I like your confidence, but let me test you to see if you try to explain why you are worthy of my attention"
Extra Notes	Never be put down by this. Reaffirm Prize mentality in your head

Good Responses

+ So I must be the kind you stay in with *Sip the drink*

+ Sorry you dated such losers before. My energy must be too much for you, I get that a lot.

+ Yeah, your right, you probably can't handle me.

+ Let's see if you're the type of girl I regret going out with

+ So, you're stepping out of your comfort zone? I'll go easy on you only if you promise to behave.

+ Good, that means you're leveling up.

Bad Responses

- Why are you here then?

- I'm better

- You are not my type either

- So?

- Well, I'm good company

Shit Test #8	"Why don't you have a girlfriend?"
What she really means-	"Let's watch you shake up and flinch because you don't have a girlfriend"
Extra Notes	She's asking you this because you look sex-worthy.

Good Responses

+ The real question is why don't you have a boyfriend?

+ Whoa slow down doll, I barely know your name yet.

+ Lately no girl passes my test

+ I have no patience for female drama. As soon as it starts, I leave.

+ because I love myself too much to give a piece of my heart

+ What did you say your name was again? Ah, that explains it. – Max curiosity.

Bad Responses

- Because I don't need a girlfriend

- I've got tons of options, I've even lost count.

- Is that wrong?

- Should I be having one?

Shit Test #9	**"I'm not looking for hookups."**
What she really means-	“I’m not a slut” (definitely a slut)
Extra Notes	Watch out for AIDS

Good Responses

+ Why is that on your mind so quickly?

+ Who said I'd want to hook up with you?

+ Well, we first have to see if you're the type of woman I'm even attracted to

+ *smirk* That's cute *change topic*

Bad Responses

- Ok, so what do you seek/are looking for?

- Neither Am I

- Yes I hate girls who hookup (this is especially bad because it counts as slut-shaming, which will make her even more closed off sexually, fearing judgment by you and by society)

Shit Test #10	“I just want to be friends”
What she really means-	“ I like you but I’m unsure about my feelings towards you. Let’s see if you try to fight it or argue with me”
Extra Notes	Never push her psychologically. She's extremely prone to doing the opposite there.

Good Responses

+ Everyone hopes to have at least one, Don't give up

+ Me too, I don't have any friends, every girl just wants me to fuck her.

+ I'm fine with that, but hope you won't be among the creepy types who want to end up getting in my pants after

+ Cool, as long as we can roll in bed together naked

+ Me too. Wait, you thought I was flirting?

Bad Responses

- I wanna be more than friends

- We're not friends

- That's cool with me (Only when you mean it, most men don't)

- Friends with benefits? (don't be dumb)

- Why do you think that? (Say this and you're done forever, women don't want to explain, they want you to already understand)

Shit Test #11	Why do you flirt with other girls?”
What she really means-	I'm jealous but turned on by your ability to attract and seduce women
What she really means-	She's in the bag. Keep it cool.

Good Responses

+ To see if they're your type

+ One of us has to do it

+ They're flirting with me. I'm just being king by responding back

+ You're confused dear. They are flirting with me, not I with them. *smirk* Come here, Give me a kiss.

+ Have you seen their smiles when I do so? Can't deny them from that feeling

+ Wrong question, Why do they flirt with me ?

+ I know right, I've been asking myself the same thing. Why can't they just leave me alone?

Bad Responses

- I have to tell them how boring they are compared to you.

- I tried guys but I didn't like it.

- Because they like me when I flirt with them

- Because it makes me happy

- Does she look good with me?

- Cuz I'm a flirt

Shit Test #12	**“What do you do for a living / What do you do?”**
What she really means-	“Let’s see if you try hard to impress me with your job or your material possessions”
Extra Notes	If you're truly secure in your work, you wont feel the need to prove it.

Good Responses

+ Banana Bender

+ I'm a professional quality food eater

+ I'm a Lego Fixer

+ I'm a professional hide and seek player

+ Midget UFC organizer

(Make it sound as ridiculous as possible)

Bad Responses

- I sell dreams and fantasies

- I'm a rocket scientist working 60 hours a week and I earn A LOT (Too much qualifying)

- *Actually tell her what you do*

(eventually you can, but spark up her curiosity initially. The right kind of women don't care anyway, trust me)

Shit Test #13	“What are you looking for?”
What she really means-	Let’s see if you are a non needy detached, playful, chill guy who doesn’t only want to get in my pants”
Extra Notes	She's too much in her mind. Tease her for trying to marry you already.

Good Responses

+ See what happens. We should have a nice time together / If your vibe matches mine, you might even get lucky

+ So far, you're not doing a good job (playfully)

+ I'm not looking for anything serious but you seem lost so I'll help you

+ A dangerous bitch crazy enough to roll with me

+ Let's not complicate stuff. Let's keep it simple

+ A woman who isn't a stalker (implies that women have stalked you in the past= high value)

Bad Responses

- Depends on what you can provide

- I'm looking to date/hooup etc

- *Go into a deep story about what you actually want*

- I don't "look", I get what I want

Shit Test #14	“Did you miss me? / I miss you”
What she really means-	“I need your attention” (but again, you have to be detached about it)
Extra Notes	You've been maintaining the right amount of mystery and uncertainty. keep at it.

Good Responses

+ I'd miss me too

+ Can't even leave me alone for 2 minutes (disappointing shake of head)

+ I know

+ Prove it (playfully serious face)

Bad Responses

- I miss you too

- I want to see you during the week

- Come over tomorrow

- I want to see you

- Yeah it'll be nice to see each other again

^ All of the (-) points above can be used, but use it rarely. You should really mean it. She will appreciate it only if she rarely hears it from your mouth)

Shit Test #15	**“Are you seeing other women when you’re not with me?”**
What she really means-	“I’m bored, and I want your attention. let’s create some drama so I can feel some strong emotions”
Context	if you answer this question logically, she will prey on you like a vulture. Don't fall into her frame.

Good Responses

+ That’s cute. you’re already getting jealous over me

+ Well, you know.. Girls are approaching me all the time.. Some are very good girls.. And it's like they have these empty holes in their lives, and they look at me and they know.. Deep inside.. That I'm the one, who will fill them with joy.. And they're on their knees.. Begging..(serious tone but she knows its playful)

+ 50 others, wanna bring someone in?

+ Not on the same day

Bad Responses

- Yes of course I do but they're not women enough for me, unlike you

- I do, but there's still only one you

- No I'm not! (100% will start an argument where you have lost your frame)

Shit Test #16	“Why are you so full of yourself?”
What she really means-	“I love your cocky-ness and self confidence. But lets see if you really are so confident or just putting on a show”
Context	If she notices it in you, she's usually the one who's full of herself. Show her who's daddy.

Good Responses

+ I love myself too much

+ Can't handle?

+ Hard for you to keep up?

+ Never met a high-value guy, is it?

+ I ate too much confidence for lunch

Bad Responses

- why not

- I am the prize

- Because I am handsome

- is it bad?

Shit Test #17	**“So you use this line with every girl?”**
What she really means-	“I’m used to this. Let’s see if you apologize for being caught”
Context	The classic test. No matter what, you must not shake or react negatively to her. Remember, you're used to this.

Good Responses

+ Do you say that to all the guys you're attracted to? I have a 7 date rule btw, so keep it in your pants.

+ Yes, but it's your turn to hear it

+ You're pretty insecure, aren't you?

+ My mom told me to say this

+ Yeah I do, did you think you were special or something?

+ Only on *day of the week*(Thursday) between *a 15-minute window when you spoke to her*(6 pm to 6:15 pm)

Bad Responses

- Yeah I do, but only to the most beautiful

- Hell yeah! It works every time, if it's not broke don't fix it

- No I came up with that specifically for you

- Only to those I want in bed

- Yes, but you are my only real girl baby

Shit Test #18	"Is that your pickup line?"
What she really means-	“Are you making a move on me right now? Let’s see if calling you out makes you nervous and shake off from your frame.
Context	She's sub communicating that guys often hit on her. You must break her out of her frame.

Good Responses

+Yes, and I practice it first thing every morning

+ Yes, and I usually use it on naughty girls/troublemakers

+ Too much for you to handle? (disqualifying gaze)

+ Doesn't happen to you too much, does it? (disqualifying cocky smirk gaze)

+Oh, you dont want that, trust me. Besides, you couldn't handle me anyway

Bad Responses

- Oh no I was just trying to have a conversation

- I can leave if you want me to

- No it isn't

Shit Test #19	“You’re too skinny /fat You have skinny/fat legs/arms
What she really means-	I'm gonna target this insecurity of yours to see if you get upset and try to compensate for it
Note:	this can also be an outright disrespect. If she’s a bitchy low self esteem girl in general, and If it’s a pattern, ghost her. She’s not worth it.

Good Responses

+ I know, it helps me get in touch with my feminine side.

+ Yeah, it makes me more attainable

+ It's funny you said that, my little sister says that in the exact same way (you've lowkey friend-zoned her. Great way to disqualify)

Bad Responses

Anything that causes you to get pissed off or irritated.

Shit Test #20 | **Why are you such a mystery?**

What she really means-

"You have a different aura around you. I hate that I love the fact that I can't figure it out.. (She doesn't want to either)

Context-

You must keep that element of mystery around you. Give her 2% more and then pull it back

Good Responses

+ You don't want to know.

+ I have issues

+ If I told you I'd have to kill you (dead serious look, then optional release with a touch on her arms or thigh)

+ Careful! Any deeper and you'll get hooked

Bad Responses

-Because I Learned a lot when I was younger

-Because(basically don't actually explain why. She wants you to remain a mystery)

Shit Test #21	"This is such a bad idea"
What she really means-	"I so horny right now, but the two sides inside me are having conflicting opinions, so I will tell you this to feel less of a slut"
Context:	You're about to kiss/already kissing and about to fuck and she throws this last minute bomb at you

Good Responses

+ This is the worst idea ever

+ Totally, we should so not be doing this

+ We're both going to hell for this

+You're such a bad girl for doing this (sexual tonality)

In all the above cases, you KEEP PHYSICALLY ESCALATING while verbally saying those lines

Bad Responses

- Why, what's wrong?

- We can stop if you don't want to do this

- There's nothing wrong in doing this. We're two consenting adults having a good time (Never be logical in these moments)

Additional Notes:

Don't be a gamey robot that only spits lines trying to be smart and cocky and arrogant all the time.

You have to balance the game with being real and having a connection.

This is something that every guy faces initially but learns as he goes on. Your best bet is to be playful and play your own game.

I did the hard way, but you can make sure that you're 50-75% game and 25-50% genuine connection depending on the type of girl she is (which you will learn about in the other ebooks and with practice)

FINAL THOUGHTS

That was A LOT to take in!

(Can't believe I'm only charging $49 for this whole course)

WHY SOCIAL CIRCLE?

Because women desire men whom other women desire and other men admire.

Feminine energy is attracted to Masculine energy.

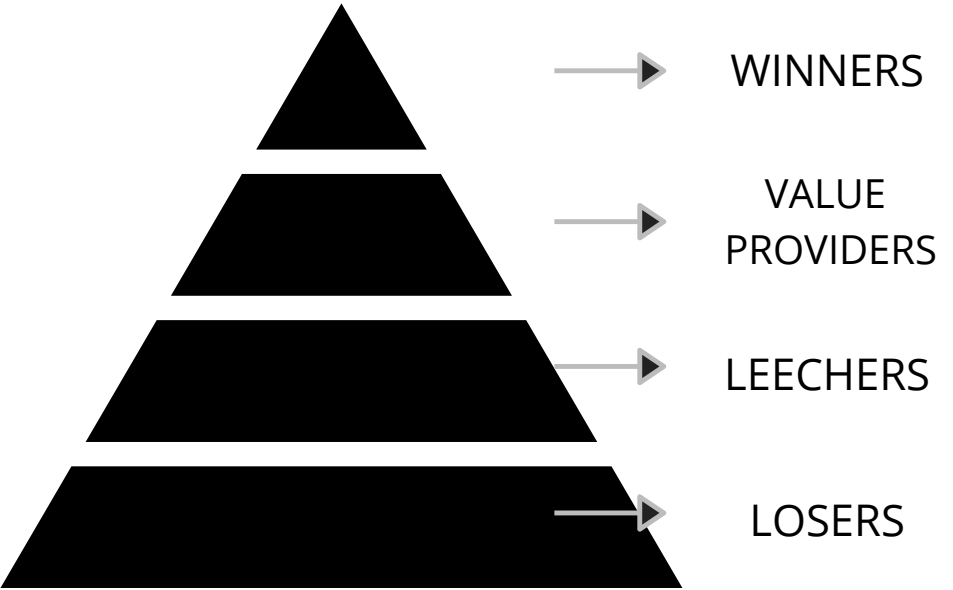
And nothing oozes more masculine energy than a man who already has multiple women around him chasing his attention and men who respect his opinions and look up to him for advice and fun.

Simply put, pussy and power attract more pussy.

But on a deeper level, social circles are a lifestyle thing. The power of introductions are very strong due to the Halo effect, and in-group bias.

It's about Leverage. You leverage your access to social resources and women to develop deeper relationships with men and women.

1 The Social Pyramid



2 | THE MINDSET: I AM AN EXTROVERT

Look, everybody is a natural introvert. Nobody came out of the womb ready to socialize and talk to people. As humans, we like to have alone time for ourselves.

But that doesn't mean you make it your identity.

You have to consciously and deliberately put yourself in situations where you talk to people. You have to change your self-image from "I am an introvert" to "I AM AN EXTROVERT WHO LOVES TALKING TO PEOPLE"

Most guys aren't able to ever become successful at social circle game because they never change their self-identity. They find solace in the fact that they can always pussy out by saying "But I am an introvert this is not me"

FUCK THAT.

From today, the world is your playground. You are a social animal.

Join a gym. Ask people if they are done using the equipment. Ask people if they can spot you. Baby Steps. CONSISTENCY.

The more women you have as friends, the more women you actually fuck. This is because women desire men whom other women desire. And although your female friends might not necessarily desire you, the preselection and social proof that they give off is massive.

"Wow, he has so many girls around him. He must be really popular and I can feel safe around him, knowing he's not a creep."

Every girl you interact with, you either make her your wing girl or partner

IMAGINE IF I TOLD YOU RIGHT NOW THAT NO MATTER WHAT you do, you cannot get her number or fuck her.

You won't give a fuck in your interactions, right?

You will be totally free-flowing and not chase validation, because you know that you're not allowed to do anything.

And always ask yourself:

HOW CAN I OFFER THIS PERSON VALUE RIGHT NOW?

That is the mindset I want you to come from.

Always LEAD WITH VALUE.

Now read "Introvert to Extrovert in 6 Steps" before moving forward.

3 | The Friend to Homies Formula

- Frequency- The mere exposure effect (discussed later)
- Duration- time spent together is value raised. Aim for quality over quantity though.
- Intensity- affinity, commonalities, shared experience. strong emotions increase intensity. Charismatic Questions will help with this. Shared worldview + mindsets.
- Proximity- the same area or how close you are to each other. Offline > Online.

4 | Cold Approach + Social Circle

It's never cold approach vs social circle. Rather, it's about using both in different situations and combining their power to maximize your results with women and the overall quality of your life.

Cold Approach will always be a valuable life skill when you go to a new place where you don't know anybody and using it, you can decide which girls you want to sleep with that night and which ones you want to keep in your social circle and make them your wing girls.

The details of wing girls and social circle events are given later in this guide. Most "naturals" are just great at social level building and life setup. You will be able to execute that better than them.

5 | Taking vs Giving vs Being (VALUE)

Taking value is the lowest form. Avoid.

Giving value is the medium form. An important step.

Dan Bilzerian IS VALUE. He doesn't have to do anything.

Context > Content.

That is because he has status and everything that the average male wants.

Being Fucking cool vs being Fucking needy. Choose.

Keep giving value for at least 6 months before asking for any major reciprocation. And do it with multiple people. Plant seeds. think long term.

6 | Readymade Cold Reads to spark interest

“I feel like you’re not from this area”

“you’re the troublemaker/good girl in this group, aren't you”

“you have this save the world vibe about you.”

- You seem like a coconut girl

- Let me guess, McDonald's? (lmao)

- Let me guess, Tennessee?

- "You seem like the kind of girl who can be a total party animal, but you have these moments where you say fuck you to the world and you just want to be left alone"

7 | The Social Invite Sequences

You need to understand that timing is very important with invitations.

You have to bring them into a high-temperature buying state.

Simply put, you must qualify her before you throw in the invitation.

Ex- "Are you even old enough to drink?" (teasing)

Her- Yes blah blah

You- "What's your favorite drink?"

Her- Vodka Redbull

You: Wait, are you doing this on purpose?

Her:...

You: That's my favorite drink. Are you trying to pick me up? (flipping it on her)

"There's this bar that crafts the best vodka Redbull you will ever have (lmao obviously not, but she won't care)

Her: Where is it??

It's _____. You know what, we're going there. You haven't experienced vodka Redbull till you try that. But only 1, don't try to take advantage of me" (you're making her feel safe and casual since it's only 1 drink)

Always ask her favorite drink, convey it yours too and blame her for trying to pick you up, and only then throw in the invite to this bar that serves the best ____(insert drink)

8 | Have different stories prepared

Disclosure is Disarming.

To quickly build rapport and establish commonalities, you need to have pre-determined rapport stories.

Create 2 Rapport Stories for each (hype it up, details can be exaggerated)

- Tragic Incident-
- High-Status Portraying-
- Deep Connection building-
- "I almost died" story-
- Drug Infused Story (for the party guys girls)-

9 | *BUT I AM NEW TO THE CITY!*

Conduct a social audit (refer to audit guide)

Find out what you love doing and find similar people.

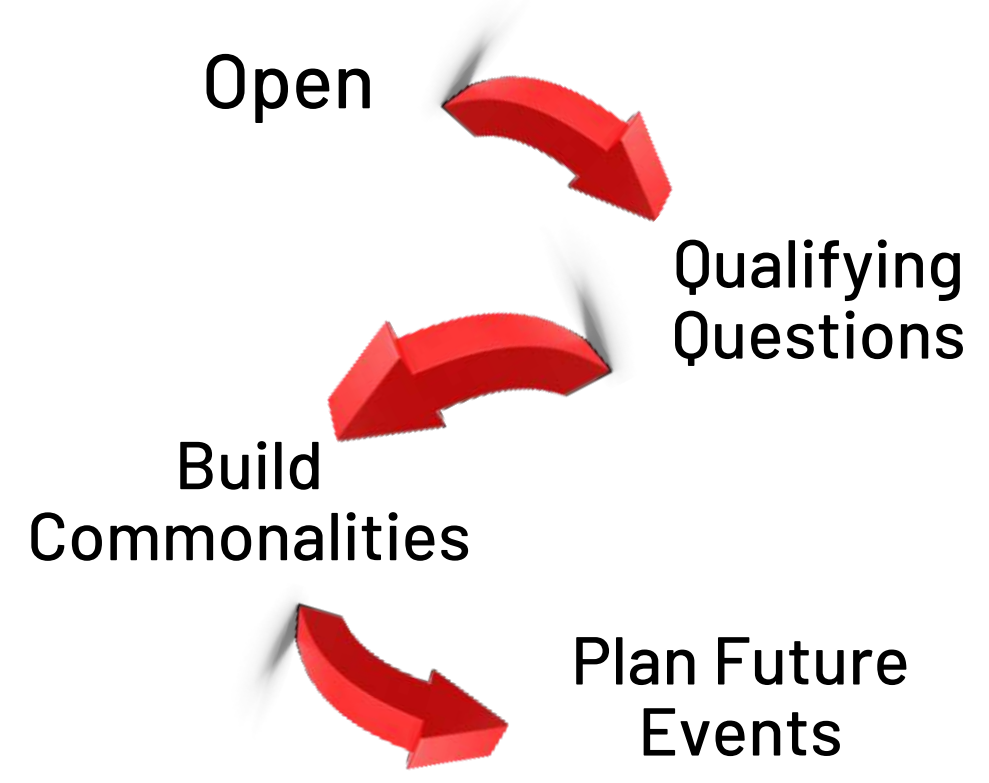
Meetups.com, Facebook groups, Reddit, Instagram DMs, Yoga Classes, Dance Classes, Boxing, Gym, MMA, connecting with cafe staff, Cold approach, Club game-the list is ENDLESS.

There have never been more ways to meet people than today.

But how do you do it effectively and not come off as a creep?

Follow the "4 Step Best friend formula below"

The 4 Step Best Friend Formula



1- The different Types of Social Openers

Compliment Opener-
"Hey, I like your dressing sense. I'm ___, and you are?"

"Hey, I love the color of your eyes. Is that natural, or are you wearing lenses?"

Utility Opener-
"Hey, I wanted a female opinion on something. Would you date a guy even if she was still friends with his ex?"

Opinion Opener-
"Hey, I know this is totally random, but do you prefer your vodka shots or vodka RedBull? (then tease her for being lightweight no matter what she says)

Question/Cold Read Opener-

"You seem like the kind of girl I would've bullied in middle school"

2- Qualifying Questions

- "Have you been to"
- "What are your thoughts on"
- A or B?

3- Build Commonalities

To build connections, you need to realize that most friendships are built on commonalities. You are close friends with the guy who supports the same sports team as you do.

You are close friends with the guy who agrees with your views on life and women, not with a simp (I hope)

3- Build Commonalities

The important point to realize is that these commonalities can be very superficial:

Example:

- same city/country (when in a different city/country),
- same university,
- even the same " I'm a dog person"

It doesn't matter. Always be driving through for these organically while building rapport at the same time.

Start small on these commonalities and then dig deeper to build rapport.

This works because people want to feel understood and related to people. Tap on that need.

4- Plan Future Events

Also called Future Projection, what you do here is that you plan fun together in the near future.

This is genius because you also appear to have spent more time together than you actually have. Once you connect hard on one commonality, tell them how "We're doing this thing together this weekend/ next week."

You now also have a reason to take their contact details. Often guys will just ask for the number without any purpose- it appears "leechy". This prevents that and also gives you both something to be excited about.

The more specific the date, time, and location, the deeper the connection with be.

Remember, you're looking to build real, genuine connections.

11 | The PWQTCF Formula to Eliminate Flaking (Men & Women)

- Plant: Talk about this cool event coming up on your calendar.
- Wait: Don't invite her yet. Build anticipation and safety (girls, high-status venue) and then change the topic.
- Qualify: "Are you a spontaneous and open-minded girl, who is into * cool event type* If she says no, tease her for being the mom of the group.

If she says yes-

The PWQTCF Formula to Eliminate Flaking (Men & Women)

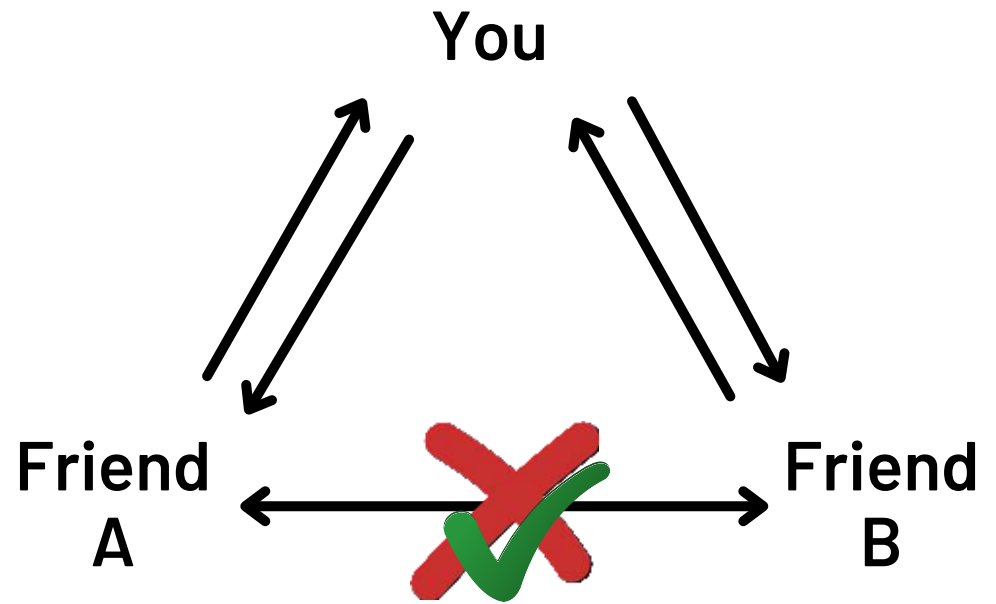
- Tell: Now you tell her about the event, and say "you're coming with us" nonchalantly. High-Status people never "ask", they simply state.

- Condition: One final hoop for her to jump and make her qualify herself = worth of event increases in her mind. "New people have to bring (a bottle of wine, their best personality, something challenging)

- Follow Up: Show up on her radar via memes, your own posts, and in-person catching up (any of these, 1 is fine)

Key phrase: "Bring your friends" = She feels safer with her friends there + social group expands. win-win.

The Social Triad



Make that connection between them = more goodwill

13 | The Hack to Increasing Social Energy when going out.

Firstly, this is not medical advice. Check with your doctor before taking these.

Second, you won't need to take these every time. But whenever you want to go the whole night partying or you want that extra boost to remove all limits, you can try these:

- Alpha GHC: 350-700mg before going out
- Inositol (2gms)
- Ashwagandha
- Frozen Grapes
- Coffee Shot
- If you want to stay up for 24 hours, try Modafinil (don't mix it with other drugs.)

14 | Use the "Mere Exposure Effect" to your advantage

The more people saw the person, the more positive meanings they associated with it.

Show up on people's radar constantly.

Ideally, once intentionally and multiple times unintentionally / week

Intentionally- sending them messages, memes, cool videos

Unintentionally- Posting stories of you doing cool shit, living life, and hanging out with different friend circles.

They will reach out and definitely be more interested to be a part of your awesome life.

15 | Your Most powerful weapon

When you move to a new city, you need to realize that your most powerful weapon and the best bet will be gaming the staff.

Always tip heavy.

When you move to a new city, explore the local bars, pubs, restaurants alone. Right after you order, tip then and there and small talk with them about the location, kind of people coming here, and jokingly tell him to not mess up when you bring a girl the next time.

You might not realize it, but the staff and workers in the location give you massive authority and social proof.

Imagine walking into a coffeehouse and they have you regular already prepared and waiting for you.

Do the same with bouncers and gatekeepers in clubs and other locations.

The key here is to tip them when you're leaving, instead of when you arrive.

Why? Because 99% of people tip them before in an effort to get entry sooner. It seems extremely fake and destroys any chance of real rapport or relationship building.

Instead, tip when you leave and do some chit-chat, ask exchange names and compliment them for doing such a great job and thank them. This will make them remember you and after a couple of nights of this, you will never have to wait in line again. Imagine how wet the girls in line will be when they see you do this.

Remember, always do the opposite of what most people do in life.

In fact, midway when you leave the club/bar/venue to get a pack of cigarettes or red bull, bring another one for the bouncer, and talk to him for 5-10 minutes.

Do this a couple of times and they will love you forever.

They will greet you, let you cut in lines, and introduce you to other high-value people you know, simply because you treated them like a human and as a friend.

It's also great for the soul, and in my experiences, every bouncer and gatekeeper I've interacted with turned out to be pretty chill and friendly.

They're just there to earn a living, and they desperately seek connection too.

16 | How would you behave if you had 100 women begging to fuck you?

Always. choose. Abundance.

Why is it that the men who get laid the most appear to need it the least?

Because they genuinely could not care less about sleeping with women.

They're not attached to the outcome because they know that no matter what happens that evening, they have multiple women begging for their attention.

The hack is, you can get the same results without initially having 100 women begging to fuck you.

Simply adopt that mindset, and your actions, body language, and tonality will automatically project that on the people you interact with.

17 | Using Instagram the correct way:

1- Turn off all notifications. Have control over the dopamine. Don't become its bitch.

2- Stop checking "Instagram stories" You should not be concerned with what anybody else is doing unless you are in touch with them and want to use it to spark conversations.

3- Upload photos that show you living your best lifestyle. Don't post photos for your own enjoyment. Social media is like your social resume.

Girls whom you meet and interact with in real life will check your social media to assure that you aren't a creep or antisocial loser.

You must have at least 3 photos with women in them, preferably leaning into you, with you in the middle.

If you are at parties, film it and put it on your Instagram stories & post it. Women will be drawn into your lifestyle, they will want to be a part of the fun. This will feel "fake" at first but you have to play this game. It will help you in the long run.

Understand that for most women Instagram is more real than real life itself.

Instagram helps you to broadcast your amazing high-status life to an infinite number of people.

Shamelessly copy what the other high-status guys in your environment are doing- the kind of captions, the locations they go to, the kind of pictures and stories they post, etc.

If you want to find out about these guys and girls, search for posts by location.

Simply put a famous club or bar and you will find all the posts that have tagged them. You will also find hot girls whom you can choose to connect with.

Value Trade

when you have a resource that you can give to somebody who needs it, in exchange for a resource you need.

Start thinking of everything as a resource- money, girls, skills, connections, locations you live in, etc. Can you connect them to somebody they should meet?

Do you have access to a good location to allow photographers to shoot models? What can they give to you in return?

Weekly High Status Events:

Key technique. It's a group date/ event where you bring your whole social circle to.

It can be brunch, a themed house party, weekly drinks, etc. These are high ROI Activities were done properly. There will be some new girls every week (brought by your wing girl and other guys) and they will chase you because you have high status in your social; you are the connector.

Pro Tip- always bring women with you wherever you go. These could be your friends, it doesn't matter, because the goal is to give yourself massive preselection through them, which will make you the center of attraction and you won't even have to game the other girls as hard.

18 | Always play the long game

Don't fuck people over for a quick buck. Similarly, don't manipulate (negatively) women for a quick fuck. It comes back eventually. Be unapologetic in your beliefs and actually connect with people whom you find interesting and of value to you.

As @Naval says, the secret to winning is to play long-term games with long-term people.

Build real bonds with men with women. Keep doing favors for them whenever you can and build up the social capital. Do cool shit together and enjoy life.

Don't do the stupid PUA stuff of forcing the sex on her and faking shit. Hookups are fine but maintain your class. Worst case, you can hook up and then friend zone and make her your wing girl. She will also give you massive preselection.

19 | Club Game Summarized

Befriend the staff, but don't use them to game women. You need to enter the circles from the top. Always identify the key people in the environment- the high-status guys, promoters, and leaders of social circles.

Women are the currency inside clubs. If you can get these promoters and other high-status guys access to women (your friends or game women for them) then they will forever be your friend.

Get them laid before you do. Don't go to their table and start gaming the girls for yourself or you will make a sure enemy. Instead, make the other person look good and tell preselection stories about how "all the girls get attached to him, you probably can't handle him"

Remember, your goal is to build a status advantage and real connection that lasts outside the club as well.

20 Model the correct Personalities

You can learn so much about the social game from the correct movie characters.

Think about Hank Moody from "Californication" & the whole "Entourage" crew. (The two shows every man should watch) Swingers (1996) is good too.

One of my personal favorites is Ari Gold. His DGAF personality is something we all can learn tons from.

You can also connect with people over these shows. 90% of badass men have seen these two shows in their teens/the 20s so there is a lot to reminisce over.

21 How do I want to leave this group feeling?

This is a key mindset.

You need to think & ask yourself:

- the guy that can grant you the access: what does he want?
- What does he need?
- What is the smallest footprint possible?
- How do I give value and keep building the social deposit account?

22 How to become Unrejectable

What happens in normal interactions?

The girl has all the power because it's only her in your purview. She knows that her actions will determine whether she "allows" you to fuck her, or if she "rejects you"

But if you're in a social circle and invite 5-6 girls, then you are literally the prize. All girls will compete over you.

The actions of one girl will not impact you in any way. It's totally irrelevant for you.

1-to-1 dates (= weakness)
vs.
1-to-many dates (= strength)

The more girls there are, the less of an impact the behavior of any single girl can have on you.

For example, on a normal date, the girl knows that whatever she decides to do is going to determine how the rest of your night goes.

If she decides to sleep with you, she's "made your night" (according to socially conditioned thinking).

If she decides to leave, she's "rejected" you.
But if you're out with five or six different girls or more, then what any one girl does or does not do is completely irrelevant to you.

Congrats, you are now un-rejectable.

23 The Donald Trump Trick

Donald Trump plants a seed inside the other person's brain.

When he first meets somebody, and he knows that they did a good job, he greets them and says something like

"*and by the way, you did a great job on that article. I really enjoyed it*".

In fact, he knows that the best time to point this out would be in public.

In interviews when he is asked about a person who wrote good things about him, he said

"*oh yes, and by the way, she did a fantastic job on that article. Very thorough and well detailed.*"

Imagine if that happened to you.

You would obviously keep writing positive things about Donald Trump and do favors for him.

What the person rationalizes is that-

I write good things about trump = I feel more validated and appreciated.

and thus this cycle gets repeated.

Such is the power of selective praises.

This is how he has managed to have a huge loyal following of people who still love him and are literally willing to go to jail for him.

always tune in to people's WIIFM- "What's in it for me?" Radio.

Understand that people help each other (happily, that is) only when there is something in it for them.

Attention is the most valuable currency there is.

the more attention you can capture, the more value you will have.

Always begin your sentences with the purpose of what you are about to say, and WHY the other person should spend their valuable time listening to you.

"I'm going to share a story, and Here's why I want you to listen carefully to it..."

25 Give Praise followed by Mild Criticism

Everyone loves to be praised and appreciated. Hell, they do a much better job when praised than if not.

However, this certain element of "complacency" kicks into people when they are overly praised.

The Solution?

praise people, because well, it makes them feel good and associate you with good emotions, BUT ALSO add in an extra statement that mildly criticizes the person.

This also won't be enough to build resentment, but in fact, it with motivate the other person to work harder for your full approval.

"You look great tonight. Your dress is incredible. The shoes, however, it almost feels like they're wearing you"

always prime people when you first meet them.

For example, this is 1st person framing- *"You're really social and outgoing. I mean many people are shy and introverted but you're the kinda guy that loves meeting people"*

Here's what 3rd person framing would be like-

" I HEARD from this guy/girl (preferably his/her friend or someone he/she admires) that you're a great speaker and the kinda person who really knows how to get the audience going and setting the stage for me.

Extremely Powerful to prime people to do good for you.

You prime them to do exactly what you want them to do while making them happy to do it because they have to live up to that reputation.

27 Create a Competition Dynamic

Once you get her number using the other guides in this course, text all the girls saying you and your buddies are going out.

It could be a club, bar, house party, whatever. Keep it socially acceptable since these are the girls you haven't made a huge connection with.

Don't send the same text to all the girls. Customize each text by referring
to a private joke or moment between you and the individual girl, or tease her.
This will greatly improve your response rate.

ALWAYS, ALWAYS ADD- "Bring your friends!"

The exclamation is to convey a joyful state, not excitement. Be nonchalant about it.

This way, you are going to be the common link between the guys and girls, and have the social power in this dynamic.

WOMEN COMPETE FOR THE SOCIAL CONNECTOR.

You are the only person everybody knows. Hence, everybody is going to flock to you to avoid awkwardness and have fun.

So what you'll find is that as everyone gets to know each other... as people's boundaries and inhibitions are loosened by having a few drinks... the girls are going to start competing for you

Choose and game the hottest girl.

When they meet a guy well connected, they instantly get attracted to him because they know that

sleeping with him = getting access to his social resources and climbing up the social ladder

HENCE, girls will naturally begin to compete with the other girls there for your attention.

They will lean in, pull you to the bar, bring you drinks, and often blatantly put her hand on your dick because she's already warmed up and ready to get fucked by you- the social GOD.

28| Shift the Spotlight & Always be having Fun

In many ways, the currency of the social scene is FUN.

Most people are bored of their life. They want a fucking escape.

Fun is extremely infectious and is an easy way to building rapport with anybody.

Most people also want to be seen and heard. You give them the chance by "cueing" in for them by talking about a topic they're great at, "so yeah, max is great at it, can you tell us about it max?"

You can be crazy, weird, and dangerous...but if you are the most fun option she’s going to have, she will do anything for you.

29 FINAL EXERCISE

Now that you know ALL the Social Hacks required to Master the social scene, I want you to do the following exercise on a piece of paper.

Close your eyes and think about how your Social Life will look 90 Days from now.

All the girls, the partying, the high-status male friends, the experiences you will have, all the girls you will sleep with. Your house parties, all the opportunities you will DOMINATE with your friends, how fulfilling your life will be...

Visualize it in as vivid detail as possible.

And now, write it down on a piece of paper, sign it, and look at it every fucking day to motivate and push you.

EXTRA NOTES:

Always go first and create a culture of introductions, especially with women. She will feel the need to reciprocate and will introduce you to girls.

Tip- Add a "Wildcard week" in your social circle where everybody brings a new person.

Always make women earn their drink.

Important to pick a morning venue where you go consistently, build rapport with hired guns (staff) and build social proof there.

get the smaller apartment in the best part of town, not a great house in the suburbs; this will help with logistics.

Show them you are good with women, and they will welcome you everywhere. Women are like currency in the social scene.

EXTRA NOTES:

Be generous. Like a King, keep gifting people favors and creating win-win situations for everybody.

Reward and praise people when they do something good, instead of criticizing them when they fuck up.

Tell the other person how you know how hard it must have been for them to do what they did. Congratulate them for every small accomplishment they do.

Don't be needy and don't act like a fanboy. Say it in a non-needy detached way and don't seek for a "thank you" or their validation

FINAL THOUGHTS

LEAD YOUR LIFE IN YOUR OWN WAY, INCREASING YOUR VALUE EVERY DAY, NETWORKS, HEALTH, BUSINESS, DOMINATE EVERYTHING.

Open, small talk, find commonality, leave, then come back again later (uses mere exposure effect and avoids appearing needy)

When you come back later, hit hard on commonalities, build future projection (event) and you're set.

Build rapport, break rapport, qualify, escalate, either friendzone or close.

This is just the fucking beginning of your journey, and I'm so excited for you, brother.

If you have issues related to game, dating, relationships, and life, DM me on Twitter and I'll be glad to help you out.

▼ “***Why do you do this? What keeps you going?”***

I’m often asked this by my loyal brothers.

I am taken aback at the question because…

I never really considered stopping.

Sure, the money helps.

But to keep helping hundreds of thousands of guys every single day for the past 28 months?

Money can never.

What really keeps me going is reading the success stories of REAL guys, telling me how I changed their life.

Some were in a dark place when they found me and say I dragged them out of it.

Some were in a mediocre place when they found me and say I propelled them up to higher levels.

Sold to

Some were already living a good life and say I helped them reach the elite levels.

I'm a huge believer in Karma.

What goes around, comes around.

We're all meant for more.

I hope you enjoy this, it's a compilation of literally 10,000+ HOURS worth of DMs answered, Q&A's done, brotherhood #ASKMR's

all compiled into neat categories for you to absorb.

I could have sold this for $1000, but oh well…

I want to hear your success stories from this, which will fuel me to do more for you, and for the mission we're on,

which will be worth way more than mere money, hah.

I know… I'm selfish.

▼ ***"MR why do you always talk about women?"***

It's funny because I literally have 1000s of posts inside the brotherhood on topics outside of women.

But yes, on the socials, it is mostly women.

And the reason is very simple.

To make you reach HERE one day.

Women grab attention. Pussy catches eyeballs. And once I have them, I can tell my REAL message and show you all the masculine path to a better life.

Attracting a girl is no different than getting a client

Frame, pushing and pulling is no different than negotiation

Social circle build is literally networking

Many of you have already figured it out, but for the remaining that often wonder, there you go.

I have a plan for you.

And it's not yet finished 🤝

▼ ***“What the F*ck is Game?”***

Even after 2 years of teaching and sharing the game, many guys do not understand it.

This is my fault, and I am going to fix it once and for all here.

Game will get you the women. Yes. 100%. too easy.

But that’s like 5% of game.

More importantly, game will teach you TIMELESS SKILLS about social circle, persuasion, influence, money, status, human behaviour, wealth and so much more.

Not directly, no.

Game is decoding the social, sexual, and wealth matrix

Like seeing the right moves to win, instead of seeing 1s & 0s(code) like the masses see.

You see- “Do this, this and this to win”

while the masses see- “101100111010101 “

Game is social seduction, which works on both men and women equally.

Attracting a girl is no different than getting a client

Frame, pushing and pulling is no different than negotiation

Social circle build is literally networking

Through access to better social circles and commanding more respect, you get access to beautiful women, inside-only information, opportunities worth millions, and much more.

You have to look carefully and read between the lines to get the most out of it.

Like gold hidden in plain sight, you have to really think HOW you can apply things.

Everything you will read below, is part of what I consider part of GAME.

The advanced stuff is all inside my course, Seduction Bible.

Suddenly, you wake up feeling purposeful about life.

People treat you with more respect.

Women look at you with “fuck me” eyes

I’ll go as far as saying-

Game is the BEST skills ANY Man can learn, at ANY AGE, at ANY STAGE of his life.

I hope you enjoy it, brother.

▼ THE BEST TIME TO BE ALIVE.

These are turbulent times for society.

There are 2 clear categories of people- The Sheep (Bottom 99%) and the Rebels(Top 1%)

The Sheep are the masses that need to be controlled and made to be compliant for the slavery they will be exposed to in the coming years.

I pity them, but I don’t try to change their thoughts. Society needs Brainwashed losers to stay obedient and not cause havoc.

The Rebels, on the other hand, are the Winners. We are the free thinkers who are making our own choices and staying against the grain of society as a whole.

We view these times are a massive opportunity because there is literally no competition.

All you need to do is think for yourself, stay consistent and work hard, and victory is assured.

I don’t like to go too deep into Politics and Conspiracy theories, because it’s an endless hole which just wastes your time.

Focus on yourself, ignore society, and you’re money.

A Parting thought-

When you see stupidity around you- don’t get angry or irritated.

Simply say- “Massive opportunity here”

THE BEST TIME EVER TO BE ALIVE.

▼ Moving Around The World with Based Beliefs

HOW TO MOVE IN THE WORLD WITH YOUR BASED BELIEFS

Most of you here have redpilled, based beliefs about the world.

You don’t live in the clown world full of fairytales and neither in the depressed world full of nightmares.

But… 99% of the world does.

These include people you will encounter throughout life.

At parties, through work, on the street.

Of course you can minimize exposure by only hanging around other likeminded people,

BUT you cannot fully avoid them. In fact, in many cases you require them to make moves for you.

How you behave around them with your based beliefs?

NEVER EVER try to argue with these people about beliefs and principles.

They’re too brainwashed to be saved.

Smile, nod, change the topic to something you have in common (you’re both at this party with amazing vibes) and wish them well.

You can’t be a complete rebel or you’ll be labelled the “creepy” dude.

Keep these topics reserved for your close friends who are on a similar path as you.

▼ **On Loving the Feminine**

Women are beautiful.

They’re a miracle of this world.

They have the greatest power- the power of life.

Met one bad apple?

There are 10 beautiful ones.

I don’t consider myself a pickup artist because I offer advice from a place of deep love and respect for women and the feminine as a whole.

This doesn’t mean you simp for them.

Simping comes from a place of “lack”

No, you express your love for the feminine through your cocky, funny, disqualifying behavior.

▼ On Purpose

I like to explain purpose using the Onion Metaphor.

What happens when you peel the layer of an onion?

Another one appears.

You think it’s the last one, but there comes another layer, and another, until you reach the CORE.

During your lifetime, you will have many phases where you will do things that you think is your purpose, until you realise it was just a LAYER that was required to reach your core.

You can never push to find your purpose, I believe it will come with time and action.

The best way is to keep exploring TONS of different things to see what sticks and what doesn’t.

Do not be stuck in one place meditating, trying to find your purpose.

PRESSURE REVEALS PURPOSE.

▼ On Extroversion

I am an extroverted man who loves cold approaching people.

This is my self image that I repeat to myself every single day for the past few years.

Before doing this, I was a HARDCORE introvert.

Couldn’t ask someone on the street for directions if my life depended on it.

What changed?

I stopped calling myself an introvert, and instead plugged in the extroverted self image.

But recently, I have realized that nobody is an introvert or an extrovert.

You’re both.

Meditate on this thought as you move through the world today.

▼ On Women being born into the Game

Women are so good at game because they were the physically weaker sex.

They HAD to compensate for it somehow, and thus, they learned reading cues, behavior, and “manipulating” men to get what they want.

When she’s a child and wants an ice cream, she will emotionally manipulate her father to give into her demands.

When she a teenager and wants her boyfriend to take her out on a nice date, she will reduce her attention and start hanging out with other guys

When she’s an adult and married, she will start withholding sex from her husband to make him do things as she wishes.

Trust me, women are the bigger players.

▼ On Having a Short Height/ Disabilities

Nobody is perfect.

And often, you are given the imperfection because it PUSHES YOU.

I know a lot of short kings follow me.

The truth is, I'm not 6 feet either.

I’m right there with you, and I’ve never seen it be a hinderance with girls.

Tom Cruise isn’t either.

Does anybody give a single flying fuck?

No, because we’re such a badass in every other field of work.

as MEN, WE ARE KNOWN BY OUR PRESENCE, NOT BY OUR PICTURE.

If you’re shorter than the guys around you, start using insoles that add a couple of inches to your height. They work fantastic.

But the truth is, You have to OWN your height.

Own your disability.

Crooked teeth? Call them out right at the beginning.

“Yeah, I’m the crooked king” in a manner that people can just tell, it’s stopped bothering you.

In fact, you’ve used it as your ARMOR. As your iDENTITY.

If you have a literal disability, like you can’t walk, can’t play sports, etc etc- I have to say, I don’t know what it feels like so I can’t say I know how you feel.

But… I can certainly say that the worst thing you can do is pity yourself.

You have to again, make the most of the cards you’ve been dealt.

Market your disability.

Become a public figure and pump out content.

People love to see a comeback story.

COMPENSATE FOR YOUR FLAWS BY BEING AT 200 in other attributes.

Just like in a game, there is no perfect 100 overall character.

We all have flaws, and the best way to overcome them is to be at a place where nobody cares about them.

So master game, get jacked, develop an iron mindset, make money, build an amazing social circle.

A short badass beats a tall normie every. single. time.

You got this 👑

▼ **On Creating Options**

Two is one and one is NONE.

I’ve said it before but this needs to be said again.

Have TWO of everything.

Options = Power.

I think it’s very important in this day and age.

You cannot be tied down to ONE anything.

Not to one smartphone, not to one set of friends, not to one woman, not to one country, not to one source of income, not to ONE ANYTHING.

A Man with options is a man with power. The more options, the more power he has. Period.

why is this?

Because options gives you the ability to WALK AWAY.

And the party that's ready to walk away is the party that gets the best deal in negotiations.

You can CHOOSE to be with one set of option, but the mere fact that you have another option?

That's what gives you incredible power and attractiveness.

The option to love recklessly or love faithfully.

The option to settle down with the love of your life, or to keep sleeping with new beautiful women into eternity, or settle down eventually.

To stay or leave- ON YOUR TERMS.

To Choose the kind of social circle you want to be a part of.

and most importantly,

TO DO WHAT YOU WANT, WHEN YOU WANT, WITH WHO YOU WANT.

Game is what will help generate TONS of options in your life.

▼ **On Asking Charismatic Questions**

If I had a dollar every time someone asked me "MR what are some examples of charismatic questions"….

I can't blame them.

Charismatic Questions are a CHEATCODE to building rapport and forming deep bonds with people.

Everyone asks basic questions, nobody remember the question OR THE PERSON WHO ASKED IT.

But when you ask these?

You instantly SHOCK the person for a second and your imprint is forever etched in their soul.

Here the a few from inside Seduction Bible.

= “At what moment did you ….?

= “How did it feels when…?”

= “Let’s say you are going to become really close friends with somebody. What are 2 things you want them to know about you?”

= “If you were to…., would you….”

= “What’s it feel like for you right before you experience an amazing first kiss with a guy?”

That’ll be $1000 😂

Thank me later.

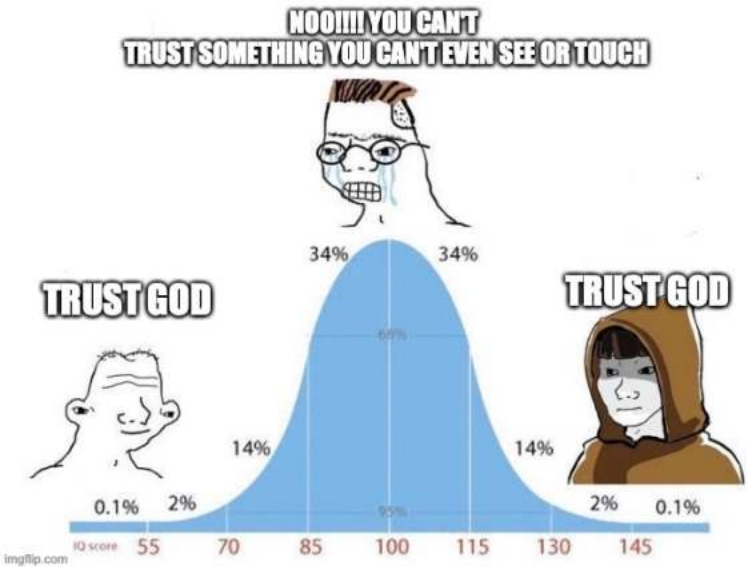
▼ On God

I believe in God.

And I’ve noticed, the ultra poor and the ultra successful do too.

It’s only the masses that don’t.

For further proof on this, just google “bell curve meme” and Thank me later.



(It’s the key to understanding how people function)

I also believe that God is present in YOU.

And that every action you take should be from God’s presence.

As if it’s he who is carrying it out.

I’ve also noticed that when people become ultra ultra successful, they start believing in God.

Look at Tate.

My theory is, these people need someone to submit to.

It’s important for a man to humble himself to SOMEONE.

You can’t be at the top or you will come crashing down.

What are your beliefs on God? Curious to hear them.

▼ **On Rejection, Heartbreak, Trauma, and Negative Memories**

We all have past memories that haunt us to this today, every now and then.

You can either be a victim of them, or a VICTOR.

Rejections, Heartbreaks, Backstabbing, Loss, etc.

Please do not become a woman hater or a blackpilled dude.

Life is AMAZING and Life is HAPPENING FOR YOU.

All of these are the chip on your shoulder which will PROPEL you forward to greatness.

Will it be easy? Fuck NO. But like everything in life, if it was easy? everyone would JUST do it.

Be grateful that it’s hard.

Got rejected more times than you can count?

FANTASTIC.

You’re numb to it now. You’re unfazed by her because what’s the worst she (or the world) can do? Reject you? PFFT.

When you're successful, when it "just clicks", you will look back and smile at yourself for never giving up.

Do you Trust me? (sidenote- also a great line to use with women before you do some wild stuff in bed to her)

If you do, then here's my BET.

You're DESTINED to be great.

I have 100% confidence that you will make it.

Think about all the things that had to align for you to be reading this statement here.

You had to randomly come across my content on social media, FEEL it enough times to get into the Brotherhood, and then have enough TRUST in yourself to make the investment to get this bible.

99.999% of Men will NEVER.

I BELIEVE IN YOU.

▼ **On Porn, Masturbation, and Semen Retention**

Porn and Masturbation are horrible. I won't even waste time going into it because YOU ALREADY KNOW THIS.

If you're really struggling to quit it?

Just get my 30 day quit porn challenge, it's $1 because I want you to have SOME skin in the game.

gum.co/nofapcourse

Semen Retention is an interesting topic, however.

Basically you don't fuck women, or you don't nut. Something like that.

I do think it has it's benefits.

But just retaining semen without any purpose is stupid.

If you have a beautiful girl who you are deeply attracted to, why wouldn't you give her your semen? The hormones that release through it will be way more beneficial than SR.

But…

If you have an important event coming up on the horizon…

A boxing match, for example

Sure, you can retain your semen.

But don't fall for these "memes" floating on the internet.

Don't have a girl? Don't masturbate.

Have a girl? FUCK HER GOOOOOD.

▼ On Female Psychology

Women are followers.

I am often accused of generalising all women, which some believe is an "unfair" representation of them.

The truth is,

I don't generalize.

I ONLY talk about BEAUTIFUL, FEMININE, KIND WOMEN- and what they respond to on a core, evolutionary level.

The "general" basic bitches do not exist in my reality, and neither do they exist in my loyal readers' lives either.

Even then,

All women are biologically the same- but so many have been BRAINWASHED and programmed by society.

This is why understand female psychology at it's core is important.

I have a Free guide on Decoding Female Psychology.

Recommend checking it out to know her better than she knows herself- gum.co/womenthink

It will help you make her get in touch with her feminine, nurturing side.

▼ On Approaching

Cold Approaching is amazing to develop confidence and get the initial few lays.

But once you get through it?

You realise that it's not a very effective way of meeting women, or spending your time.

Why?

Because your approaches don't compound.

You're the same stranger to girl 102 as you were to girl 1.

You have to go through the entire process again and again…

And don't get me wrong- it's AMAZING to build up your confidence and make friends.

But once you have that, most of your time should be going to building your social circle.

Because that's where the ROI is.

Cold Approaching is a KEY life skill that should be kept in your back pocket, like a hidden gun that can be revealed if need be.

As for the openers, they can be

Observational- "I haven't seen so many dudes in one place my entire life"

Cold Reads- "You're a 'yeah, whatever' girl, aren't you"

Disqualifying- "Are you from LA? Ah, you can go" (pull her back and say jk)

Opinion- "Excuse me, I wanted your opinion on something. Do you think it's ok for a guy to be friends with his ex?"

And that's just touching the surface. Seduction Bible has so much more sauce on this.

▼ **On Signs of Attraction**

Women are ALWAYS communicating how they feel towards you.

They don't show this through what she says, but rather what she DOESN'T.

How do you know when she's playing hard to get vs when she's simply not interested?

In my experience, If she's playing HTG, she will still keep "irritating you", poking you to get your attention. If she doesn't even do that, she's just not interested.

Apart from the other obvious ones like breaking her own rules to meet you, here are a few physical cues

= The submissive eyes- she looks at you sexually and then looks down

= Revealing her neck

= Looking at you when everyone is laughing/intense moment

= Often tries to break sexual tension with you

= Licks/Bites her lips (preparing to kiss you)

= Playing with her hair

and most importantly…

She's still standing there with you.

Stop overthinking G.

▼ **On Submissive Women**

Submissive women are some of the happiest women you'll ever find

They stay true to their feminine instincts and want a decisive, dominant male who can lead them-

inside and outside the bedroom.

I believe most women simply FIGHT their instincts due to cultural brainwashing.

Women are the physically weaker sex and the psychologically submissive sex.

That is what she derives MOST pleasure from.

TO HAVE A MAN WHO CAN LEAD HER INSIDE AND OUTSIDE THE BEDROOM.

That is not an opinion, it is FACT.

This is why all the "strong, independent" corporate queens are depressed, single, and lonely "cat moms" living in new york.

While the "oppressed" family mothers raising children far away from the woke society are happy, purposeful and surrounded by LOVE.

WAKE UP.

▼ **On Creating a Man-to-Woman Dynamic:**

Modern relationships are weak because the man acts like the woman and thus, to maintain

the polarity, the woman has to take place of the man.

Both are unhappy.

Instead,

Behave like a Man to Woman

DON'T Behave like a "Friend to friend"

Be playful, yet make your intentions clear.

Break the physical barrier by touching her on the shoulders and arms early, and even pulling

her checks in a disqualifying way when she does something dorky.

Dominant things that turn girls on:-

Taking her by the hand and leading her to wherever you want to go

Holding both her hands using one hand while you f*ck her

Kissing her forehead

Using statements, not questions

▼ **On Charisma**

I believe Charm is the most important trait that will help you lead a happy life, while also feeling fulfilled.

Too many fall in love with suffering, or think that feeling “depressed” is tough.

Sure, that might help you with your goals, but what good is success if you don’t even lead a worthwhile life?

Charisma is built from curiosity.

Being genuinely interested in knowing people, asking the right questions, having a pleasant yet assertive behavior.

Is there a hack to this? From what I've observed, being well read, watches great shows and moves and studying charismatic characters, all works.

Some of my favorite characters to study-

= Don Draper

= Thomas Shelby

= James Bond

= Ari Gold

= Hank Moody

= Tony Stark

▼ **On Meeting Women**

Think: Where do beautiful women accumulate in this country?

Every place has "group classes"- Yoga/Dance/Literally anything.

It's a great way of meeting women AND men because there is already a shared commonality.

Search the popular spots in your area.

Go there, befriend the staff, tell them you're "new in the area" and ask them straight up for the best places to party/cowork/ do xyz activity.

My personal favourites are the Gym and the coffee shop.

Clubs are only good for hookups, and I've stopped doing that because my sexual energy is way too valuable for any random girl who has more bodies than Hillary Clinton.

Apart from that, your Social Circle is going to be huge for meeting women.

▼ **On Approaching Women At the Gym**

I love this because I’m THE MAN in my gym. It’s my territory. the trainer is my homie, the security is my homie, and everyone knows me.

You should have this done too, and this can be done with men too (minus the asking for coffee, lmao)

Day 1- Ask her to alternate the machine and/or just point out her form.

Day 2- Smile, say hi, introduce yourself

Day 3- Tease her “You’re been pretty regular, it’s rare to see that. You trying to get over a breakup?

or/after

… remark on some commonality. Ask her fitness goals, challenge her.

“Really, let me see from the side” 🤣

“Nah, I bet you will quit soon. All women do”

After some banter, say -

“Yo, I gotta head back to the set, but we should grab coffee after the workout. You down?”

If she says “she’s busy”, just say “Ah, so you’re definitely trying to get over a breakup”

Just always building the playful, cheerful vibe everywhere you go.

There’s your gym masterclass 🎩

▼ **On Dates**

Your mindset on dates should be-

“I’m curious to see if you’re my type, and I hope you are because you will have the best time

of your life around me. And if you’re not? That’s too bad”

Good first date ideas?

I'll talk about ONE that NOBODY talks about.

Spa dates.

Extremely rare, and instantly sets you apart from 99% guys + she's relaxed = less resistance to anything you suggest later on

What to do after the first date? Assuming that everything went well, Send a voice note next

morning telling her what a great time you had, bonus points for calling back to a

funny/silly/special moment you two shared

Don't become her texting buddy. Tell her jokingly "if you ask nicely I'll take you to an even

better place/ fun experience next time" Then silence for a couple of days.

After which you setup the next date.

▼ On Conversation Topics

Women don't care what topic you're talking about.

Because she's not listening to the words anyway.

She's watching your sub communications, tonality, how people around you respond to you, and how certain you are in what you say.

Less logic, more emotions.

Less socially acceptable topics, more VIBING.

her favorite topic however, is HERSELF.

But don't do it in a validating way, do it in a cocky, teasing, disqualifying way.
If she says she's from Brazil, tell her
"So is it true that girls from Brazil are bad kissers?"

Conversation threading is HUGE.

You need to be able to create threads out of topics.

If she tells you something about her friend- pick 2 possible threads from it

1. How did you meet her
2. Wow I remember knowing a similar person

Etc etc.

Big mistake is thinking you need to constantly come up with words.
you can literally pat her head, pull her cheeks, do a staring fight and hold that tension with a smirk.
Vibe > Words.
self amusing, state observations about the environment, or just tease her for being such a dork.

Learn the art of asking… Charismatic Questions!

▼ **On Female Friends**

I believe it's important to have female friends.

It's fun, even.

As a man on a mission, there will be times when you do not "See" women sexually.

In those times, these women will enrich your life with her radiant, positive, feminine energy.

The key, however, is YOU should be the one who friend zones her, not the other way around.

It's important to still flirt, tease and disqualify her to build up investment from her side.

Once she's responding well, you throw the curveball.

Just say something like "wow…that's cute. you're like my little sister"

or "dude that's exactly what I do. We're gonna like best friends"

Beyond the obvious female energy, these women help you so, so much in other ways.

She will introduce you to and set you up with her girlfriends,

She will approach women in the club for you,

And she will even often be there for you when nobody else is.

Even Tate's personal assistant is a female (who is also the ONLY person apart for Tate & Tristan to have driven their buggati)

Trust me, you're missing out on the benefits.

Don't listen to redpill dorks that tell you otherwise. they're lonely.

▼ **On Men vs Women**

It's never women vs men.

Women are our biggest cheerleaders.

It's always been Women AND Men vs THEM.

Who are "Them"?

THEM are the enemies.

No, they're not feminists.

They're not even the mainstream media.

The above 2 are just vehicles used by "THEM" to creating a rift between men and women.

THEM, gentlemen, are WEAK MEN.

▼ **On The Differences between Women and Men**

Men and women are like the ying and yang.

There is beauty in the differences.

Men build, women preserve.

Men dominate, women submit.

Men conquer, women nurture.

Men lead. women follow

Men need loyalty, women need love.

Men grow by challenge. Women grow by praise.

Shy men are weird. Shy women are attractive.

To learn more on this topic, I suggest going through THIS thread I wrote- https://twitter.com/becomeamanagain/status/1595097582799183879?s=46&t=VIVsFtTeBGSB80vlueP0fQ

▼ **On Weak Men**

Weak Men have always been the enemy.

At this time in human history, weak men are ruling the world.

They are the ones that created hard times.

They are the ones that told others to stay at home over the last 2 years.\

Weak men are the ones that want women to turn slutty because that would make “Getting laid” easier for them.

Weak men are the ones that try to pull others down like crabs in a bucket.

They is not much I dislike about this world, but I absolutely HATE weak men.

Hard Times are here.

But…

Hard Times create High-Value Men.

▼ **On Masculine Friendships**

I preach sharing masculine love with your brothers.

Society will often label you “gay” for expressing your love for your homies, you know why?

Because they’re afraid of what a STRONG TRIBE OF MEN CAN DO TO THE WORLD.

They’re afraid of your power.

P.S-

When your homies need your help

Drop everything

Because they’ve earned that respect. They’ve been with you through the bottom and they push you to climb to the top.

Money is replaceable, but high-value, masculine friendships are not.

▼ On Social Circle

Social Circle is my favorite topic, because it’s the KEY to the game going forward.

Nothing has a higher ROI in 2023 and onwards.

Friends help friends.

Building a social circle is fun. Genuinely.

But before you do that, YOU MUST ENJOY YOUR OWN COMPANY.

Learn to do things SOLO.

People will love your company only when you first love your own.

The key is to recruit people who are the best at something.

One is best at bringing the party, one is great at money, one is great with networking, one brings the funny elements, etc etc.

The ratio should be equal, although you can and should have different social circles for different purposes. Some will have more girls, some will have more guys.

On the other hand, as you grow wiser, stronger and successful, you will lose touch with a lot of old friends. You simply won’t be able to relate. That’s alright because it’s the healthy churn of life.

How do you increase your social value though?

Think- what do you have that others want? or better yet, NEED?

Do you bring fun, excitement and amazing emotions to the table?

Do you have access to women?

Different circles have different needs, and to penetrate them, you need to put yourself into their radar.

Like I've mentioned later here, you must go to places of common interest.

Then FIND RAPPORT through stories, shared experiences, charismatic questions.

What this does is, it helps you DIG FOR COMMONALITIES.

Then, to have a reason to keep in touch, you plan a future event, like having a drink with them to doing the common interest again.

I could go on and on about this.

I have a 50+ page in depth guide on this called the Social Circle Bible. (It's 1 of 29 guides inside my bestselling course, The Seduction Bible) **Link HERE** if you want to check it out.

▼ On Books

If I got a dollar every time someone asked me "MR what books should I read to master game?", I'd be richer than Elon Musk.

Jokes aside…

I get it.

Reading books is fun.

It feels like progress.

But my issue is, most books are crap. They have 999 pages of bs and 1 page of value.

You, as a busy man, simply do not have the time to go through all of them.

The younger you are, the more books you should read.

As you grow older, reduce time reading and spend more time OUTSIDE, taking action. Because eventually, nobody cares about your knowledge.

The goal is to convert knowledge into real life experiences.

With that said, here are my top books that made a huge impact on my life

= The Way of the Superior man

= Psycho Cybernetics

= The Fountainhead

= The Alabaster Girl

▼ **On Storytelling**

“Everything in life is walking into rooms and saying stuff”

This statement is so deep and so true.

Storytelling at its core is being able to convey thoughts, ideas, emotions in a digestible, charming way.

When two men meet up, what do they talk about?

Women, Sports, AND STORIES. MEMORIES. PAST TALES.

The leader of a tribe is almost always the one who can tell amazing stories.

= Become animated in your body language: Use hand gestures, face reactions, make yourself larger than life.

I would highly suggest OBSERVING great storytellers.

world leaders(JFK), highly influential men (Tate),and most importantly… The people around you.

Everybody is always telling some story.

▼ **On Instagram**

I used to hate Instagram to the point where I wasn’t even on it

I still hate Instagram, but now I'm wise enough to use it in my favor.

Because let’s be honest.

People meet more online than offline nowadays.

And Instagram is the #1 Place to meet women.

QUALITY WOMEN.

Dating apps aren’t good for most dudes because you genuinely need to be top 1% in looks for it to work for you.

But with Instagram? You can leverage your amazing life, DM girls you met, and it’s just pretty much your online resume at this point.

Here’s how to OPTIMISE your IG:

= Photos with girls, leaning into you, laughing with you, looking at you (friendzone more women g)

= With your crew of killers (social circle) preferably at scenic locations to display power

= DMing funny/relatable memes now and then with girls (to stay top of mind)

= Highlights should be put into categories like Traveling, Partying, Memories, and some work

The key is to make it LOOK effortless.

(Because the truth is, everyone with a powerful Instagram puts a SHIT-TON of effort into it, trust me.

The goal? To convey your fun, amazing life and generate FOMO in others, and mystery in women.

Women should looks at it and go “wow, this guy lives an interesting life. I want to find out more”

▼ **On Fear of Failure**

Bro, what about the fear of staying the fucking same?

Of living the same life,

talking to the same mediocre people,

doing the same average things you do everyday?

Stagnation is really the worst thing to happen to a man.

Better to fail than to remain the same.

At least you learn valuable lessons.

Everyone feels the fear.

Few do it anyway.

▼ **On Networking/Bonds**

The #1 threat to men as they grow older is not cancer or diabetes.

It’s the LACK of masculine, high-value relationships with other men.

I’m a true believer in the thought that “One Strong Bond with a Brother is worth 20 hoes”

Let’s start with WHERE can you meet such men.

I’ve found that Gyms & Sports/Boxing are the best place to meet such men.

Think about it.

Extreme situations form deep bonds (also why ex-military dudes stay lifelong homies)

A sense of shared mission, strong emotions, extreme conditions, is when friends turn into brothers.

Online Communities are also huge now, in 2023 and will only increase in importance.

I would highly suggest joining GATED communities in your space.

No, not networking ones. They are ghey. If everyone wants to network, nobody is worth networking with.

The right ones are those with a PURPOSE. Maybe everyone is there to make money (The Real World). To learn Game (Seduction Bible Mastermind). To Discuss Philosophy. To Play Golf. Sports. ANYTHING.

The Barrier to entry should preferably be BOTH money + qualities/values.

How to find these? Follow the right leaders in your space and you will eventually come across them.

Also, please don’t be a “How do I add value to your life” guy. You should KNOW going in HOW you can add value to their life.

In fact, the best way to add value…

Is just being a trustworthy, cool, gives-good-vibes FRIEND.

▼ On Women being Replaceable

There are 3,904,727,342 Females in this world.

Trust me, she’s replaceable.

Of course, some dudes will say “But not everyone is fuckable!”

Alright. Let’s say, 25% are in the prime age range (18-28)

That’s about 1,000,000,000

Of course, not everyone is your type either.

But even if 10% are your type- beautiful, feminine, submissive, kind, etc

that’s 100,000,000

100 MILLION FEMALES to choose from.

Trust me, she’s replaceable.

▼ **On Women Being Followers**

Women worry too much about what society thinks of them.

And rightly so- because in older days, women were banished from society if found guilty of “haram”

This is why women want to keep casual flings “discreet”, and also why women don’t open up sexually to random guys in front of her girlfriends/guy friends.

This brings my famous saying,

To game her, you must game her friends.

Give her friends all your attention, ask charismatic questions, flirt even. Her friends will always talk about you with her.

“Oh, btw where’s that guy? He was so chill”

▼ **On Drama**

Drama is the key to a happy relationship.

I DONT mean negative, frustrating, blood sucking drama.

I mean in the literal sense of the word.

Dictionary definition of Drama:

an exciting, emotional, or unexpected event or circumstance

Let’s reverse engineer it then.

Exciting: Women feel excited about things they haven’t done before. Places they haven’t been, positions they haven’t been fucked in.

Take her on an adventure, to new places, and fuck her in that place in a new position. basically.

Emotional:

Something that induces STRONG emotions- This could be watching movies together, talking about your mission purpose and her role in it, and just good ol sex.

Unexpected Event:

Be unpredictable.

She doesn’t expect you to remember the little things (like her favorite chocolate)- bring that on the way to meet her.

Tickle her out of nowhere.

Pick her up and take her right then and there.

Learn Game.

Every girl is an attention seeker. You should be worried if she isn't seeking attention from you.

As long as you're making her work for your attention first, attraction is maintained.

Carrot and stick approach.

Reward good behavior, vice Versa.

Always be the first one to pull attention back.

Women have insane mood swings.
It's not always about you. she's probably just angry about getting older and growing unattractive.

Don't fight. Don't Argue.

Cut off all attention

Simply go out with any one of the hundreds of women interested in you.

She sees and goes "Wow, he doesn't need me and if I misbehave he can get any girl as hot as me instantly"

keep dominating your goals, she will come around. The key it to not let her bring her sad face to spoil your party. Either she tells you what's up or she takes her b!tchy face somewhere else

▼ **On Women Hating & The Dark Side of Redpill/Game**

Back when I was new to the redpill and game, I went down the route of “I am better than everyone else” and that “nobody is worth my time”

Most of my friends left me, and although I was still moving forward in my life, i had nobody to share the great moments with.

Then It hit me- A lot of the redpill, MGTOW, PUA stuff comes from men who have HATE & RAGE for this world.

Unfortunately young guys don’t understand the difference, the nuance, and they become angry men without a fun life.Because most guys new to the game START HATING WOMEN.

They can’t tolerate seeing anything positive said about women.

They think women are the enemy, and they think “loving” women = being a simp.

I know you’ve been hurt by a girl recently.

The wound is still fresh and paining heavily.

I get that.

I was there not long ago.

But I want you to understand-

Redpill often teaches you that Women are the ENEMY.

The intentions are good, the redpill space (most of it) wants to inform you.

But most guys take every word to HEART.

For most guys, it becomes too many steps too soon, and they stumble down.

They were taught a lot of brutal truths that they weren’t ready to hear.

I truly feel for them.

But here’s my Belief-

Women are NOT the enemy.

WOMEN ARE BEAUTIFUL.

Feminists are not the enemy, either.

Then who is the enemy? WEAK MEN.

Met a b!tchy girl?

There are 10 beautiful ones for every b!tchy girl.

And that’s EXACTLY why learning GAME and being able to attract the right kind of women is important.

Notice how I said “Women” and not any one particular woman.

Because It’s about LOVING the Feminine as a whole.

Understanding her fundamental truths, and being able to read between the words makes you smile.

YOU “JUST GET HER”

How is this different from simping?

It’s simping when you need something from women.

It’s NOT simping when you operate from the frame of “love”

You give her your strong, dominating, masculine energy.

You love her, but you’re always willing to walk away, you know why?

Because you’re a purposeful man on his path.

You have things more important than her.

I’m not telling you to send flowers and do sh!t you don’t want to do.

Disqualify, Tease, Challenge, Be an asshole, Be self amusing… (All the things you learned in the Q&A bibLE i made for you)

BUT Do it from the frame of wanting to create beautiful, intimate experiences for the BOTH OF YOU.

Many haters will say-

“But but should we just accept women for their flaws and bad behaviors?”

Bruh, No.

You need to have standards and boundaries with women in your life- and if she crosses them, SHE'S OUT.

You qualify women for the traits you want.

A Man who loves women is loved by women.

▼ On Escalation

The fuck a girl, you need to start talking about fucking, first.

Most guys stick to comfortable topics which make sure they comfortably end up in the friendzone.

The best way to escalate is to start touching her kneecap, shoulder, and waist every time you two have a moment.

I'd even pull her cheeks when she's acting like a cute dork.

And combine this with opening the topic of sex.

Say "Isn't it weird, how repressed the topic of sex is these days, even though it's the most natural thing in the world"

Say this and look away.

She will agree and think "wow, he's so comfortable and non judgmental about sex. he probably gets it a lot"

▼ On Taking Women on an Emotional Rollercoaster

I keep telling guys, that the key to RETAINING her attraction is to take her on an emotional rollercoaster of STRONG Emotions.

I said strong. doesn't have to always be positive.

The paradigm here is- You're unpredictable and full of polarising, strong emotions and actions.

One moment you're completely into her, teasing, laughing, love,

The next?

You’re angry, pissed off, remove attention, ghost her.

Think how a rollercoaster moves.

There is a base (normal conversation)

There is a buildup (sexual tension)

There is a climax (Sex)

There is the signature fall (Love/Affection)

There are the twists and turns (drama/fights etc)

And it turns to the base

This is an ART, not a science.

You have to internalise this into just the kind of guy you are.

You don't let your affection turn into blindness, and you don’t let your anger turn into resentment.

You’re a very DYNAMIC Man.

▼ **On Gifts and the Greatest Gift one can give to women**

Gifts are great; WHEN THEY ARE EARNED.

If she’s being compliant, feminine, making my life easier?

Of course I will send flowers occasionally, when she’s least expecting it, or bring her favorite chocolate.

It’s not about the size of the gift, but the emotion.

That “you remembered” even when she thinks you didn’t.

But nothing can match with the greatest gift…

The GIFT OF MISSING YOU.

Seduction requires space.

If you’re always around each other, attraction disappears and you become “friends”

As a high-value man, you must have a separate life outside her that she doesn’t know much about. It also adds to the mystery.

I'd even go full days without any contact, like I fell of the face of the earth.

Because when I'm back, her face lights up like Christmas Eve.

▼ **On Sexual Relationships & Maintaining, Increasing Love**

That's right.

I call it a sexual relationship instead of simply a "relationship" because great sex is KEY.

Along with that, you must be the IRON PILLAR in her life.

Strong, certain, decisive, dominating.

Never seeking comfort in her, apart from the once in a blue moon healing energy you seek from her.

The key to maintaining, even increasing love is-

You open up new threads about your life, your past and your future and keep them open for as long as you can.

You give her tiny bits, breadcrumbs about it, and stretching it out as long as possible so that she feels as if she's "getting to know you" all the time.

Most relationships dry out because there is no NEWNESS.

You both know each other inside out.

"Lovers" don't know each other inside out.

Friends do.

But most importantly, you must be willing to walk away at any moment.

Even if you love her.

ESPECIALLY if you love her.

It's not about breaking her heart, it's about sending a message.

▼ **On Retention**

You followed my advice, you got the girl, she's hooked…

BUT

things become “a little weird”

That’s because you got attached and became clingy.

Because you CHANGED.

Because you fell for the “betadization process” (Taming the alpha to become the beta)

The key to retention is to set BOUNDARIES AND REMAIN THE SAME MAN YOU WERE- the man she was attracted to.

of course, the teasing, disqualifying become A BIT LESS, but loosely, you’re still the same man overall.

The key is to keep talking to other women,

To keep flirting with other women, especially when she’s around.

To have social circles outside her

To still reprimand her when she pisses you off and to reward her with attention when she’s being a good girl.

What gets validated, get repeated.

She cannot get comfortable with the idea of you.

In fact, when she sees that other girls respond well to you, her attraction will increase and add passion to the already existing “Love” she has for you.

Women always want to be the chaser, never the one “chased”

Again, this is an ART.

Which means, there is NO SINGLE WAY of doing this correctly.

Add this into you own best natural self and execute.

1) New experiences, new substances, new places every month. Doesn’t have to be expensive. Just DIFFERENT.

2) Remember to say no often.

3) The shorter the time span between an argument and a conversation about it, the healthier the relationship. Kill the monster when it’s small.

▼ On Sex

Sex is the foundation on which a strong, healthy masculine-feminine relationship is built.

I would argue, that it's the most important element, even more than attraction.

Because when attraction turns to love and routine kicks in, it's the SEX that keeps the passion burning.

Especially because women NEED sex way more than men do.

Just read Nancy Friday's "My Secret Garden"

Read it? Great. Now you are ready to become a Masterful lover.

A key note about sex is, guys think that it's ONLY about pleasing the woman.

And the truth is, inside the bed, it mostly is.

Of course you enjoy the sex too, and she will do WILD things beyond your imagination.

BUT. Sex is mostly FOR WOMEN.

Men who complain "But but what about my pleasure" are so shortsighted in life.

You please her inside the bed so she treats you like a GOD outside it.

Understand.

A sexually satisfied woman will go above and beyond to serve you and propel you towards her goals.

She will cook, clean, drain your balls after a hard day's work, and treat you like the rightful king in public.

What's more valuable for you?

To get a better momentary orgasm like a teenage boy, OR

to be respected by men and women everywhere you go as you become more and more successful thanks to your girl's behavior?

Think BIG, think long. Sex is FOR women. But what happens after sex is ALL FOR YOU.

(I have to shamelessly plug my Sex Mastery Course Because Of the Sheer Power it has to Do For You exactly what I described. Get it HERE- gum.co/orgasmmastery

▼ On Alter Ego & Playing a Character

I believe every man plays a character in different areas of life.

You cannot afford to be a single dimensional person.

You cannot box yourself in to “I am like this, I am not like this”

You should have broad principles and flexible rules.

Building an alter ego is probably the MOST important element of changing your life.

If you create a new self, there won’t be any past memories holding your “alter ego” back.

1. What is the Purpose of creating your alter ego?

- Negative memories attached to the current persona
  • Stepping into a New Industry
  • Moving on from a breakup
  • Carving a new personality
  • Becoming a Masculine and Polarizing Man

Name your Alter Ego.

- What does he do that you can't?
  • How does he speak?
  • What words does he use?
  • Where does he go?
  • What does he wear?
  • What thoughts keep looping inside his head?

Select a Role Model-

This could be a fictional character or someone you admire.

Good ones-

- Tyler Durden- Carefree and Uninhibited
  • Hank Moody- Womanizer
  • James Bond- Masculine.

- Ari Gold- Bold, DGAF Personality
- Michael Corleone- Composed, Dominating

Music:

Don't listen to the songs that remind you of your ex.

Listen to songs that amp you up.

Pick ONE SONG and listen to them on repeat to activate your alter ego.

That song is a "switch" to get into your alter ego's state.

Thoughts/Words:

Your thoughts & words define your life.

When in doubt, ask yourself- what would *Your Role Model* do?

Ex- Thought loop- "I am an acting-taking badass"

Replace common words with better ones.

Ex- "I'm good" becomes "I'm fantastic/ I'm sublime"

Anchors are crucial for building an alter ego.

Something you Wear that switches your Alter Ego on and off.

Keep using the anchor till only the Alter Ego remains.

Ex- Pendant, Clothing, Rings Eyewear, etc.

▼ **On Brainwashing**

"You should be ashamed of your Masculinity*

Society has fed Men this bullshit ideology for far too long.

You're among the fortunate few men who came across this side of twitter.

You read my tweets and your eyes opened for the first time in ages.

But Most Men are not so lucky.

Unfortunately, they've been successfully brainwashed to believe that they should be submissive and follow others.

For the first time in history, there is a HUGE DIVIDE between The top 1% and the bottom 99%.

YES- THE “BOTTOM 99%”

I consider 99% of the population to be at the bottom because they’re all sheep- Brainwashed beyond saving, they watch the same crap each day, eat shit, play video games and smoke weed to escape their reality for a few moments.

There is no “Middle” anymore.

Over the last 2 years, people either “chose” to be in the Top 1%, or fell into the bottom 99% like everybody else.

You’re either at the top- DOMINATING your Path, Women, and your Life,

OR

you’re at the Bottom- Watching Netflix, Living a passionless life where you don’t even have control over anything.

Start Brainwashing yourself

. The masses choose to be brainwashed by negative, mediocre influences

. You, on the other hand, create an echo chamber of badass thoughts, energy, and actions.

Easiest way to win. ❤️‍🔥

▼ **On The Cycle of Relationships-**

The Cycle of Relationships goes somewhat like this-

= girl is attracted to alpha

girl tries to tame alpha

alpha becomes beta

girl leaves beta for an alpha

🔁

This is what happens with 99% of men in relationships.

And the biggest redpill is, women do this SUBCONSCIOUSLY.

Going back to female nature once again.

Evolutionarily, women needed men to physically protect them from wild beasts, natural calamities, cannibals, and whatnot.

But she knew she could not pin down an alpha male.

The alpha would just go on another adventure and fuck other women.

Hence, she learned to tame the alpha and turn him into a beta.

Why?

So he would stay home and protect, provide, and raise her offsprings.

Mind blown?

Here's what even crazier- she does this by small "Compliance" building exercises.

By asking you to "stay 5 more minutes baby" even when she knows you have work to do.

By asking you to have an extra slice of pizza.

By asking you to watch Netflix with her even when you have work next morning.

How to prevent this?

Well, that is explained inside the Seduction Bible. 😉

▼ On Long Distance Relationships

They are BRUTAL.

You both pretend to be in love, wasting time, talking to "pixels on a screen", while inevitably falling in love with someone else short-distance.

The only circumstance under which long distance relationships can function is if it's temporary.

6 months MAXIMUM.

During which, you will need to be a bit "toxic" to remain top of her mind.

You will have to end calls on a harsh note, you will need to be an asshole at times, so that every time some other dudes hits her up, she can't even respond because she's so busy thinking about you.

It’s evil, I know. Dark Triad stuff. hence, I say avoid it.

▼ **On Reputation**

I keep telling guys to invest in building a great reputation in your circle.

Nothing gives a higher return on investment than having a strong reputation.

Good style sense, hanging out at aesthetic locations, using the right words, having a powerful social circle of beautiful women and badass men.

And most importantly, being “known” for a particular skill.

This could be being generous with money, or being a womanizer, or being amazing at speaking; the key is- you MUST have a North Star quality that you are known by.

Who you are speaks so loudly, that people can’t hear a word you say.

▼ **On University & Higher Education**

University education is a SCAM.

But Going to university is extremely important.

Not for education, no (you do that outside, online, courses, building side hustles, talking to based professors, etc)

University is good, excuse me, FUCKING AMAZING for ONE thing only-

NETWORKING & Creating LIFELONG FRIENDSHIPS.

But you don’t want to take a $100,000 loan for that, obviously.

Instead, go to a state/public university with a reputation for being a party hub.

Socialize, make a ton of friends- both popular and nerdy.

Get in the mix and organise the best parties and events.

Your social and sex life will go through the roof.

To make sure you don’t lose yourself in it, learn timeless skills like sales, game or coding on the side.

Build side hustles.

Skills + Knowing people = success.

▼ **On Men being Nice vs Kind**

This is one of my trademark opinions.

Kind Men: Powerful, ruthless, high-value, but choose to be nice to her until given a reason not to be.

Nice Men: Weak, Needy, Emotionally unstable, “nice”in an effort to get something from her.

The place where your behavior originates from is KEY.

This is also the difference between “Pursuing” and “Simping”

You pursue women when you’re clear in your intentions while not “needing her”

You’re already complete and fulfilled with life, and want to see if she’s worthy of playing a part.

You simp when you’re attached to the outcome, when you’re DESPERATE.

The Simp is hoping to “complete himself” through her.

While I’m on the topic, I’ll also talk about Flirting vs Tryhard.

When you flirt, you also take a bit of the validation AWAY from her at the end.

“I like how you’re more than a pretty face. Although, you’re still too tall for me”

there’s a TAKEAWAY at the end.

Simping is ONLY giving compliments.

This is an art, and I'm just giving you IDEAS to play around with. Don’t be a robot G.

▼ **On Building Up Sexual Tension**

The more sexual tension you can build up, the lesser time it will take her to go from meeting to sleeping with you.

Why?

It’s simple.

Women want to RELEASE the tension.

The most common way sexual tension is released is LAUGHING.

This is also why I tell guys to smirk instead of laughing whenever possible.

You're smirking, making strong eye contact with her, INCREASING THE SEXUAL TENSION.

In fact, while doing this, you can add a “Stop making me attracted to you”

You’re blaming the attraction on her, staring into her soul, speaking with a relaxed, sexual tonality.

You have no idea how many times girls have told me afterwards that simply doing this made her fucking wet down there.

Bonus- Start using sexually suggestive words like “choking”, “panting” ripped”, etc in normal sentences, and talk about sex stories (yours/friends’/celebrities) like it’s no big deal.

P.S- Never laugh at your own jokes.

Of course, I talk about the advanced techniques, dirty talk, positions and vitamins in my course on Sex Mastery, the Bible of Pleasure- gum.co/orgasmmastery

▼ **On Texting**

Texting is all about the build up to the actual meet.

It’s like foreplay to you two meeting.

It’s NEVER a means of actual communication.

Women only text their friend zoned guys all day, and disappear at night to meet the guy she’s actually fucking.

Don’t be one of her “texting buddies”

DMing girls on IG only makes sense when you have an amazing profile (search Instagram on this doc)

You should mirror her pace of texting, and if she doesn’t respond well? Switch to voice notes or call.

Remember, every text is a build up to the actual meet.

Keep it casual and light.

Always frame her as the chaser.

Always be the one to end the texting session by leaving her on read. No need to write the extra “Okay” or “cool”

Just say “I gotta head back to * fun thing you’re doing with your social circle *, I’ll call you later/let’s meet *details * “

A fun way to ask her out after initial banter is to say “I'm looking for a cute girl to grab drinks with… know any?”

▼ On Getting Out of the Friendzone

Ready to hear a SHOCKING revelation?

Women never friendzone men.

It’s men who friendzone themselves by acting like a friend-friend to women.

Once you’re inside, it is hard to get outside.

You have to remove her current association with you.

Which requires time.

At least 6 months, where you completely cut off contact from her.

At the same time, you hit the gym, learn game, be more guarding with you time, and then “accidentally” run into her.

This time, you use game.

You’re extremely sexual, teasing, flirting right from the get go.

You SHOCK her body and mind into giving a new “first impression” of you.

▼ On Frame

Frame is so important man, I can’t stress it enough.

Frame is perspective.

Half empty or half full? Both are correct, but whoever can assert their point strongly, wins.

Strong frame comes from a strong sense of self and of reality.

To have a strong frame, you must “reframe” events and put the other person’s frame into a smaller “box”

If they say “Manipulating women is bad”

You say- “Are you telling me women aren’t wise enough to make their own decisions?”

You’ve put their manipulation argument in a smaller box but covering it with a bigger one- “Women are strong and independent”

in relationships, both with men and women, you must assert your frame early and often.

This is why women try to get your attention after you ghost her.

She put her chips in, you called her bluff, and now she realises she fucked up.

For example, when a girl tries to make you jealous by flirting with other guys, you simply say “You know, you’re cute when you try to make me jealous. If you try a little harder, I might even give you a few point” Say that with a smirk.

▼ **On Shit Tests**

Shit Tests are just a way of women testing to see if you really are THE MAN, or a beta male “faking” to be THE MAN.

They’re a POSITIVE SIGN.

If she shit tests you, she gives a shit about you.

And she does this subconsciously, again this goes back to evolutionary history, when women NEEDED to be with the best man possible to ensure survival.

How to spot a shit test?

Well, anytime she tries to test your masculinity or authority, she’s shit testing you.

It’s usually accompanied with a sly smirk, as a sign that she’s “playing”

it’s not the same as disrespect. Disrespect is when her tonality and body language is dismissive.

How to Pass these effortlessly?

Well, I give all the lines and principles inside the Shit Tests Bible (part of the Seduction Bible), but I'll give your the underlying principle and a few lines here.

The goal is to think-

"How is this her trying to attract me?"

For example, if she asks you, Are you trying to get in my pants?"

You go-

"Woah, easy tiger. I have a 10 date rule"

You flip it back on her and exaggerate it to a point where its sexual yet still funny.

The tonality should always be playful and intense eye contact.

If she says- "I bet you say these things to a lot of girls"

You say-

"Actually, you're the 89th girl I'm saying this to today. I practice this every morning and every night before bed."

You NEVER reply to a shit test logically.

Or if she asks you- "Why do you want to know so much about me?"

You say- "You're asking the wrong question. The real question is, what happens if you're not worth knowing?"

And if you don't know how to respond, just ignore her, look into the distance and change the topic.

▼ **On Women Misbehaving & Talking to their Ex**

Often, women will do stupid stuff like talk to her ex.

Obviously, no guy wants that.

It's a major red flag.

But, how do you convey your disapproval and fix her habit in a way that doesn't come off insecure?

You can't say "If you want me in your life you should completely cut off your ex"

She’s a rebel and she’ll just fall deeper in love with her ex.

No, what you do is TAKE CONTROL and assert your frame.

Simply say-

“Look, I don’t take women seriously who talk to their ex. It’s disrespectful and proves that you don’t take us seriously. Girls like that are not my type. If you want to, that’s fine. But don’t expect me to take you seriously.”

And after doing this?

You should talk to other women and let her know that you got OPTIONS.

That possibility of loss + no bs talk with ensure she never talks to her ex again.

And if she still does?

Thank god you found out this red flag. She’s for the streets.

▼ **On Post Sex Behavior**

Any beautiful, high quality women worth her salt will ALWAYS text back or reach out FIRST after having sex with you.

Why?

Because if her body count is low, adding another body is a BIG DEAL for her.

She will try, try, and try again to keep you in her life.

If she doesn’t even have the humility to text you the next morning?

She’s for the streets bro. LITERALLY.

(This is also a great way of testing if she’s high quality)

Of course, once she reaches out, you are free to give her your attention.

She has proven her worth and you must reward that by telling her what a wonderful time you had and calling back to a moment that you two had, maybe it was the look on her face when you were inside her, maybe it was the pillow talk afterwards.

▼ **On Green & Red Flags**

The best way to understand whether she is the “right kind” or not is to OBSERVE her ENVIRONMENT.

Look at her friends,

Her relationship with her family,

Her role models,

Her values and beliefs on life and the world

If they are STRONGLY in line with the mainstream, she’s not the one.

Here are Some 🟩

= Family/Traditional Values

= Wants kids & talks about them with you

= No Tattoos (1-2 small ones in areas where ONLY you can see them are fine)

= Good Relationship with father

= Likes to wear Floral Dresses

= Positive Outlook on life

= Does not agree with woke culture

= Submissive

= Has a Good friend circle who like you (because they will stop her from leaving you when shit hits the fan)

Here’s some 🚩

= Bad relationship with father

= Big Tattoos in public areas of my body

= Negative outlook on life

= Lawyer

= Supports Woke culture

= Goes out partying every other night

= Male friends

= posts a lot on social media

= unnatural hair color (brownish/blonde, whatever that combination is called, is fine)

I could explain these on and on, but it's a rabbit hole discussion. Just Trust me on these on move on.

▼ **On being a good role model and helping others**

The only way to do this is to set a great example.

It's about planting seeds in their head,

then doing your own things and letting them grow the garden in their head by planting the seeds.l

Constant preaching is just gonna make others hate you and the idea.

But when you plant an idea, leave it at that, AND THEY WATCH YOU ABSOLUTELY CRUSH IT?

They will automatically hang onto your every word and take further action on it.

▼ **On Vices**

I believe every man should have ONE vice.

In fact, I encourage you to choose your vice, and choose carefully before your environment chooses it for you.

You like weed? Cool, do it under CONTROL and deliberately. Find out the best use you can for it.

You like smoking? Cool. same thing. maybe you do it when you meet other powerful people. (Cigars are a great way to reduce your smoking.)

It could even be a less harmful vice like being addicted to a certain kind of food, or hobby, or kind of women.

I don't recommend these, but if you REALLY enjoy them, then at least use them in your favor.

The key is CONTROLLING your use so that it does not turn into abuse.

Notice what you do BEST when under the influence of these vices.

Maybe you work well, maybe your socialise well, maybe you party well.

WELL, THEN DO ONLY THAT!

I do not trust men who have zero vices.

It means they have the biggest vice of all- a vice with maintaining an image of perfection.

Think about it. 🥂

▼ **On Compensating for your Reputation**

We all have a reputation.

it's what people say about you when you're not in the room.

Of course, you should be consciously creating your reputation.

And often, being in the game, your reputation will become that of a "womanizer"

Of someone who "is an asshole"

Don't worry, because this is a blessing in disguise

It does two things-

1) Women are automatically intrigued by you.

2) It gives you the opportunity to compensate.

The asshole who "turned out to be niceish in person" is attractive.

The nice guy who "he was nice" is not.

Women want to say the bad boy from himself.

If you have that reputation, you simply say-

"Look, I know you think I'm just playing around, and that I will break your heart. And honestly, I have been so far. And I beat myself up every time over it because you're such an amazing girl. You bring out the better side in me. i'm trying to change but it's so hard."

Evil, I know.

▼ **The Money Game**

Money gives you access, it doesn't buy you attraction or results.

How you utilise that access determines your success.

As Tate famously says, nerd pulling out of a Lambo = rich nerd.

High-value man pulling out of a lambs = rich mafia powerful attractive dude

the best way to use money (from personal experience + talking to other multi-millionaires) is to get into elite circles, health systems, mentors, and timeless skills (cough game cough)

Don't hoard money. like a river kept against a dam, it destroys life and gives place for viruses and fungi to take birth.

Invest in YOURSELF.

And if you are broke,

= be aware of all the changes happening in the world, look at what the rich young dudes are doing, stay ahead of trends. this requires hard research which nobody can do for you.

= master sales, human psychology, persuasion, influence (all of which are part of GAME)

= Join high level communities in your space with a BARRIER TO ENTRY. The second part is key because if everyone can join, its probably not valuable. Again, follow the right people in your space and you will eventually get an opportunity to join these.

▼ **On Chaos & the World Turning into a "dark" place**

There is a lot of fear mongering going around at the time of this writing (2022-23) but the truth is, it's always been like this.

Look at history- there was always two sides of the same story.

The have-nots and the have-yachts

The winners always WIN, no matter which way the pendulum swings.

Chaos is just another word for opportunity.

These are the times when money, power, women, everything changes hands.

BE EXCITED.

This is the BEST TIME TO BE ALIVE.

Someone reading this in 2040 will say the same thing.

▼ **Bless that Which You want to Receive**

BLESS THAT WHICH YOU WANT TO RECEIVE.

This is the MOST IMPORTANT PHILOSOPHY to ACHIEVE your Goals.

What are we taught to do from a very young age by society?

We're told to hate the successful- We're told that the rich are bad and that money and power is the soul of all evil .

NO WONDER THESE PEOPLE NEVER SUCCEEDED.

They never blessed that which they wanted to receive.

Instead, they hated on others successes to cope with their failures.

REMOVE THIS BRAINWASHING ASAP.

BLESS THAT WHICH YOU WANT TO RECEIVE.

You see a guy who is great with women?

Say- "That's so badass. Every Man should be like him. I can learn so much from him"

You see a Rich and Powerful Man?

Say- "That's amazing, he worked so hard for it. I will be rich one day and create positive impact on this world"

How you tell situations to yourself will decide your reality.

Bless that which you want to receive.

▼ **On Energy**

Energy is the probably the most real substance in the universe.

Time is man made, money is man made, but energy is REAL.

As a High-Value Man on a mission, you MUST protect your energy from “energy leeches”

Those who always talk about a negative event, about their bad luck, basically the Debbie downers.

Whenever I come across them, I instantly say “Well, it’s a good thing that we’re god’s favorites”

At time same time, go where you feel most energetic and receive most positive energy.

Being around the right people will help you absorb their energy like osmosis.

▼ On Love

I have a unique take on love.

I believe love is very real.

But love is a FEELING.

It could last for a second, or for a lifetime.
A part of you, however small, will always still love & care for that girl.

Don't fight it.

Rather cherish the great moments you had and forget the bad ones.

And when you do that, understand that your heart has plenty of space to love another girl, and another one after that.

That's the beauty of it all.

Just remember to not “Fall in love”

Instead, “feel love”

Women fall in love. Men feel love.

Won’t explain. 😉

▼ On Masculinity

I saw a tweet recently which made a strong impact on me

It’s a great thought, but it’s misguided.

Most of twitter is all about one dimensional masculinity, agreed.

True Masculinity is about Honor, competence, Being a man of your word, doing the right thing, standing up for what you believe in, taking on responsibility,

YES

AND

It’s is equally as much about HEALTH, about FITNESS, and about WOMEN.

Masculinity is less about characteristics and MORE about A WAY OF LIFE.

A MASCULINE MAN Lives the length AND more importantly, the BREADTH of Life.

Women play a huge role in a man’s life.

They’re the color of an otherwise grey life filled with aggression, wars, and struggle.

Fitness and health are literally the pillars of a man’s life, without which the entire wall would crumble.

Masculinity is not about character traits, but rather about WHAT YOU DO.

… AND MOST IMPORTANTLY,

▼ **On Beauty**

Beauty moves the world.

Men have fought wars since the dawn of time in search of beauty, inspired by beauty, and for the preservation of beauty.

I have a major saying-

“Surround and Normalise yourself to Beauty”

That’s the reason I post aesthetic pictures of women, nature, and even masculinity on my socials.

Often guys reply “MR this is going to make me break my nofap streak”

That’s the thing- it makes you lose control because you haven’t been exposed to beauty as much. It’s rare for you. NEW.

But what if you’re used to it?

What if you use it an inspiration to be better?

BEAUTY MOVES THE WORLD.

BONUS:-

▼ **On The Dark Triad**

I don’t talk much about this because it always attracts messed up girls and leads to a destructive relationship.

Sure, it will make women obsessed with you.

But do you really have the time to deal with such women who will be on your case 24x7?

These dudes are also getting a lot of false rape allegations as well, because one day the girl wakes up from her nightmare (which is the relationship between her and

the dark triad dude) and realises what happened.

All she needs to do is put together a few screenshots to make you go to jail.

Trust me bros, Dark Triad is not worth it to learn.

You don’t need it, unless you want to make women your #1 purpose in life.

It always ends up in tears and broken plates.

You have bigger things in life to focus on than “ok here is what I will do to piss her off today”

Still, there are some good concepts of dark triad which I teach anyway, like “giving her the gift of missing you” and some others which I can’t discuss here but do inside Seduction Bible.

They are what a naturally attractive man would use.

Sold to

IS IT EVEN POSSIBLE TO MAKE A GIRL SEXUALLY ATTRACTED IN SECONDS?

I know what you're thinking.

You've tried to make girls attracted for hours, days, even years without success. How is what I claim possible?

A girl decides within the first 12 seconds of meeting you if she will sleep with you or not

And within about 30 seconds to 1 minute of conversation, she will either start imagining you inside her wet, drenching pussy,

OR she will imagine ways and excuses to get rid of you.

I'm going to explain how attraction works, why some girls rejected you in the past, and of course, how to make any girl feel sexually attracted to you within SECONDS. WITHOUT NOTICING WHAT YOU'RE DOING!

Why would I do such a thing?

Because I'm on a mission to have a brotherhood of 1,000,000 Men who have unplugged themselves from the matrix and effortlessly sleep with top-tier women, while they dominate their purpose as they live a life FULL of freedom- in 2023 and beyond.

And that includes YOU.

ATTRACTION IS NOT A CHOICE.

Women don't "choose" to feel attracted to men, it just happens.

This is why women fvck men who they refer to as "He's an asshole!" and friend-zone guys who they call "He's a great guy"

Which, of course, means that there is an EXACT formula behind female attraction that ANY GUY can learn.

Doesn't matter if your bank balance has 3 digits, if your car has only one functioning headlight, or what you look like. attraction has only one language...

And when a girl is truly ATTRACTED to you, she will rationalize everything you do.

You can be an ass, and she will think- "***Oh, he's just being playful, we're at that level now***"

You can ignore her, and she'll rationalize: ***"Oh, he's trying to make me think about him. how considerate***"

What are the 3 Elements of The 30-Second Seduction, you ask?

drumroll

F + D + C = Sexual Attraction

Fun/Playful + Disqualifying + Challenging = Her Pussy's Wet.

When you combine fun with disqualifying her, and at the same time you are a challenge for a female, she feels attraction for you.

CHEMICALLY. INVOLUNTARILY.

F= FUN/PLAYFUL:

DON'T MAKE FUN OF YOURSELF. That's the wrong way.

The right way? Is being that other guy she's thinking about who SHE can't seem to figure out because he keeps teasing her and leaning back in a self-loving, cocky aura, while asking her charismatic questions like-

- *"At what moment did you..."*
- *"Let's say you are going to become really close friends with somebody. What are two things you want them to know about you?"*
- *"So, why do you like me so much right now?"*

D= DISQUALIFYING:

It's basically conveying "You're not quite up to my standards yet."

This is NOT done in an arrogant way, but in a playful way with a smirk on your face-

- *"You're 2 inches too short for me"*
- *" You remind me of my little sister"*
- *"You're like the mom of the group, aren't you"*
- *"You're too innocent for me, come let's find you a suitable guy"*

Of course, what all this does is- It makes her WANT YOU MORE. Because You become the forbidden fruit that she CAN'T HAVE.

C= BEING A CHALLENGE:

How your Mindset should be going into any interaction:

Hm..what do we have here. Another pretty face. She has no idea what she's about to experience- a charming, teasing, dominating, blunt badass who she's going to get hooked to. Of course, I'm going to make her earn it- give her a little then take it away. And if she turns out to be MORE than just a pretty face, I might even give her more of myself."

Come up with ridiculous answers about why she can't be with you

- *Example- Wait, you're from LA? Yeah, it would never work out between us.*

Set her up with other guys-

- Example- *You're single? What's wrong with you? Come, let's find you a boyfriend (proceed to go around the bar and point at the biggest d0rk you can find)*

Challenging her to a game:

- Nothing crazy or serious, it should be fun, light on her brain, and silly. For example, challenging her to see who can finish their bottle of beer first, or who can walk straight after having 10 shots of vodka.

Final Thoughts

The FDC formula can be used in literally any interaction with women.

The best part? women will never notice why its happening. WHY THEY FEEL INCREDIBLE ATTRACTION TOWARDS YOU.

When you combine this with the Cold Approach Bible, getting the quick wins from women will be as easy for you as taking a shower. But, the goal is not just to get laid, but to make women ADDICTED. Which is why you must look into Week 6 and Week 8!

INTRODUCTION

You already know EVERYTHING about seducing a woman, about making her attracted to you and to make her want more of that D.

You also have a shit-ton of cool tricks and fun games you can play with her.

But I wanted to add something more to this course, because
A) I always OVERDELIVER VALUE and
B)I know you're all greedy mofos ;)

so here's are some quick done for you conversation sequences so you literally don't even have to use your brain at all.

INTRODUCTION

I highly recommend you to use these with your own little variations here and there-

because conversation is an ART, NOT A SCIENCE.

You could use one of these techniques, then go back to banter and teasing, and some deep conversations

(because these sequences will make her attracted to you)

So, here they are-

1- THE CALL-OUT (BRAIN SCRAMBLER)

So you're talking to this girl, and you're out on a date, or in a social place.

First, come to the realization, and ask her-

"You're not a bullshitter, are you?"

She's going to be like- *"What do you mean?"*

So you tell her- (here, you turn shoulder to shoulder with her and point towards your environment- this strengthens the US vs THEM frame)

"Look Around, everybody is out here trying to bullshit other people to try to impress them. Nobody is real anymore, nobody has that authenticity within them. If I'm talking to anybody like this, I'll cut the conversation in the middle and go talk to somebody chill" (A passionate rant)

1- THE CALL-OUT (BRAIN SCRAMBLER)

She's going to say she's not a bullshitter or try to qualify herself, at which point you tell her- no,no there's only one way to make sure you're not a bullshitter.

Her- *"Which is?"*

You- *This game of fuck, marry, kill, have you played? That's it we're playing this game RIGHT NOW"*

You explain the rules, then right when you're about to play, you're like *"Actually, I'm not in the mood anymore. Besides, you're going to lose anyway"*

You take it away and subtly disqualify her.

Like a dog chasing a bone, she will tell you "*no no we have to play"*

At this point, you reply with *"ok FINE, FINE! gosh" (playful)*

1- THE CALL-OUT (BRAIN SCRAMBLER)

Now obviously, you select the 3 lowest value guys in the environment and she has to choose who she will fuck, who she will marry, and who she will kill.

Of course, you make fun of her bad choices and accuse her of being hopelessly in love with the guy she wanted to marry-

and you drag her by the hand to go introduce her to him

(of course, she will pull back and her attraction will RISE for you)

Extremely. fucking. powerful.

2- THE UNDER THE OATH GIRL

So you're talking, having fun, using the cold reads and qualifying her. (This is basically where you can use any of all the sequences given here)

Tell her-

“You know, you have an under the oath face”

She’s going to ask what it means.

you can Tease for a bit saying, *"that’s such an under the oath response"*, blah blah blah

Don't tell her yet.

Then ask her if she has ever played the *“two truths and a lie”* game

Regardless of what she says, tell her you’re playing it right now.

2- THE UNDER THE OATH GIRL

(For those who don't know- she has to say 2 truths and a lie, and you have to guess which one is the lie)

Here's the best part-

If you guess her lie correctly- say, *"I obviously don't know you very well"* (sarcastically) and if you don't guess it right, say:

" jeez, You're too good at lying and I can never trust you." Optional- *"..That's why we can never date."*

(Always implying she's attracted to you, and setting a flirting foundation)

This gets the fun vibe going, and RIGHT THERE, when you're at a good point, tell her-

2- THE UNDER THE OATH GIRL

“You know what? You’re fun. What kind of drink do you wanna buy me? “

Or *“imma let you buy me a drink”*

Did you realize what you did there?

YOU TOLD HER THAT SHE CAN BUY YOU A DRINK.

That's such a flip on her.

She's used to guys begging her to accept a drink FROM THEM.

And here you are, TELLING HER, THAT *"SHE'S FUN"* and you ALLOW HER TO BUY YOU A DRINK.

Her jaw will drop.

You’re implying that you are the prize.
This in itself will make her so attracted to you, it's incredible.

3- THE TOUCH INITIATOR

This is especially good if you can sense the vibe dying down. You look at her hands for a second and say-

"Damn, you have big hands"

with an highly expressive and disqualifying(disgusted) voice. (but a smirk as well)

Of course, she's going to back fight. But subconsciously, she feels disqualified by you.

Then, just grab her hand and again comment on how big it is, and start comparing her hands with yours- (gets the touch going)

Now Here's the key- THROW her hands away immediately after the comparison.

Push and pull, badass.

3- THE TOUCH INITIATOR

You got the touch going by holding her hand (pull), then you pushed her away by literally throwing her hand away.

The dead vibe in the interaction has now suddenly increased 10 fold.

You've taken her on a rollercoaster on STRONG EMOTIONS- NEGATIVE AND POSITIVE. This is Going to make her 10 times more attracted to you.

Now, bring it back by saying *"let's play a game of slaps with your big ass hands*" teasingly. (pull)

And then play, hit her hand hard, win, and then tease her for not being able to handle you, and how you could never be together, and take bring her in for the kiss. (push)

Thank you for coming to my Push and Pull masterclass today.

It's too simple dude ;)

4- DECODING HER LIKE THE MATRIX

(credit Neil Strauss)

Here's how this works-

After there's a teasing challenging vibe through all the techniques you've learned in the course, you take her alone for a real conversation (she's earned it)

Tell her *"you know, you're actually kinda different than I thought you'd be"*

You're still not complimenting her, and this makes her curious *"does he mean this in a good way or bad"*

She'll say what do you mean blah blah,
You say *"I can't tell you yet"* (making her wait)

Then, tell her you just learned this psychological test that's supposed to make you really happy from a friend.

Who the fuck would refuse something like that.

But still, you can make her qualify a bit more by saying-

"You sure you can handle it?"

Then give it to her finally-

Here's how it goes-

First question-

1. What's ONE thing that you LOVE to DO, like you lose yourself in it?

Example response- *Travelling*

Second question-

2. *I want you to imagine you're (doing what she loses herself in it) = travelling= and it's the PERFECT scenario.*

imagine it to me

Her Example response-

"I'm moving along the Scottish highlands, with my boyfriend and our pet dog by my side.

Third question-

3. Repeat back to her exactly what she said and then ask her, *"as you're imagining that (insert word to word what she said), if you had to describe all that in one word, what would that word be?"*

So in this case, you will say "*So as you're imagining moving along the scottish highlands with your boyfriend and pet dog, if you had to describe that feeling in one word, what would that word be?*"

Her example response- *Freedom?*

Then you finally say-

"That's your core value- the one emotion that's most important to you- that you are born to move towards every single day, and you work hard to move towards it everyday"

PRO TIP-

Point towards yourself as you say that, it's some advanced NLP shit that will make her connect those emotions with you.

you can touch her shoulders, or palm as well as that will do this on steroids

To top it off, tell her how your time runs into $1000/ hour, and that you accept cash.

Just fun vibes all around.

(That in itself is 100 times the investment you put into this course. This will make her think about you all night. In fact, you can also use this with your male friends to develop a strong bond with them- after basic rapport has been built, of course)

5- THE SOCIETAL "FUCK YOU!"

Again, mid conversation, tell her *"close your eyes, and Imagine you're walking down the tree and there's a fence."*

And then ask her these questions-

"Question one- how high is the fence?"

Her Example response- shoulder height.

Reply- hmm. Interesting.

(Already she's curious about why it's interesting.)

If she asks what do you mean, or what does this mean, tell her *"easy, tiger. We got 2 more questions"*

5- THE SOCIETAL "FUCK YOU!"

"Question two- now imagine you're on the other side of the fence, inside the farm, and you realize it's this amazing cherry farm. You're running around the field, seeing red everywhere. How many cherries do you take?"

Her reply- *"the entire farm!"*

Your comment- *"Really?"* (In a shocking tone, with a disqualifying underline)(still holding back)

Her emotions are even more spiked since she's unsure of where this is going or what she's supposed to answer.

It's not over yet :)

5- THE SOCIETAL "FUCK YOU!"

3-" *so now you took X amount of cherries. (In this case, "so you took the entire farm. What about the farmer?"*

She'll be like *"the farmer?"*

You- *"of course, it's not a random natural forest dumbass. there is a farmer putting in the work. The farmer comes out and sees you taking these cherries- what do you think he will feel? What will he say?*"

She will say either *"fuck him"* or *"he'll be pissed"*

Regardless, here's what you reply-

Ok, so you wanna know what it means?"
She will be like yes yes!

Say *"alright cool, bye"* and pretend to walk away.
Lol.

5- THE SOCIETAL "FUCK YOU!"

She's going to pull you back and she's working for you- so this is one way you can do it,

Here's the other way (if you choose to give her the answer directly)

"Ok so the height of the fence depicts how high your ambitions are in life. It's how high you're setting the bar."

"So most people say it's knee height, and some say it's above the head. They set their bar too low or too high. But you set it just right. damn girl, stop trying to make me like you"

(already she's wet inside + you accused her of trying to make you like her)

5- THE SOCIETAL "FUCK YOU!"

"The amount of cherries is how high your sex drive is.

Most people take 2, maybe 3cherries, so you have an extremely high sex drive. I'm going to have to be careful around you. I'm curious, how many times in the last 10 seconds did you think about sex? 5? 7?"

(the playful, fun, challenging vibe gets built. You're framing her as the aggressor)

"Alright, third one, the farmer. His reaction means how you view society and how they view your sex drive. Obviously , you don't give a fuck about what the farmer thinks."(If she said fuck him)

Fucking amazing,I know.

5- THE SOCIETAL "FUCK YOU!"

Here's the key-

LOOK INTO THE DISTANCE IMMEDIATELY AFTER.

Don't even look at her.

This shows how non reaction seeking you are, how you're so nonchalant about the highly charismatic thing you just said.

You took her on an emotional rollercoaster and you didn't even bother to seek validation.

SHE'S WET ALREADY.

Highly. Fvcking. Attractive.

From that point, you can chill and make her work for it.

6- THE UNO DOS TRES SEQUENCE

This one is my favorite, because of how simple yet magnificent it is.

Look at her and say,
"you know, I think there 3 things I like about you"

Pause.

Make her wait. She's incredibly curious.

Here's what you say-

"Most girls are so basic. I can just predict what they're gonna do.

But you, you seem to be this really spontaneous girl who would say yes to a good opportunity that came up, immediately."

6- THE UNO DOS TRES SEQUENCE

(Great framing in there. You are the "opportunity here and she is going to be more open to your advances because you framed her as that. Evil. I know.)

2nd thing- call back to something she said earlier, that you genuinely liked and appreciated.

If she mentions how she loves art- you can say *"Remember what you said about you appreciating genuine art? It's so rare in people nowadays to understand the depth behind art, it's just something I can't talk to with a lot of people."*

Use the exact wording she used earlier.

Now, onto the legendary stuff.

6- THE UNO DOS TRES SEQUENCE

*"Now, the 3rd thing"- *look guilty, and say- "well, I can't tell you, because if I do, you'll stop doing it"*

And you NEVER tell her.

Not if you just met her, not if 6 months pass, not if you're 70 and talking to your grandchildren.

let her wonder, let her imagine. she's going to love it.

Mystery + Charisma.

FINAL THOUGHTS

Damn dude, I see that evil, charming smirk on your face. You're fucking excited to use these, aren't you.

Just be careful, you might seriously have to hire a bodyguard due to the amount of girls stalking you after you use these sequences.

And if you're enjoying the course, Tweet out your review! Would love to hear your thoughts, and it will help a ton with the feedback.

TATTOO THESE IN YOUR BRAIN.

HOW TO USE WORDS THAT MAKE HER DRIPPING WET

GUIDELINES

Women love wordplay.

They know a man is going to be dominant and great in bed when he can confidently insert subconscious “cues“ inside her brain- that is, words that make her wet.

That being said, some words here can be used anytime in the correct context, whereas some words can only be used after a certain level of comfort and trust has been built, otherwise, she might think you’re another creep.

Remember, your main goal is to insert these into her subconscious, so play around with these words and form your own sentences that seem “socially acceptable“ on the surface, but both of you know what’s up.

Practice is extremely important.

Set a daily reminder on your phone where you open and just go through these words, and form 2 sentences. Send me fun ones on Twitter and I’ll feature them!

SOME EXAMPLE

Punish- “You better behave like a good girl or somebody will need to be punished.“

Choke- “ With all the responsibilities, Don’t you feel like you’re being choked sometimes?“

Spank: “That ass deserves a hard spanking.“ (say this to her about her ass or some random girl you see on IG or walking by)

Panting- I was out for a run the other day, and I didn’t realize but I ran 10 kms. I was panting by the end of it.

Desire: “ You know what’s missing from this world? Passion and Desire. You look at people and all you see are hollow eyes with empty souls.“
